All Lawn Mixtures Up To 5 Pounds Are Delivered Free of Transportation Charges

PRICE'S "SPECIAL" FINE MIXED LAWN GRASS SEED

Our mixture absolutely can be relied on as being made up of the finest quality of grass seeds obtainable, free from weed seeds, chaff or fallow and of the very best and highest germinating qualities. It is a special mixture of grasses that do best in our soils. The increasing demand for a lawn seed having a larger proportion of White Clover induced us to offer this mixture which contains a most liberal quantity of best re-cleaned White Clover. Sow 1 pound to 200 square feet (10x20). 1 lb. 40 cts., 2 lbs. 75 cts., 5 lbs. \$1.75, 10 lbs. \$3.50, 20 lbs. (bu.) \$6.50.

PRICE'S "CAPITOL PARK" LAWN SEED

This is a very good mixture, but contains fewer number of Swarding Grasses. 1 lb. 30 cts., 2 lbs. 50 cts., 5 lbs. \$1.25, 10 lbs. \$2.50, 20 lbs. (Bu.) \$5.00.

PRICE'S MIXTURE OF GRASSES FOR SHADY PLACES

While it is impossible to maintain a permanent lawn in certain shady locations, such as under soft maple trees, we have combined in this mixture certain grasses that are more resistant to these harsh conditions. We recommend this mixture to be especially prepared for shady locations. Sow 1 quart to 100 square feet (10x10 ft.) 1 lb. 50 cts., 2 lbs. 90 cts., 5 lbs. \$2.00, 10 lbs. \$3.50, 20 lbs. \$7.00.

SEPARATE VARIETIES OF GRASSES MOST SUITABLE FOR LAWNS

White Dutch Clover—Excellent for lawns, prevents washing on banks and terraces, makes a close compact growth. ¼ lb. 20 cts., ½ lb. 35 cts., lb. 60 cts., 5 lbs. \$2.75.

Seaside Bent—For fine lawns and Putting Greens. Hardy, creeping variety, rapid grower. Lb. \$1.50, 10 lbs. \$14.00.

Chewings Fescue—For lawns, Putting Greens and Fairways, Makes a fine compact turf, dark green in color. Lb. 65 cts., 10 lbs. \$5.75.

Kentucky Blue Grass—For lawns. A true perennial lasting indefinitely and improving every year. Lb. 40 cts., 10 lbs. \$3.50.

Fancy Red Top—Fine for lawns. A perennial. Grows on any soil and is strongly drought resistant. Lb. 35 cts., 10 lbs. \$3.00.

Rough Stalk Meadow—Forms a fine turf and is adapted to shady spots. Lb. 65 cts., 10 lbs. \$5.75.

Timothy—Extra re-cleaned and high germinating. Free from weeds. Lb. 20 cts., 10 lbs. \$1.50.

Vigoro—A complete fertilizer for fine lawns. 5 lbs. 50 cts., 10 lbs. 85 cts., 25 lbs. \$1.50, 100 lbs. \$4.00.

Peat Moss—To add humus to your lawn. Large bale \$2.85. Covers 300 sq. ft. 1 in. deep.

Fertilizers Are Necessary in Making a Good Lawn

PRICE'S 1938 CATALOG

It is with much pleasure we present to our friends the 1938 edition of our Catalog. We have listed only the best and most called for varieties of Vegetable, Grass and Flower Seeds available today, and have described them accurately and clearly in as few words as possible. We hope you will benefit from our efforts.

HOW TO ORDER SEEDS BY PARCEL POST

We earnestly advise that all light shipments go by Parcel Post whenever possible. We will pay postage on all small seeds in packets, and in bulk up to 1 pound, anywhere in the United States. We can send seeds in any quantity up to 70 lbs. **Within the First and Second Zones from Albany add to your remittance for postage as follows: 1-pound orders, 8 cents; for each additional pound, 1 cent.** For rates to other Zones, inquire of your postmaster. **The necessary postage must be sent with the order.**

EXPRESS and FREIGHT SHIPMENTS

We can send them collect and you can pay the transportation charges on delivery.

HOW TO SEND MONEY

Remittances should be made by Post Office Money Order, Express Money Orders, Drafts, or Checks.

CONDITIONS OF SALE

No seeds are sold by us that we do not know are of good vitality and will grow under normal conditions. They are all tested and the percent that germinates is marked on the package or label so you can tell just how many seeds out of one hundred will germinate.

NON-WARRANTY

Price's Seed Store gives no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs, or plants they sell and will not be responsible for the crop. If the customer does not accept the goods on these terms, they are at once to be returned and the amount paid for them will be refunded.

TERMS

TIME PAYMENTS. To gardeners of established credit and to those who furnish us with satisfactory references.

PARCEL POST RATES

	First Pound or Fraction	Each Additional Pound or Fraction

2d zone. Over 50 and under 150 miles from Albany, N. Y. .	.08	.01
3d zone. Over 150 and under 300 miles from Albany, N. Y. .	.09	.02

GARDENERS and TRUCKERS

For years we have served the Market Gardeners and Florists of New York State and adjoining states; handling the finest quality of Vegetable and Flower Seeds obtainable. They not only require seeds of good germination, but of strains representing the several types required; besides supplies of all kinds, Fertilizers, Spray Materials, Machines of various types, Fruit and Berry Baskets. We aim to please and therefore put forth every effort to carry in stock HIGH GRADE Seed and Supplies that the Vegetable Grower may need.

VEGETABLE SEEDS

Pure Bred Stocks of the Choicest Varieties

"THE GERMINATION IS MARKED ON EVERY PACKAGE OF PRICE'S SEEDS"

Artichoke

Seed may be planted during March or April. When large enough to transplant, they should be set in rows about 4 feet apart and about 2 feet apart in the row.

Green Globe

Plants of medium height with large thistle-like medium deep green foliage. The edible buds or flower heads are deep green, globe-shaped or ovoid. The fleshy bud scales, moderately broad and full at base, are regarded as a delicacy. Pkts. 10 cts., 1/2 oz. 30 cts., 1 oz. 50 cts., 1/4 lb. \$1.50.

Asparagus

Soak the seed 24 hours before planting. Sow in spring in rows about 18 inches apart, and 15 to 20 seeds to the foot. Cover 2 inches deep. Thin the young plants to about 1 inch apart. Hoe frequently. Set plants in permanent beds the following spring.

Mary Washington

Mary Washington has proven to be highly rust resistant, hardy and productive. The shoots are long, straight, thick, and heavy; dark green the entire length, except tinted darker at the tips. Pkts. 10 cts., 1 oz. 15 cts., 1/4 lb. 40 cts., 1 lb. \$1.50.

Palmetto

Of very large size, even and regular in growth and appearance. A very early sort immensely productive and of the best quality. Pkts. 10 cts., 1 oz. 15 cts., 1/4 lb. 30 cts., 1 lb. 90 cts.

Asparagus Roots

Set Out in March and April
Fresh Dug—Not Cold Storage Roots

CULTURE—Dig or plow out a trench 15 to 18 inches deep, put in plenty of well-rotted manure, covering it with a few inches of soil, then set the roots 1 1/2 to 2 feet apart and cover with 4 inches of soil. In the fall, cut off and burn the top growth, plow or throw down the earth and give a good application of stable manure. Early in the spring fork this in and apply ground animal bone. If white asparagus is wanted draw earth around the stalks as they grow. Do not continue cutting too long, as this exhausts the plants. 100 roots plant about 15x50 feet; 5,000 to 7,000 will plant an acre.

Washington Rust-Resistant

Two-year-old roots. By mail postpaid, 25 for 60 cts., 50 for 90 cts., \$1.50 per 100; not postpaid, 25 for 50 cts., 50 for 75 cts., \$1.25 per 100, \$8.50 per 1000.

Palmetto

Two-year-old roots. By mail postpaid, 25 for 50 cts., 50 for 75 cts., \$1.25 per 100; not postpaid, 25 for 35 cts., 50 for 60 cts., \$1.00 per 100, \$7.00 per 1000.

Asparagus Tape

Fast red; spools of 1000 yards.

Asparagus Bunchers and Asparagus Knives

Broccoli

Italian Green Sprouting (Calabrese)

A variety that has become very popular. It branches freely, each branch forming a head in bud cluster. The central head is cut first and as the side shoots develop they are cut with about 6 inches of stem. Five or six cuttings are frequently made from one plant. It has a distinct flavor considered superior to cauliflower, served in much the same way as Asparagus. Can be sown in spring, summer or fall, and cultivated like cauliflower or cabbage. Our strain of this delicious vegetable is a very fine early one, the first cutting may be made in about 90 days and if the central head and sprouts are cut as they develop it will yield an abundance over a long period. Market Gardeners realize good profits as it commands the highest prices and is in growing demand. Pkt. 15 cts., 1/4 oz. 20 cts., oz. 50 cts., 1/4 lb. \$1.75.

Broccoli, Green Sprouting

Brussels Sprouts

One of the most delicious garden vegetables. Plant in 3-foot rows, 1 1/2 to 2 feet apart. One ounce will produce about 200 plants. Cultivate same as cabbage. Autumn grown sprouts, drilled in May and transplanted in July, generally do the best, as the plants are quite hardy and the buds mellow under frost.

Half Dwarf Improved

Highly desirable for home and market garden. Plants 20 to 24 inches tall; stems thickly set, with firm Cabbage-like balls of 1 1/2 inch diameter, maturing successively. Pkt. 10 cts., 1 oz. 50 cts., 1/4 lb. \$1.25.

Send Us Your Order Early

This Insures Our Customers Having the Seed on Hand When Planting-time Arrives.

BEANS

CULTURE—Plant after the weather has become settled in the spring, in rows two feet apart, about two inches deep and from 4 to 6 inches apart in the rows, firming the soil to assist germination. A warm, well enriched loamy soil is most suitable, and plantings may be made every two weeks until August. Give frequent shallow cultivation, but never when the vines are wet. One pound to 100 feet of row, 60 pounds to the acre.

FOR BEANS IN LARGE QUANTITIES SEE OUR WHOLESALE LIST

All Beans—Wax or Green

Pkt. 10 cts., $\frac{1}{4}$ lb. 15 cts., $\frac{1}{2}$ lb. 20 cts.
(60 lbs. per bu.)

DWARF WAX OR BUTTER BEANS

Sure Crop Wax

Sometimes called Bountiful Wax. Originated by Calvin N. Keeney. Introduced in 1911. Particularly desirable for truckers and shippers. Similar to Currie's Rust Proof, but stringless and a few days later. Plant large, sturdy, very productive. Pods golden yellow, thick-flat; brittle, strictly stringless; very little fiber, fine texture and quality. 1 lb. 35 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

Pencil Pod Black Wax

The Best Round Podded Wax Bean

This is considered without doubt the best round pod wax bean both for home use and market. The pods are 6 to 7 inches long, straight and as round as a pencil. The pods are clear yellow, very brittle, stringless and of the finest quality. Matures early and the plant is vigorous and productive. The seed is black. 1 lb. 35 cts., 8 lbs. \$1.44, 15 lbs. \$2.40.

Webber Wax

Also called "Cracker Jack" or "Wonder Wax"

The Earliest Wax Bean

Pods are long, straight, flat stringless, clear yellow and of fine quality. Very prolific, and one of the most profitable market varieties on account of its earliness. 1 lb. 35 cts., 8 lbs. \$1.44, 15 lbs. \$2.40.

Unrivalled Wax

Very early, with long nearly round clear yellow pods. It is stringless when young and very vigorous and prolific. A profitable market bean but not of the best quality for home use. 1 lb. 35 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

Round Pod Kidney Wax or Brittle Wax

Originated by Calvin N. Keeney and introduced in 1900. An outstanding sort for home use and for the canning trade. Plant large, erect, medium green, vigorous and productive. Pods handsome in appearance, medium yellow, round, slightly curved, deeply crease-backed, extremely brittle, fleshy, succulent, entirely stringless and fiberless; the standard of highest quality. Seed white, kidney shaped, with black eye. 1 lb. 35 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

Davis Stringless Wax

Plant medium large. Pods thick-flat, light yellow, straight, uniform and attractive; stringless, fibrous, of fair quality. Seed white, kidney shaped. Good for baking. 1 lb. 35 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

Wardwell's Kidney Wax

Very large, broad flat pods of deep butter yellow. Early and of high quality. One of the best "butter beans" but somewhat apt to "rust" in wet weather. 1 lb. 35 cts., 8 lbs. \$1.44, 15 lbs. \$2.40.

Sure Crop Wax

GREEN PODDED DWARF OR BUSH BEANS

Black Valentine

Very early and prolific and a most profitable market variety but not of high quality. The pods are long round, light green and of attractive appearance but not stringless. 1 lb. 35 cts., 8 lbs. \$1.36, 15 lbs. \$2.25.

Black Valentine (Stringless)

(Round Pod)

Similar to Black Valentine, but a little lighter in color, without strings. 1 lb. 35 cts., 8 lbs. \$1.44, 15 lbs. \$2.40.

Asgrow Black Valentine

Received All-America Award of Merit for 1933. Well adapted for market garden use and for early shipping. Plant large, erect, prolific. Very attractive, oval pods nearly straight, dark green, strictly stringless. Fine quality and delicate flavor; retain color and texture in shipping long distances; solid black. Seed similar to Black Valentine except that it is free from strings. 1 lb. 35 cts., 8 lbs. \$1.44, 15 lbs. \$2.40.

Giant Stringless Green Pod

Larger than Stringless Green Pod and fully as early. Round, light green pods of high quality. 1 lb. 35 cts., 8 lbs. \$1.44, 15 lbs. \$2.40.

Burpee's Stringless Green Pod

Round, thick, light green pods of high quality. 1 lb. 35 cts., 8 lbs. \$1.36, 15 lbs. \$2.25.

Bountiful

The Best Flat-Podded Green Bean

This is one of the earliest green pod varieties. The pods are handsome, long, straight, flat and entirely stringless. It is very productive and continues in bearing a long time. One of the best market and home garden varieties. Our seed is grown in disease free fields from a carefully selected heavy yielding stock. There is no better stock obtainable. 1 lb. 35 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

Full Measure

An excellent market gardeners' and canners' bean. Plants hardy, branching freely and bearing a good crop of pods. Pods 6 to 6½ inches; round, straight, deep green and strictly stringless. 1 lb. 35 cts., 8 lbs. \$1.44, 15 lbs. \$2.40.

Tendergreen

55 days. The finest quality of the dwarf green podded varieties. Round podded, heavy yielder. 1 lb. 35 cts., 8 lbs. \$1.44, 15 lbs. \$2.40.

Price's Stringless Green Pod

Highly desirable for truckers and canners. Similar to Full Measure, but hardier, and a more dependable cropper. Plant medium large, erect, somewhat thick stemmed, heavily productive. Pods nearly straight, dark green, round, meaty, succulent; absolutely stringless, totally without fiber, of outstanding quality. Oblong, purple mottling on buff with brownish cast. 1 lb. 35 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

French Horticultural Special

The best strain of dwarf Horticultural beans. More prolific and vigorous than other kinds. Pods long, straight and highly colored. Matures a little later than Ruby Dwarf Horticultural and has taller vines. ¼ lb. 15 cts., ½ lb. 20 cts., 1 lb. 35 cts., 8 lbs. \$2.08, 15 lbs. \$3.60.

POLE OR RUNNING BEANS

Kentucky Wonder (Old Homestead)

65 days. Unexcelled for home and market garden. Excellent climber, thrifty, heavily productive. Pods medium green; 9 to 10 inches long, nearly round and ½ inch in diameter; slightly stringy, very fleshy, brittle, tender; seeds dun-colored. ¼ lb. 15 cts., ½ lb. 25 cts., 1 lb. 40 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

Kentucky Wonder Wax

67 days. Good climber, heavily productive. Pods wax yellow; 8 inches long, ⅝ inch wide, almost as thick as wide; practically stringless; fleshy, brittle, tender; seeds chocolate brown. ¼ lb. 15 cts., ½ lb. 25 cts., 1 lb. 40 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

London Horticultural or Speckled Cranberry

Snaps 70 days; green shell beans 80 days. Good climber. Pods 6 inches long, ⅝ inch wide, thick, straight, stringless; dark green at snap stage, yellowish-green splashed with violet-red at green shell stage. ¼ lb. 15 cts., ½ lb. 25 cts., 1 lb. 40 cts., 8 lbs. \$1.44, 15 lbs. \$2.40.

Beans - Lima Varieties

CULTURE—Lima Beans require even more heat than other Beans. They should not be planted until the ground is thoroughly warmed. Bush Limas should be sown on good garden soil in 2 to 3 ft. rows, 3 to 6 inches apart, eye down, cover 1 inch. One pound will plant 50 to 60 feet.

Pole Limas are more tender than the Bush Limas. Set 6 ft. poles, 4 feet each way and drop 4 to 6 beans, eye downward around each pole, thinning to 3 plants when up.

All Lima Beans

¼ lb. 15 cts., ½ lb. 25 cts.

Fordhook Bush Lima

Most used by market gardeners of all large seeded Dwarf Limas. Potato lima type. Plant large, upright, vigorous, highly productive. Pods straight, with thick fibrous walls; contain 3 to 4 seeds. Green shelled beans large, thick-oval, of excellent quality. Dry beans white with tinge of green. 1 lb. 45 cts., 8 lbs. \$1.80, 15 lbs. \$3.00.

Burpee's Improved Bush

75 days. This strain of Burpee's Bush Lima has beans of larger size and deeper green color than the old strain and the vines are more true to the bush, forms with fewer runners. The beans are both larger and thicker than the old form and the pods are also larger. Pods 4½ to 5 inches long, 1⅛ inches wide, ⅜ inch thick. Usually contain 4 large, thick beans. 1 lb. 45 cts., 8 lbs. \$1.80, 15 lbs. \$3.00.

Henderson's Bush

(Baby Lima.) 65 days. Very popular for canning. Plant medium large, heavily productive. Pods small; 3 inches long, ⅞ inch wide, ¼ inch thick; contain 3 to 4 seeds. Green shell beans small, flat, of splendid quality. Dry beans white. This is the bush form of Small White Lima (Carolina or Sieva). 1 lb. 45 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

POLE LIMA VARIETIES

Challenger (Improved)

A potato lima, similar in pod and seed to Fordhook Bush Lima. Plant vigorous, hardy, good climber, very productive. Pods straight, smooth. Quality of green shelled beans excellent. Seed large, almost as wide as long, flattish oval, white with greenish tinge. 1 lb. 45 cts., 8 lbs. \$1.80, 15 lbs. \$3.00.

King of the Garden Lima

The old standard market and family sort. The vine begins to produce pods at the foot of the pole and the bearing season continues until frost. Pods large and well filled with beans of mammoth size. Ready for picking in 88 days. 1 lb. 45 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

FIELD BEANS

Dwarf or Bush, Green Podded

The following varieties of beans are used for baking, soups, etc., and are grown extensively as field crops. These beans should be planted in rows 28 to 30 inches

apart, dropping the seed about 10 to the foot of row. A pound will plant from 100 to 150 feet of row, depending upon the size of the beans.

Large White Marrow or Mountain

Ripe in 100 days. High quality large bean for use dry. Plant large with tendency to form runners; very vigorous and productive. Pods 5½ inches long. Dry beans medium large, white. ½ lb. 15 cts., 1 lb. 25 cts., 5 lbs. 70 cts., 10 lbs. \$1.25.

White Kidney

Ripe in 100 days. High quality large bean for use dry. Plant large with tendency to form runners; hardy, heavily productive. Pods 6-6½ inches long. Beans long kidney shape; white. ½ lb. 15 cts., 1 lb. 25 cts., 5 lbs. 70 cts., 10 lbs. \$1.25.

Red Kidney

Large red, kidney shaped beans. Yields heavily on strong land. Considered one of the most profitable beans to raise for market. ½ lb. 15 cts., 1 lb. 25 cts., 5 lbs. 70 cts., 10 lbs. \$1.25.

Broad Windsor Long Pod

(Also known as Fava Bean and as Horse Bean; not a kidney bean.) Late. Valuable for green shell use. Plant very large and erect, strictly bush. Pods glossy green; 5 inches long, 1¼ inches broad, stout; 3 seeded; smooth. Green shell beans large, broad, flat, light green. Dry seeds very large; circular, flat; pale reddish-brown with black eye. Pkt. 10 cts., 1 lb. 40 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

SELECTED TABLE BEETS

Beets should be sown early in the Spring, as soon as the ground can be worked. Successive plantings may be made till the end of July. Beets thrive best in light, loose, deeply worked soil that has been enriched for a previous crop. Smooth roots cannot be grown if fresh manure is used.

The seed should be sown thinly in drills from ½ to 1 inch in depth, leaving 12 inches or more between the rows to admit cultivation. When well started, thin the plants to stand 3 to 4 inches apart in the row. One ounce will sow 50 feet of drill; 4 to 6 pounds are needed per acre in drills.

All Varieties of Beets

Pkt. 5 cts., 1 oz. 15 cts.

Extra Early Flat Egyptian

48 days. Roots develop quicker than those of any other table beet. Bulbs deep flat, very smooth, dark red. Flesh purplish red. Small tops, excellent for forcing and early market. ¼ lb. 30 cts., 1 lb. 90 cts.

Early Wonder

52 days. A very popular market gardeners' variety. Very early and attractive, splendid for bunching. Roots flattened globe-shape, dark purplish red. Leaves medium short, flesh is deep blood red, zoned a lighter shade. Uniform in growth. ¼ lb. 30 cts., 1 lb. 85 cts.

Asgrow Wonder

50 days. Received All-America Gold Medal Award for 1934. A pedigreed stock, the result of many years of pure-line breeding; unsurpassed in earliness, uniformity, and in depth of interior color. Tops medium, erect, uniform in size and color. Roots semi-globular, deep red, smooth, with small neck and tap root. Flesh purplish red with zones of slightly lighter shade; tender, and of excellent quality. ¼ lb. 30 cts., 1 lb. \$1.00.

Crosby Improved Egyptian

53 days. A very choice form of the Early Egyptian. Shape, however, much more of a globe. Bulbs when cut are raw beef color. Sweet, tender, of excellent quality. A great favorite with market gardeners. Leaves purple mixed with green. Purple midrib. Bulbs free from fibrous roots. ¼ lb. 30 cts., 1 lb. 85 cts.

Crosby's Egyptian, Bright Red Strain

50 days. Color lighter red than Special Crosby. ¼ lb. 30 cts., 1 lb. 90 cts.

Albani

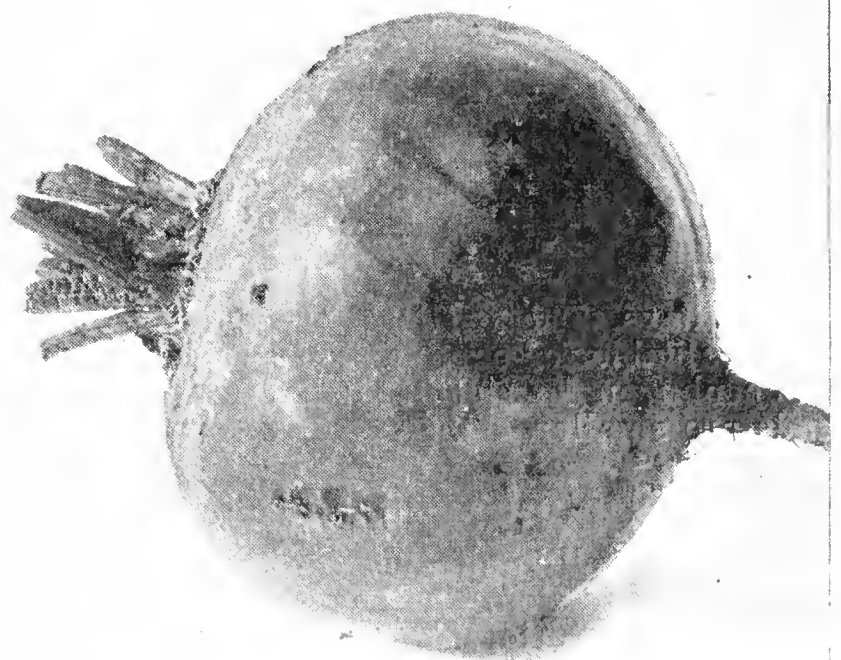

50 days. Color bright scarlet. Has a very fine color when bunched and washed for market. ¼ lb. 30 cts., 1 lb. 95 cts.

Detroit Dark Red

55 days. The standard of excellence in table beets for home and market garden, shipping and for canning. Tops uniform, small, slender, erect. Roots globe-shaped; symmetrical, with small collar and small tap root; very dark blood-red. Interior very uniform in color, the zones so inconspicuous that the flesh seems to be one solid ball of dark blood-red meat; remains tender and of highest quality until roots are full grown. ¼ lb. 30 cts., 1 lb. 90 cts.

Long Smooth Blood Red

The roots grow half out of the ground, are long, smooth, very dark red and of high quality. Used extensively for pickling. Our strain is very uniform for shape and dark color. ¼ lb. 30 cts., 1 lb. 90 cts.

Detroit Dark Red Beet

Mangel-Wurzel Stock Beets

The value of Mangels for stock-feeding is clearly seen in the improved health and condition of the animals, the increased flow and quality of milk from cows, and the saving in fodder. They yield enormously and can be grown at trifling cost. About one-fourth of the daily rations should be of roots. They are also excellent feed for poultry being a valuable egg-producer.

Golden Tankard

Heavy cropper; easily harvested. Roots large, thick oval, nearly cylindrical; light gray above, deep orange below ground; flesh yellow with white zones. Pkt. 5 cts., 1 oz. 10 cts., $\frac{1}{4}$ lb. 20 cts., 1 lb. 60 cts.

Mammoth Long Red

Roots very large; long, straight and thick; grow $\frac{1}{3}$ to $\frac{1}{2}$ out of ground; light red; flesh white tinged with rose. Pkt. 5 cts., 1 oz. 10 cts., $\frac{1}{4}$ lb. 20 cts., 1 lb. 60 cts.

Giant Half Sugar Rose Top

Roots long oval, tapered; grayish-white with rose-colored shoulder; flesh white, rich in sugar. Pkt. 5 cts., 1 oz. 10 cts., $\frac{1}{4}$ lb. 20 cts., 1 lb. 60 cts.

Swiss Chard or Spinach Beet

1 oz. Seed will sow 50 ft.

Swiss Chard is a beet grown mostly for its leaves. The mid-rib when boiled makes delicious greens. Leaves may be boiled and served as spinach. Sown in the spring the leaves are soon ready to eat and if cut will continue to grow and produce tender young leaves all summer and fall. If given a little protection it will survive the winter and make excellent greens early in the spring.

Fordhook Giant (The Best Variety)

The leaves are dark green, very large, much curled or "Savoyed," thick of texture and quite tender. The stems are pure white, broad and thick and make an excellent

Fordhook Giant Swiss Chard

vegetable when cooked separately. The leaves make excellent boiling greens. Pkt. 5 cts., 1 oz. 15 cts., $\frac{1}{4}$ lb. 30 cts., 1 lb. 90 cts.

Lucullus

60 days. Stalks pure white and thick as Rhubarb. Foliage yellowish green and crumpled like Bloomsdale Spinach or Savoy Cabbage. Very choice. Growing in popularity every day. The tops cook like Spinach and the stems like Celery. Pkt. 5 cts., 1 oz., 15 cts., $\frac{1}{4}$ lb. 30 cts., 1 lb. 85 cts.

CABBAGE

One ounce will produce about 3,000 plants; 4 oz. will produce enough for an acre.

Our strains are the very best to be had, selected from specimen heads in well rogued fields. Sow seeds of the early varieties in February in hotbeds and transplant the latter part of April or early in May to open ground, or an early sowing in open ground can be made as soon as weather will permit. Set the plants in rows 3 feet apart and 12 to 18 inches apart in the row. The second early varieties sow in April and transplant in May; late varieties, sow in May and transplant in July, setting plants in rows 3 feet apart and 2 feet in rows. Never plant cabbage in the same location two years in succession.

FOR LARGER QUANTITIES SEE OUR WHOLESALE LIST.

All pkts. 10 cts.

EARLY VARIETIES

Golden Acre

62 to 64 days. The earliest round headed cabbage; especially valuable for early market and shipping. Similar to Copenhagen Market but several days earlier, and the heads are smaller. Oz. 50 cts., $\frac{1}{4}$ lb. \$1.25.

Copenhagen Market

66 days. This well-known home garden cabbage hardly needs an introduction. The heads are uniformly round with crisp white interiors. The plants can be set closely in the garden. Almost as early as Early Jersey Wakefield. Oz. 35 cts., $\frac{1}{4}$ lb. 90 cts.

Glory of Enkhuizen

73 to 80 days. A good selection for the main crop of cabbage in your home garden. Heads large, round, and firm. Fine for kraut. 1 oz. 40 cts., $\frac{1}{4}$ lb. 90 cts.

Marion Market

75 to 80 days. (Yellows Resistant.) A yellows resistant strain of Copenhagen Market. Larger and coarser in plant, and not so early nor so uniform as the original strain, but with the round head and crisp tenderness of the parent cabbage. Will produce a normal crop on yellows infected soils where non-resistant strains fail completely. Oz. 40 cts., $\frac{1}{4}$ lb. \$1.10.

Succession

A well-known, desirable variety, of medium late season. Heads large, flat, and thick; $7\frac{1}{2}$ inches deep, short stem; a dependable cropper of good quality. Oz. 30 cts., $\frac{1}{4}$ lb. 90 cts.

LATE VARIETIES

Bugner's Disease-Resistant

A round, late sort of medium size, very heavy and hard-heading, grown extensively for the Chicago market where they claim it is not subject to blight or disease. Will grow where the Hollander and Danish varieties fail because of the disease known as "yellows" which has been so prevalent there in the last few years. Oz. 40 cts., ¼ lb. \$1.25.

Autumn King

A large, vigorous variety with heavy, glaucous green leaves. Desirable for home or market garden. Heads very large, round, compact; of good quality. Oz. 40 cts., ¼ lb. \$1.25.

Danish Ball Head or Hollander

Most widely used and best type of late cabbage; desirable for kraut, for storage and for shipping. Plant fairly large, sturdy, with short stem; outer leaves medium. Heads deep round, very hard; interior decidedly compact, leaves composing head smooth and closely arranged. Texture tender, crisp; flavor good; ideal for high quality kraut. Oz. 40 cts., ¼ lb. 90 cts.

Mammoth Red Rock

The largest and best red cabbage. Heads round, extremely hard; color purplish red; an excellent keeper. Oz. 30 cts., ¼ lb. 90 cts.

Penn State Ball Head

A late variety, excelling in productivity and uniformity. Developed by Prof. C. E. Myers of Pennsylvania State College. Plant medium, with short stem. Heads attractive, flattened globe, extremely hard, 6 to 7 inches deep. Desirable for winter storage, and the manufacture of kraut. Oz. 50 cts., ¼ lb. \$1.25.

Truckers Favorite (Special)

An unusually fine strain of this very hardy, sure-heading, solid Cabbage. Resists cold and dry weather, and is one of the best for keeping till late spring. Remarkably uniform, medium-sized, very hard, round heads on short stems. Fine shipper. Oz. 50 cts., ¼ lb. \$1.60.

Savoy, Long Island (Strain)

A strain extensively grown on Long Island, dark green, well curled, used for Summer and Fall. Oz. 50 cts., ¼ lb. \$1.60.

Copenhagen Market Cabbage

CHINESE CABBAGE

Also known as "Celery Cabbage," "Odorless Cabbage," "Chinese Lettuce," etc.

Has fine delicate flavor; excellent for salads, cold slaw and when cooked. Cannot be grown successfully as a spring crop as it bolts to seed, neither can it be transplanted well. Sow seed in July in rows 2½ feet apart and thin to stand 12 inches apart in the row. Use care in cultivating.

Chihli

This variety runs very true to type. Length of head is about 16 inches. Outer leaves dark bluish green, while the inside is creamy white and of fine quality. Pkt. 10 cts., ½ oz. 20 cts., oz. 35 cts., ¼ lb. \$1.00.

CRESS OR PEPPER GRASS

Curled or Pepper

Crisp, pungent leaves, finely cut, dark green and ornamental in appearance. A dwarf, compact, fast growing variety. Splendid for garnishing. Pkt. 10 cts., oz. 15 cts., ¼ lb. 30 cts., 1 lb. 90 cts.

True Water Cress

A desirable salad and garnishing plant. Perennial. Must be grown on moist banks or in water covered soil. Pkt. 10 cts., oz. 50 cts., ¼ lb. \$1.35, 1 lb. \$4.25.

CARROTS

ALL PKTS. 5 CTS., OZ. 20 CTS.

One of the few crops that will do well in all soils, although a deep mellow soil is always preferable. They should be deeply worked and receive constant cultivation during growth to insure smooth, straight roots, which is very desirable. Cover the seed about one-half inch, pressing the soil firmly. Sow as early in the spring as the ground can be worked. For a late crop, sow from May 1st to July 1st in drills 15 inches apart and thin out to three to four inches apart in the row. One ounce will sow 100 feet of row. Three to four pounds of seed will sow an acre.

Price's Albany Market

A fine carrot of the bunching class. It is somewhat longer than Danvers Half Long but differs from the tapering pointed roots of most carrots of that length, in that it is more stump-rooted. Its color is deep orange, both exterior and interior, and runs close to the stem. The core is equally deep orange and small. Its fine bunching tops and smooth, attractive, uniform roots makes this variety ideal for local markets or for shipping. ¼ lb. 50 cts., 1 lb. \$1.50.

Long or Greater Chantenay

This is a strain of Early Chantenay which resembles the original type in all respects except that it averages 1½ to 2 inches longer. ¼ lb. 50 cts., 1 lb. \$1.50.

Red Coreless Chantenay

An improved Chantenay with red core. Quality extra fine, tender and sweet. Good shipper and splendid market gardener's variety. ¼ lb. 40 cts., 1 lb. \$1.25.

Chantenay

Tops medium sized; necks small; roots tapering slightly but uniformly stump rooted and smooth; color deep orange-red; flesh very crisp and tender. A heavy cropper and is undoubtedly one of the best for both the market and private garden while its great productiveness makes it very desirable as a field sort. ¼ lb. 40 cts., 1 lb. \$1.25.

CARROTS—Continued

Hutchinson

A variety that was developed by selection from the Danvers Half Long. It has slightly darker orange skin, grows an inch or two longer, but differs from the Danvers in that it carries its fullness well down to the end, making it decidedly stump-rooted. A heavy yielder and attractive in appearance. $\frac{1}{4}$ lb. 60 cts., 1 lb. \$1.75.

Imperator

Tops medium but strong enough for good bunching. Roots 7 to 8 inches long, have sloping shoulders, are smooth, deep rich orange; tapered to a semi-blunt end. Flesh rich orange color, extending to center of root with indistinct core; fine grained, tender and of fine quality. An excellent variety for market garden and shipping. $\frac{1}{4}$ lb. 40 cts., 1 lb. \$1.25.

Price's Danvers

Grown largely on account of its great productiveness and adaptability to all classes of soil. Tops of medium size, coarsely divided. The smooth and handsome roots are deep orange, of medium length, tapering uniformly to a blunt point; flesh sweet, crisp, tender and of a deep orange-color. Although the roots of this variety are short, they produce as large a bulk as the longer field sorts and are more easily harvested. $\frac{1}{4}$ lb. 40 cts., 1 lb. \$1.25.

Half Long Nantes

Tops of medium size, roots cylindrical, smooth, bright orange; flesh orange, becoming yellow in center but with no distinct core. Excellent for the market or home garden. $\frac{1}{4}$ lb. 40 cts., 1 lb. \$1.25.

Morse's Bunching

Tops short; foliage rather coarsely cut and stems medium size and strong. Roots at maturity are $1\frac{1}{4}$ by $1\frac{1}{2}$ by 8 inches in size, almost cylindrical with rounded shoulders and are well stumped. $\frac{1}{4}$ lb. 40 cts., 1 lb. \$1.25.

Tendersweet

This new carrot is the best quality we know of. The color is striking, being deep reddish-orange, outside and in, and with distinct red marking in the base of the leaves. Grows 7 to 8 in. long, somewhat tapering, and smooth. $\frac{1}{4}$ lb. 60 cts., 1 lb. \$2.00.

Bagley Danvers

A large smooth strain of Danvers, blunt end. Roots resemble Hutchinson, but are broader tops and less color at the top. $\frac{1}{4}$ lb. 50 cts., 1 lb. \$1.50.

CAULIFLOWER

ALL PKTS. 25 CTS.

For earliest cauliflower, raise plants by sowing in hotbed or greenhouse during January or February and transplant to flats or cold frames two to three inches apart each way. Set in the open ground as soon in the spring as the ground can be put in good order. Soil should be warm, rich, fibrous loam if possible, and well supplied with humus and moisture. During dry weather, especially when the plants are heading, it is advisable to give light dressings of Nitrate of Soda or Potash, as this will help to form a much better head. The plants should be set 2 to $2\frac{1}{2}$ feet apart each way when heads are formed. They should be blanched by drawing the leaves together and tying the tops with raffia or pieces of cloth. Cauliflower to be used for late pickling should be started in the open ground, just like late cabbage and handled in the same manner. One ounce will produce 1000 plants.

Super-Snowball

A highly desirable main crop variety, also used for early planting. Starts heading early and uniformly. Heads medium large, compact, very white; much used by produce growers and shippers. $\frac{1}{4}$ oz. 75 cts., 1 oz. \$2.50.

Snowdrift Cauliflower

One of the best varieties for shipping long distances. Plant of medium height with upstanding, medium green outer leaves. Head slightly larger than Snowball, firm, solid, very white, well protected by inner folding leaves; curd has fine texture and is free from small protruding leaves. $\frac{1}{4}$ oz. 75 cts., 1 oz. \$2.50.

Early Snowball (Catskill Strain)

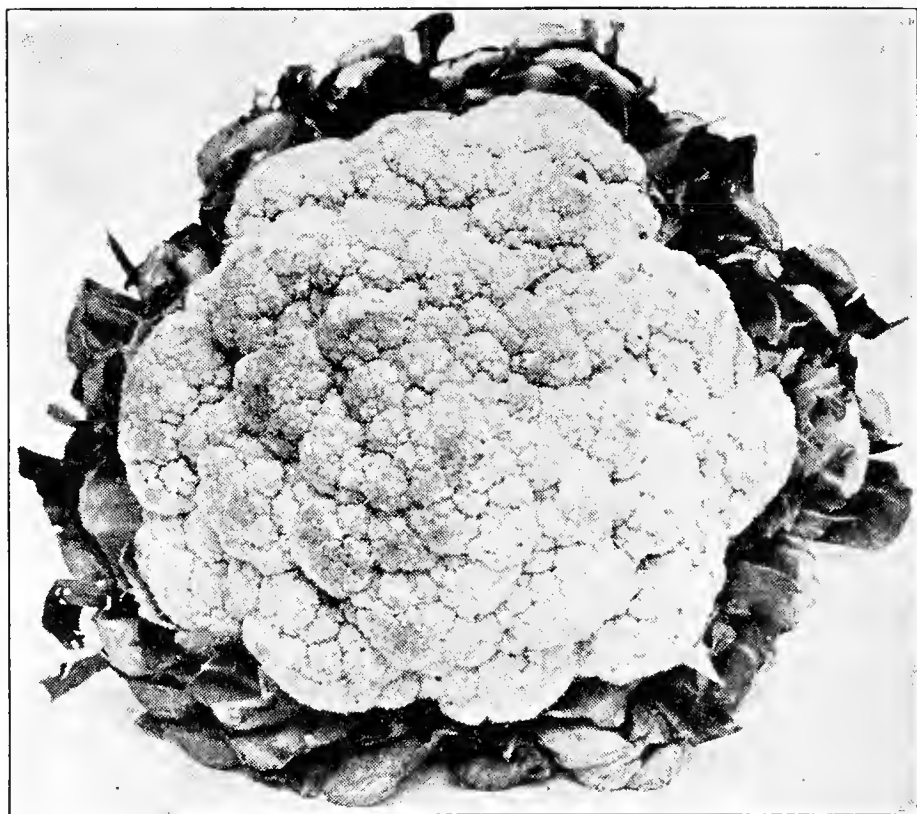

The best and most widely used early variety. Plants dwarf, with short pale green leaves. Heads medium, firm, compact, solid, pure white, and of finest quality; a dependable header. Well adapted to shipping. $\frac{1}{4}$ oz. 60 cts., 1 oz. \$1.85.

Snowball, Price's Pedigreed

A very fine improved strain of the true Snowball type. The plant is dwarf and compact and the heads are large, solid, snow white, and with no protruding leaves when well grown under favorable conditions. $\frac{1}{4}$ oz. 75 cts., 1 oz. \$2.50.

Danish Giant or Dry Weather

Well adapted to dry weather conditions; later than Early Snowball and of larger growth. Heads creamy white, and of excellent quality. $\frac{1}{4}$ oz. 65 cts., 1 oz. \$2.00.

Price's Snowdrift Cauliflower

Chives

(Allium Schoenoprasum)

Small perennial of the onion family; readily propagated from seeds; leaves used in salads and for flavoring soups and stews; flowering plant is decorative. Pkt. 10 cts., $\frac{1}{4}$ oz. 25 cts., 1 oz. 70 cts.

Celery

All pkts. 10 cts.

Celery seed will sprout at comparatively low temperatures, but it needs constant and abundant moisture. The soil for starting plants should be fine and loose, and seed must be covered only $\frac{1}{4}$ inch deep. Seed cannot be expected to start within two weeks. For fall and winter use in the North it may be planted from March 15th to April 15th. When seedlings have 3 or 4 leaves well started, prick out about 3 inches apart each way. Keep the soil well moistened and transplant to open ground when plants are 75 to 90 days old. Set the plants 8 inches apart in the row.

Golden Plume Celery

This is also called Wonderful, a name that is most appropriate for this splendid early variety. Some gardeners consider it the best early Celery in existence. It is quite resistant to blight and rot and possesses very good storing qualities. The plants are of medium size, stocky, compact, and have a thick, full, creamy heart. The stalks blanch readily and are of excellent table quality. It resembles Golden Self-Blanching but is earlier, larger, and of more vigorous growth. A fine variety for the home and market garden. 1 oz. \$1.00, $\frac{1}{4}$ lb. \$3.50.

Golden Yellow Self Blanching, Dwarf

Very popular because of its earliness and ease of blanching. A particularly fine home garden variety. The leaf stalks are thick, solid and sweet. 1 oz. 75 cts., $\frac{1}{4}$ lb. \$2.40.

Easy Blanching or Bonny Green

Splendid early variety for home and market garden. Makes vigorous, erect, compact growth; blanches very readily; stalks thick, solid, of a rich, nutty flavor; a good keeper. 1 oz. \$1.00; $\frac{1}{4}$ lb. \$3.50.

Winter Queen

The best winter variety. Moderately dwarf, erect, compact with solid heart. 1 oz. 75 cts., $\frac{1}{4}$ lb. \$2.40.

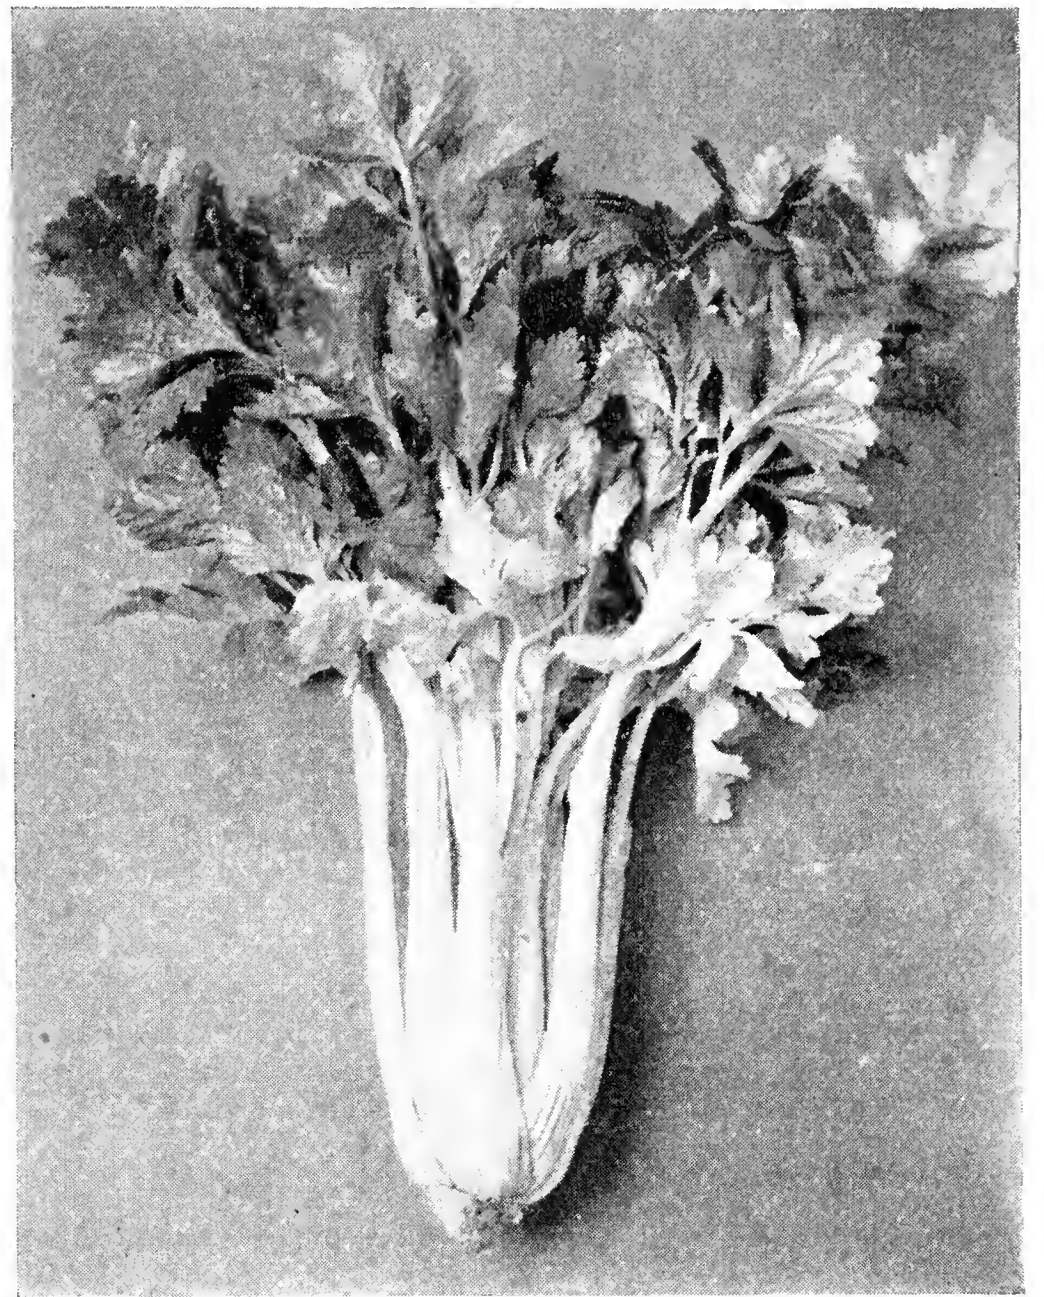

Large Smooth Prague (Celeraic)

An improved variety of turnip-rooted celery producing large tubers of nearly globular shape and comparatively smooth surface. 1 oz. 30 cts., $\frac{1}{4}$ lb. 90 cts.

Chicory

Witloof Chicory or French Endive

Grown for its use as a salad, the balanced head resembling Cos Lettuce in appearance. The seed planted in late spring gives parsnip-like roots by late autumn. The roots are then placed in earth where there is some heat, as in the greenhouse, boiler room, or a warm cellar. The root then throws out the blanched salad head. Pkt. 10 cts., oz. 50 cts., $\frac{1}{4}$ lb. \$1.35.

Price's Golden Plume Celery

Cardoon

Large Solid

Grown for the midribs of the leaves which possess an unusual delicacy of flavor when thoroughly blanched and used in the same manner as celery. The root is also excellent when properly cooked. Pkt. 10 cts., oz. 25 cts., $\frac{1}{4}$ lb. 85 cts.

Corn Salad

Fetticus or Lamb's Lettuce

This small salad is used during the winter and spring months as a substitute for lettuce and is also cooked and used like spinach. In warm weather the plants will mature in 4 to 6 weeks. Sow the seed in shallow drills about 1 foot apart. If the soil is dry it should be firmly pressed over the seed in order to secure prompt germination. On the approach of severe cold weather, cover with straw or coarse litter. Like most salad plants, greatly improved if sown on very rich soil. Pkt. 10 cts., oz. 20 cts., $\frac{1}{4}$ lb. 45 cts.

Collards

A form of cabbage or kale much grown throughout the South. It produces large leaves and at times a modified head on a tall stout stem. Freezing does not injure but rather improves the quality.

Georgia, Southern or Creole

We offer the true white or green stemmed sort. Pkt. 10 cts., oz. 20 cts., $\frac{1}{4}$ lb. 50 cts.

Cucumbers

All pkts. 5 cts., oz. 15 cts.

Carefully Selected Strains, True to Name and Very Best for Table and Pickling

CULTURE—Do not plant Cucumbers before danger of frost has passed, as the plants are very tender and the least frost will damage them or kill them. Plant in hills or rows 4 feet apart, 10 to 15 seeds to each hill; make soil very rich. For pickles plant from June first to middle of July.

Spray your Cucumber plants with Pyrox or Bordeaux Mixture and Arsenate of Lead as soon as they appear, then three or four times during growth. It kills the bugs and prevents blight.

Davis Perfect

Splendid dark green slicing variety particularly valuable for shipping. Fruits very dark green retain color long after picking; white spined; 9 to 11 inches long; very few seeds. 68 days. $\frac{1}{4}$ lb. 35 cts., 1 lb. \$1.20.

Longfellow

72 days. Particularly valuable for home gardens as well as for shipping. Fruits handsome dark green, retaining the color remarkably long after picking; white spined; straight, well-filled at ends; very few seeds. $\frac{1}{4}$ lb. 40 cts., 1 lb. \$1.40.

Long Green

68 days. An excellent home garden variety. Fruits 10 to 12 inches long, medium dark green; black spined. Very desirable for slicing. $\frac{1}{4}$ lb. 45 cts., 1 lb. \$1.50.

Extra Long or Evergreen, w. s.

An excellent variety for home and market garden. Somewhat similar to Davis Perfect, but larger. Fruits weigh 2 $\frac{1}{4}$ pounds; slightly tapered, uniform, dark shiny green. $\frac{1}{4}$ lb. 40 cts., 1 lb. \$1.25.

Early Fortune

One of the most desirable slicing sorts; extensively grown for shipping. Very dark green color retained a long time after harvest; white spined; 8 to 9 in. long; 2 $\frac{1}{2}$ in. thick. 66 days. $\frac{1}{4}$ lb. 40 cts., 1 lb. \$1.25.

Straight-8 Cucumber

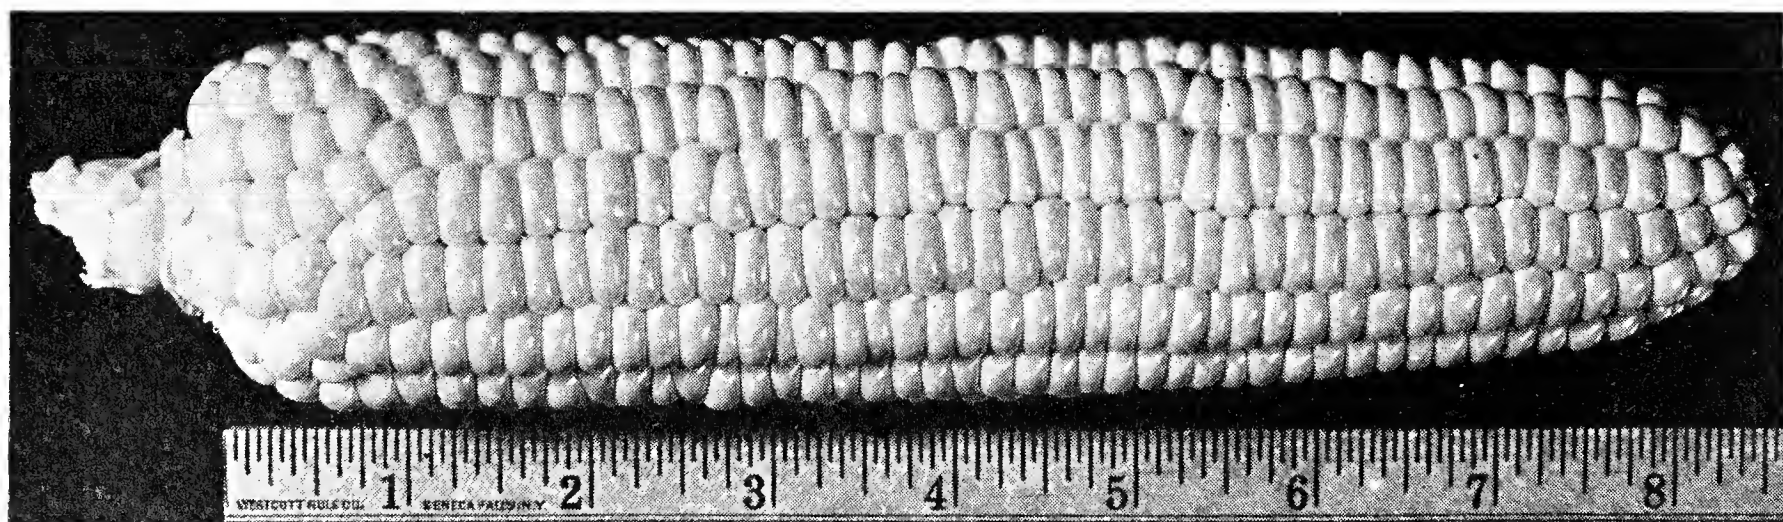

66 days. Gold Medal Winner of 1935. Most desirable slicing cucumber you can plant. The symmetrical fruits grow about 8 inches long and about 1 $\frac{1}{2}$ inches in diameter,—a very convenient size and shape. When ready for use they are rich deep green. $\frac{1}{4}$ lb. 50 cts., 1 lb. \$1.75.

Price's Hybrid

Valuable for market garden and shipping; a main crop sort, prolific and attractive. Fruits weigh 2 $\frac{1}{4}$ pounds; dark green, fairly uniform, with rounded ends. $\frac{1}{4}$ lb. 40 cts., 1 lb. \$1.25.

National Pickling

50 days. Developed by the Michigan Agricultural College under the supervision of the National Pickle Packers Association. Vines rather small, fruits straight, symmetrical, full at the ends; length 6 inches, thickness 2 $\frac{1}{2}$ inches. Black spined, recommended for production of high grade small pickles, a good yielder. $\frac{1}{4}$ lb. 40 cts., 1 lb. \$1.25.

Golden Early Market

SWEET CORN

HARDY — NORTHERN GROWN STOCKS — HIGH GERMINATION

Sweet or Sugar Corn may be planted when danger of frost is over. Plant 1 inch deep in rows 3 to 4 feet apart and the seeds placed about 8 inches apart in the row, or plant in hills 3 to 4 feet each way with 3 or 4 grains in a hill. Make plantings every two weeks until the middle of July so as to have corn for use during the entire season. The earliest varieties are ready for the table in 8 to 9 weeks from date of sowing and the late varieties from 10 to 12 weeks. 12 to 16 pounds to the acre.

FOR LARGER QUANTITIES ASK FOR OUR WHOLESALE LIST

All pkts. 10 cts., $\frac{1}{4}$ lb. 15 cts.

Price's Golden Hummer

60 days. The largest and earliest of the Yellow Sweet Corns and one of the best for market gardeners as well as home gardeners. Ears 6 $\frac{1}{2}$ to 7 inches, 12-rowed, kernel golden yellow, medium deep, broad and of excellent flavor. Ready for the table in 60 days. 1 lb. 35 cts., 6 lbs. \$1.50, 12 lbs. \$2.75.

Golden Early Market

60 days. Valuable first early yellow variety, producing large attractive ears with 12 to 14 rows of moderately broad kernels of good depth. Stalks sturdy 4 to 4 $\frac{1}{2}$ feet tall with abundant medium dark green foliage. A profitable early home garden and market sort. 1 lb. 35 cts., 6 lbs. \$1.38, 12 lbs. \$2.52.

Golden Sunshine

65 days. An early variety of Golden Bantam. Stalks 4½ to 5 feet, ears 10 to 12-rowed, 6½ to 7 inches long; kernels large, broad, golden yellow and of good flavor. 1 lb. 35 cts., 6 lbs. \$1.38, 12 lbs. \$2.52.

Whipple's Yellow

The Most Popular Large Early Corn

72 days. Earlier than Bantam and as large as Evergreen. The most profitable market variety and fine for the home garden. You get only the true originators strain from us. 1 lb. 35 cts., 6 lbs. \$1.26, 12 lbs. \$2.28.

Buttercup

Sweeter, Larger Ears Than Golden Bantam

75 days. This is one of the sweetest corns we have ever eaten and is delicious, succulent and tender. The ears are longer than Golden Bantam, have 8 to 10 rows of large kernels of a rich "June butter" yellow. We have grown and bred this corn ourselves for years. 1 lb. 35 cts., 6 lbs. \$1.38, 12 lbs. \$2.52.

Golden Bantam

True 8 Rowed Stock

75 days. One of the most delicious of all Sweet Corns. Ears are about 6 inches long, 8-rowed, filled with broad, sweet, golden yellow kernels. 1 lb. 35 cts., 6 lbs. \$1.20, 12 lbs. \$2.16.

Barden's Wonder Bantam

75 days. This is a cross of Golden Bantam and Early Wonder, an 8-rowed sweet corn and has the sweetness and the color of the old reliable Golden Bantam and all the toothsome qualities of size and taste but with this welcome improvement that the ears are larger, 8 to 10 inches long and set up higher on a more sturdy stalk, the stalk being from 5 to 6 feet. 1 lb. 35 cts., 6 lbs. \$1.26, 12 lbs. \$2.28.

Golden Giant

80 days. Those who want a late yellow corn with large ears will find this one of the best. The ears are 7 to 8 inches long with 12 to 14 rows. They mature later than Golden Bantam so follow nicely after that variety. The quality is very fine, being sweet and tender. 1 lb. 35 cts., 6 lbs. \$1.26, 12 lbs. \$2.28.

Bantam Evergreen

90 days. Our Northern grown seed is of high quality and superior to much of the seed of this variety sold. This variety is a cross between Golden Bantam and Stowell's Evergreen. The ears are 7 to 8 in. long with 12 to 14 rows of large yellow kernels which are of fine quality. Matures later than Whipple's Yellow and Golden Giant which are the two varieties that it most closely resembles. Bantam Evergreen is becoming increasingly popular as a high quality corn to follow the earlier varieties and prolong the season. 1 lb. 35 cts., 6 lbs. \$1.26, 12 lbs. \$2.28.

Gill's Early Market (Earliest White)

A very early Sweet Corn. The ears have 12 to 14 rows, and often measure 8 inches long. The quality is very good for such an early variety. 1 lb. 35 cts., 6 lbs. \$1.26, 12 lbs. \$2.28.

Whipple's White

This variety is as early as Golden Bantam. The quality is superior to Evergreen. The ears are 8 to 9 inches long, and very large around. The ears are large and handsome. Quality fine. (79 days.) 1 lb. 35 cts., 6 lbs. \$1.26, 12 lbs. \$2.28.

Stowell's Evergreen

Standard late variety, very valuable for canning and much grown for market. 1 lb. 35 cts., 6 lbs. \$1.26, 12 lbs. \$2.28.

Long Island Beauty

A late corn with immense ears, often over a foot long and 7 to 9 inches around, 16 to 20 rows of pure white kernels that are of fine quality. 1 lb. 35 cts., 6 lbs. \$1.26, 12 lbs. \$2.28.

Black Mexican

The kernels have a light purplish tinge suggestive of the rich sweet flavor. Large ears, 8 in. long, with eight rows of kernels. Stalks 6 ft. It is a choice variety though its color makes it primarily a home garden Sweet Corn. 1 lb. 35 cts., 6 lbs. \$1.38, 12 lbs. \$2.52.

**Try the New Hybrid Sweet Corn
This Year**

YELLOW HYBRIDS

Golden Cross Bantam

Developed by Glenn M. Smith and introduced jointly by the United States Department of Agriculture and Purdue University Agricultural Experiment Station. Well adapted to canners' use and excellent for market gardeners. It is replacing other main crop yellow varieties. Stalk sturdy, with exceptionally broad, vigorous leaves. Ears 10 to 14 rowed, slightly lighter yellow than Golden Bantam. Kernels medium in width and depth. The result of crossing Purdue 39 and Purdue 51. This hybrid is extremely uniform in plant and ear characteristics and in maturity. Highly resistant to Stewart's disease. 1 lb. 50 cts., 6 lbs. \$2.10, 12 lbs. \$3.96.

Spancross C2

A top cross of Spanish Gold and Inbred C2. Developed by the Connecticut Agricultural Experiment Station as a first early market corn of good Quality and yield; highly resistant to Stewart's disease. Stalk medium, ear well filled, uniform, attractive, having 10 to 14 rows; kernels golden yellow and of good quality. 1 lb. 50 cts., 6 lbs. \$2.40, 12 lbs. \$4.56.

Top Cross Sunshine

Known also as Tendergold. A good canning and market garden sort maturing about a week ahead of Golden Cross Bantam. Stalk sturdy and vigorous with strong foliage; highly resistant to Stewart's disease. Ear nearly cylindrical, 12 to 16 rowed, kernels medium in width and depth, golden yellow, tender and of good quality. Desirable for northerly sections of shorter season. 1 lb. 50 cts., 6 lbs. \$2.52, 12 lbs. \$4.80.

Top Cross Whipple's Yellow or Whipcross P39

This very uniform intermediate top cross was developed particularly for home and market garden use. Stalk sturdy with strong foliage; highly resistant to Stewart's disease; ears 12 to 14 rowed, well filled at tip; kernels golden yellow of medium length and good flavor. It is very prolific. 1 lb. 50 cts., 6 lbs. \$2.40, 12 lbs. \$4.56.

Bantam Evergreen Hybrid

A development from crossing inbred lines Asgrow 24 x Purdue 39; introduced in 1930. Particularly valuable to truckers and canners. Stalk upright, sturdy, uniform; leaves wide, dark green. Ears cylindrical 14 to 16 rowed. Kernels golden yellow, medium wide and deep, with tender hull, sweet and of excellent quality. 1 lb. 50 cts., 6 lbs. \$2.70, 12 lbs. \$5.16.

Black Beauty Egg Plant

Egg Plant

Plants require continuous warm weather for best results. The seed germinates slowly and should be started in a hot bed. The plants may be set out in the open ground when 2 inches tall if continued warm weather is in prospect. Space the plants 2½ to 3 feet apart. Young plants should be shaded from hot sun.

Black Beauty

Popular home and market sort. Plants thrifty, 24 to 30 inches tall, commonly bear 4 to 6 large fruits which are smooth, broad egg-shape; uniform, very rich dark purple and retains the color. Pkts. 10 cts., 1 oz. 50 cts., ¼ lb. \$1.25, 1 lb. \$4.00.

Large New York Purple—Improved

The standard home and market sort. Plants large, 30 to 36 inches tall; very productive, commonly bearing 4 to 6 or more large, handsome, dark purple, symmetrical broad egg-shaped fruits. Pkt. 10 cts., 1 oz. 50 cts., ¼ lb. \$1.25, 1 lb. \$4.00.

Endive

For early use, sow about April 15th; for later supply, sow in June or July in rows 14 to 20 inches apart and when well started thin the plants to 1 foot apart. When nearly full grown, tie the outer leaves together over the center in order to blanch the heart of the plant. Just before killing frosts in the fall, dig the plants, being careful to take plenty of soil with the roots and to avoid injury to the leaves. Pack the plants closely together, store them in the cellar.

Broad Leaved Batavian or Escarole

Grown in market gardens and for shipping. Plants large; leaves broad, thick, somewhat twisted; heart very compact and blanches readily. Pkt. 5 cts., 1 oz. 15 cts., ¼ lb. 40 cts., 1 lb. \$1.25.

Florida Deep Heart

Has large broad leaves, which make a heavy plant with a full deep heart. This is an improvement over Full Heart Batavian and the best of the broad leaved varieties. Pkt. 5 cts., 1 oz. 15 cts., ¼ lb. 50 cts., 1 lb. \$1.50.

Green Curled Ruffec

A large variety finely curled compact heart with thick white ribs. One of the best. Pkt. 5 cts., 1 oz. 15 cts., ¼ lb. 40 cts., 1 lb. \$1.50.

Fennel

Florence (Italian Giant)

Forms a large bulb which is excellent when cooked. We have a fine large strain. Pkt. 5 cts., oz., 20 cts., ¼ lb. 60 cts., 1 lb. \$2.00.

Dandelion

Sow early in spring in very warm, rich soil, in drills 18 inches apart; thin to 5 inches and cultivate well; they will be fit for cutting the next spring.

Improved Thick Leaved

Very superior strain. Makes vigorous, very compact growth. Produces a spreading rosette of leaves 18 to 24 inches across; leaves very numerous, thick in texture and blanch readily. Pkts. 10 cts., 1 oz. 50 cts., ¼ lb. \$1.60, 1 lb. \$5.50.

Kale or Borecole

Kale is a very hardy non-heading member of the cabbage family, very generally grown in the South for use as greens.

Dwarf Green Curled

A popular home garden sort of exceptionally hardy growth. The low spreading plant bears finely curled, large, parsley-like leaves much used for greens and for garnishing. Pkt. 5 cts., 1 oz. 15 cts., ¼ lb. 40 cts., 1 lb. \$1.25.

Siberian

Also called "Sprouts." A very hardy kale of dwarf growth with broad thick leaves curled on the edges. The color is light bluish-green. Our strain is uniform and true to type. Pkt. 5 cts., 1 oz. 15 cts., ¼ lb. 35 cts., 1 lb. \$1.00.

Leek

Large Flag

Early. A popular gardeners' variety, with long, thick, well blanched stem. Leaves a trifle lighter green than those of Monstrous (Goliath). Similar to London or American Flag. Pkt. 10 cts., 1 oz. 25 cts., ¼ lb. 60 cts., 1 lb. \$2.00.

Mammoth Goliath

Larger than American Flag and a good keeper. Pkt. 10 cts., 1 oz. 35 cts., ¼ lb. 75 cts., 1 lb. \$2.50.

Kohlrabi

All pkts. 10 cts.

(Turnip-rooted Cabbage)

The turnip-shaped bulb formed above the ground is the edible part. The flavor seems to combine that of cabbage and turnip. When young and tender they are fine for table use; when matured they keep splendidly and are excellent for feeding stock. Sow in rows 18 inches apart, cover ½ inch, and thin to 6 inches apart in the row.

One ounce of seed sows 300 feet of row.

Early Purple Vienna

60 days. Standard early sort. Plants small; leaves dark green with profuse purple staining. Bulbs flattened globe-shape, best for use when 2-2½ in. diameter, but become larger; exterior purple, but flesh white; mild, crisp and tender. ½ oz. 15 cts., oz. 25 cts., ¼ lb. 75 cts., 1 lb. \$2.50.

Early White Vienna (for forcing)

Produces bulbs of 2½ in. in diameter 55-60 days after seed is sown out of doors. The standard sort for forcing and for home and market garden use. Plants very small; leaves medium green; bulbs flattened globe shape; pale green; used when of 2-2½ in. diameter, but grow much larger; interior white, mild, crisp and tender. ½ oz. 15 cts., 1 oz. 25 cts., ¼ lb. 75 cts., 1 lb. \$2.50.

Lettuce

To grow head Lettuce early, sow the seed in February or March in boxes, flats or in hotbeds in rows. When an inch high, transplant to cold frames. From there set out in the garden as soon as the soil is warm, placing the plants 5 to 7 inches apart in rows while the rows should be 12 to 18 inches apart. Where there is no hotbed, sow seed outside when ground is warm and transplant. For loose-leaf or curly-leaved sorts, sow the seed either broadcast or in rows; make sowings every couple of weeks for lettuce all summer, and cut as it comes. By sowing in rows the plants can be cultivated. Sow seed the last of August and in September to be transplanted to the cold-frame in October. One ounce will sow 300 feet of row. 4 to 5 lbs. for an acre.

All pkts. 5 cts., oz. 20 cts.

Black Seeded Simpson

40 days. A nationally popular variety for spring and early summer culture. Plant large, attractive, with broad frilled light green leaves; crisp texture and splendid quality. $\frac{1}{4}$ lb. 40 cts., 1 lb. \$1.25.

Early Curled Simpson (White Seeded)

40 days. Can be grown quite thickly in the row, and produces an abundance of crisp, sweet flavored leaves. The most widely used for home gardens. Color, light green. $\frac{1}{4}$ lb. 50 cts., 1 lb. \$1.50.

Grand Rapids Forcing

45 days. There is no better forcing variety among the curled leaved sorts than Grand Rapids, and is quite as good for outdoor culture as other sorts. Early, hardy, disease resistant; plants large, upright, compact and handsome; color bright green, leaves large, broad edges, much waved and frilled, tender and sweet. $\frac{1}{4}$ lb. 50 cts., 1 lb. \$1.50.

New York No. 515, Improved, w. s.

An early variety well adapted to summer and early fall production; resistant to tip burn; slightly darker green than Imperial F with somewhat more prominent ribs. Heads medium large, compact, attractive; a development from New York No. 12. $\frac{1}{4}$ lb. 75 cts., 1 lb. \$2.75.

New York Special No. 12

An early sure heading strain adapted to warmer weather than the original type. Forms somewhat flat, exposed heads with rather light green, thin leaves. $\frac{1}{4}$ lb. 60 cts., 1 lb. \$2.00.

White Paris or Trianon, w. s. (Romaine)

A medium large self-folding sort, with medium dark green, erect, smooth, concave leaves. Head compact, solid, loaf shaped, with greenish white, well blanched interior; crisp, sweet, tender, and of excellent flavor. $\frac{1}{4}$ lb. 55 cts., 1 lb. \$1.60.

May King

The earliest heading lettuce; standard for greenhouse forcing and does splendidly out of doors in early spring. Plants small, allowing very close planting, light green tinged with brown; head medium small, round, firm; interior rich golden-yellow, buttery, of splendid quality. $\frac{1}{4}$ lb. 40 cts., 1 lb. \$1.25.

White Boston or Unrivalled, w. s.

Similar to white seeded Big Boston, but with leaves slightly lighter green and free from a brown tint; heart buttery, yellow; of excellent quality. Highly desirable for nearby markets. $\frac{1}{4}$ lb. 60 cts., 1 lb. \$2.00.

Big Boston, w. s.

In Europe it is known as Trocadero. A very popular variety for cold frame forcing and for outside culture; excellent for shipping limited distances. Head of medium size, and compact, with creamy yellow heart. Leaves smooth, glossy, wavy at the edge. Slightly tinged with reddish brown. $\frac{1}{4}$ lb. 40 cts., 1 lb. \$1.25.

Prize Head

One of the most popular varieties for home gardens. Quick growing. Leaves are broad, crumpled and frilled, outside leaves tinged red; interior foliage green. Crisp and sweet. $\frac{1}{4}$ lb. 50 cts., 1 lb. \$1.50.

Muskmelon

Plant seed in hills 4 to 6 ft. apart each way, after danger of frost is over. Use well-rotted manure in the hills. Insert seeds just under surface of soil; thin out, leaving only four plants to a hill. A light, warm soil is best, but there are sorts adapted to heavy loams if well drained. In hoeing draw the soil well up to the plants. Fight bugs with tobacco dust or calcium arsenate. One ounce to 60 hills; two or three pounds to an acre.

All pkts. 10 cts.

The Bender Type

The stock seed for these melons is taken from the Bender Melon and is grown near Albany, N. Y. 1 oz. 40 cts., $\frac{1}{4}$ lb. \$1.25, 1 lb. \$4.00.

Bender's Surprise

An improved Surprise, similar to Tip Top. Fruits oblong, with full rounded ends; weigh 7 pounds; coarse netting, distinctly ribbed; skin hard and greenish yellow at maturity; flesh bright salmon; of delicious quality. Oz. 25 cts., $\frac{1}{4}$ lb. 70 cts., 1 lb. \$2.25.

Delicious or Early Bender

Similar to Bender's Surprise but much earlier. Fruits oval, weigh 5 to 6 pounds; coarse netting with prominent ribs; rind hard, creamy green at maturity. Flesh bright salmon; of delicious quality. Good for local markets in districts of shorter season. Oz. 25 cts., $\frac{1}{4}$ lb. 70 cts., 1 lb. \$2.25.

Honey Rock (or Sugar Rock)

Newly developed, somewhat variable, early variety which is increasing in popularity among market gardeners and shippers. Fruits 5-6 in. in diameter, round to slightly flattened; coarsely netted; rind very hard and brittle; flesh medium thick, deep salmon color, juicy, and of sweet musky flavor. Comparatively little loss of fruits due to "growth cracks" during the ripening season. Oz. 20 cts., $\frac{1}{4}$ lb. 60 cts., 1 lb. \$2.00.

Hale's Best

An outstanding, early, shipping Cantaloupe. Planted extensively in melon producing sections of the West, South and East for early shipping. Fruits oval; inconspicuous ribbing with heavy netting. Flesh extremely thick, salmon-orange, sweet and of very fine quality. Oz. 15 cts., $\frac{1}{4}$ lb. 45 cts., 1 lb. \$1.50.

Watermelon

All pkts. 5 cts.

A light, sandy soil, with good exposure to the sun, is the best situation for Watermelons. The ground should be prepared deeply, but receive shallow cultivation. Hoe often and very thoroughly about the hills. If extra-large Watermelons are desired for exhibition purposes, leave but one or two on a single vine. Plant 1 inch deep in hills 8 to 10 feet apart each way, with a very generous shovelful of well-rotted manure mixed with the soil in each hill. If commercial fertilizer is used, it should contain a large percentage of ammonia and potash. Plant eight to ten seeds in each hill, and finally, when danger from insects is past, thin out to three strong plants. Watermelon seeds being large, an ounce is about right for small gardens. One ounce of seed will plant 20 to 30 hills; 4 to 5 lbs. will plant an acre.

Kleckley's Sweet or Monte Cristo

Similar to Halbert's Honey. An excellent medium early variety, especially desirable for home garden use and for truckers serving local markets. It will not stand shipping long distances. Fruits large, cylindrical, dark bluish green, with thin, tender rind. Flesh bright red, tender, and extremely sweet; seed creamy white with traces of brown. Oz. 15 cts., ¼ lb. 30 cts., 1 lb. \$1.00.

Cole's Early or Harris' Early

A leading first early variety for home garden and truckers to local markets; very productive, and particularly desirable for planting in the North. Fruits medium sized, short, oval, with alternate dark and light green stripes; tender rind. Flesh pink-red; seed black. Oz. 15 cts., ¼ lb. 30 cts., 1 lb. \$1.00.

Stone Mountain, Improved

Also called Dixie Belle. Introduced by H. G. Hastings Co. A high quality shipping variety, recently introduced, and already popular in Northern markets; also highly desirable for garden planting. Fruits very large, oval-round with blunt ends; dark green with tough rind. Flesh rich scarlet, fine grained and sweet; seed white with black tips. Oz. 15 cts., ¼ lb. 45 cts., 1 lb. \$1.25.

Tom Watson, Improved

An important red heart strain of this outstanding shipping melon. Fruits very large, uniform, cylindrical; with deep green, faintly veined, tough and elastic rind. Flesh deep red, firm, somewhat coarse; of good flavor; seed brown, spotted with white. Oz. 15 cts., ¼ lb. 30 cts., 1 lb. \$1.00.

Winter Queen

A new melon that is adapted to all sections of the country. Fruits of medium size, round and pale yellow when ripe. Flesh is bright red and sweet as honey. Oz. 15 cts., ¼ lb. 45 cts., 1 lb. \$1.50.

Citron (Red Seeded)

Mature size in about 95 days. Standard preserving citron. Fruits globe-shaped; 7-8 in. in diameter; medium green streaked with dark green; smooth, very hard; flesh white; very firm; unpalatable in raw state. Oz. 15 cts., ¼ lb. 30 cts., 1 lb. \$1.00.

ONION

HOW TO GROW ONIONS: For dry (fall) bulbs, select a clean, rich, well-drained and well-manured piece of land, prepare a perfect seed-bed, and sow seed in early spring in drills 15 in. or so apart. Use wheel hoes and weeders freely, and thin plants to stand at least 2 in. apart in the rows. Pull when tops begin to die down, cure, or store in a cool, dry place. One ounce for 100 feet of row, four to five pounds for one acre. **FOR SETS,** select clean, sandy soil of medium fertility, prepare it well in early spring, and at once sow seed in drills a foot apart, using 40 to 60 lbs. of seed to the acre.

All pkts. 10 cts.

YELLOW VARIETIES

Price's Improved Yellow Globe Danvers

A special strain of our own sold only by us. This variety is a great yielder and a fine keeper, and will produce more large, fine-shaped, marketable onions to the acre than any other variety of Danvers Onion. (Eastern Grown). Oz. 25 cts., ¼ lb. 75 cts., 1 lb. \$2.50.

Early Yellow Globe

True Strain

This new onion has rapidly attained great popularity as it will produce large beautiful globe onions, early and under adverse conditions. The onions are an attractive deep yellow color, nearly globe shape, unusually large and with a fine tight skin, making them very good keepers. Yields of 1,400 bu. per acre have been obtained with our stock of this variety. Oz. 30 cts., ¼ lb. 90 cts., 1 lb. \$3.00.

Mountain Danvers

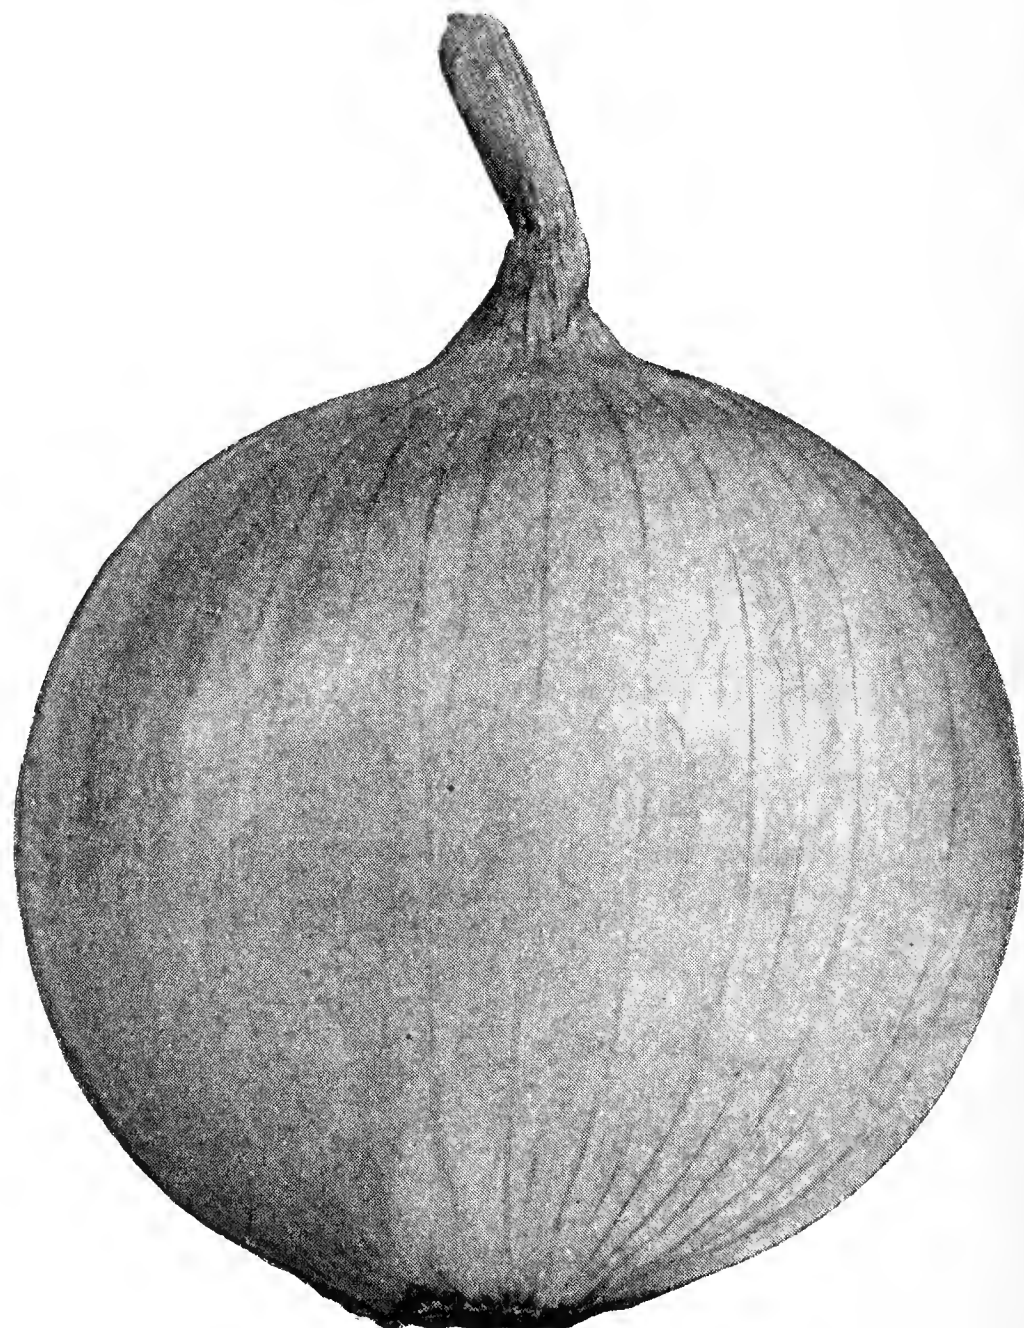

Early and Good Keeper

This is a very early maturing strain of yellow onion which originated in the mountains of Colorado. The onions are of slightly flattened globe shape, deep yellow color and very firm. They ripen two or three weeks earlier than Yellow Globe Danvers, and are valuable on this account. These onions are remarkable keepers and can be stored all winter. Not quite as large as Yellow Globe Danvers, but of good size and often profitable to grow. Oz. 30 cts., ¼ lb. 80 cts., 1 lb. \$2.75.

Riverside Sweet Spanish

A Sure Cropper

These large mild, sweet Spanish onions can be raised almost anywhere in this country. Fine for the home and market. Oz. 25 cts., ¼ lb. 75 cts., 1 lb. \$2.50.

Price's Improved Yellow Globe Danvers

Prizetaker

A large handsome globe shaped onion of bright yellow color and mild flavor. Single bulbs grown under favorable conditions sometimes weigh over a pound. These onions can be grown with perfect success by sowing the seed in the ordinary way in the open ground, but require about two weeks longer to mature than Yellow Globe Danvers. Oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., 1 lb. \$2.50.

Ebenezer or Japanese

An excellent variety for producing sets of exceptional keeping quality. Bulbs deep-flat, of medium size; dark yellow, very firm, with thick skin. Sets when planted make an early maturing, good keeping onion for market. Oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., 1 lb. \$2.50.

WHITE VARIETIES

Southport White Globe

Best for Large White Onions

The bulbs are of perfect globe shape, very firm and solid, perfectly white in color and of fine quality. In the hands of experienced growers this is a very profitable onion, and an excellent kind for home gardens where first class quality is appreciated. To get perfectly white onions the bulbs should be pulled as soon as matured and dried in the shade. Oz. 30 cts., $\frac{1}{4}$ lb. 80 cts., 1 lb. \$2.75.

Japanese Bunching

For Large "Green" Onions

When sown in the spring this new onion will produce large green onions early in the summer. It does not form a bulb but the onions are nearly twice as large as ordinary bunching onions and remain mild and sweet for a long time. These onions grow in clusters, three to five onions being on one plant. With little protection this onion will stand all winter and produce fine large "green" onions early in the spring. Oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., 1 lb. \$2.75.

White Portugal, or Silverskin

An early flat white onion of good size and mild flavor. It is almost entirely used for bunching or "green" onions. When the seed is sown thick in a "ribbon row" the onions mature when small and are excellent for pickling, as they are snow white and very firm. This is also the onion which is used for "White sets" to grow mild early green onions. Oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., 1 lb. \$2.75.

White Welsh

This onion forms no bulbs, the onions being small and slim, and therefore, very desirable for bunching. If sown in four inch trenches in late summer and the trenches are gradually filled up as the onions grow, they can be safely carried over winter and will produce bunch onions very early in the spring. Oz. 30 cts., $\frac{1}{4}$ lb. 80 cts., 1 lb. \$2.75.

White Bunch (White Lisbon)

This fine bunching onion is popular in many sections. It does not form a large bulb but has large tops and flesh of mild flavor. The skin is smooth and white. Oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., 1 lb. \$2.50.

White Queen

Early market and pickling sort. Bulbs medium small, pure white, flat, mild and sweet. Oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., 1 lb. \$2.50.

ONIONS—RED VARIETIES

Southport Red Globe

Large, perfectly round, deep red onion; keeps well and is the best red variety. Oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., 1 lb. \$2.50.

Red Wethersfield

Very large, deep red, flat. Oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., 1 lb. \$2.50.

Onion Sets

(32 lbs. to bushel)

Our Onion Sets are produced in the best Set growing sections, from our own pure-bred seed. Careful cleaning, sizing, and packaging at time of shipment, make for arrival in customers' hands in prime condition. Ebenezer or Japanese and White. 1 qt. 25 cts., 4 qts. 80 cts., 1 pk. \$1.25.

Okra or Gumbo

Sow seeds when ground is warm. One ounce of seed to 75 feet of row; 8 lbs. to an acre.

Perkins Mammoth

Plants dwarf, prolific; produces long, slender, deep green pods. A fine market sort. Pkt. 5 cts., 1 oz. 10 cts., $\frac{1}{4}$ lb. 25 cts., 1 lb. 80 cts.

Mustard

The seed leaves are used for sa'ad; when older, they are boiled for greens. One ounce will sow 75 feet of drill.

Southern Giant Curled

The leaves are large, crimped at the edges. The plant is hardy; yields heavy crop of greens. Pkt. 5 cts., oz. 10 cts., $\frac{1}{4}$ lb. 25 cts., 1 lb. 60 cts.

Sugar Pie Pumpkin

Pumpkins

Pumpkins will grow almost anywhere, but thrive in rich soil. Many pumpkins are exceptionally good for pies; other sorts are fit only for feeding live stock. Plant in hills 8 to 10 feet apart, using 8 to 10 seeds to a hill. Plant seed one inch deep. Later thin to 2 or 3 plants to a hill. One ounce for 200 feet of row. $\frac{1}{4}$ lb. for 75 hills. 3 to 4 lbs. to an acre.

Large Yellow or Connecticut Field

The standard field pumpkin, grown for pies, canning and stock feed. Fruits very large, commonly 10 inches long. 12 inches in diameter and weighs 20 pounds, sometimes much larger; skin smooth, deep orange-yellow; shell thin, hard; flesh thick, coarse, sweet and deep yellow. Pkt. 5 cts., 1 oz. 15 cts., $\frac{1}{4}$ lb. 25 cts., 1 lb. 80 cts.

Sugar or New England Pie

The earliest and best for pies; much grown in home and market gardens and for shipping. Fruits commonly 6 inches long and 8 to 9 inches in diameter; flattened; furrowed; skin smooth, rich reddish-orange; rind hard; flesh thick, orange-yellow, of unexcelled quality. Pkt. 5 cts., 1 oz. 15 cts., $\frac{1}{4}$ lb. 25 cts., 1 lb. 80 cts.

PUMPKINS—Continued

Winter Luxury

This variety is very popular for the home garden. The fruit matures in 75 to 80 days, weighs 8½ pounds, and is nearly round. The skin is light yellow with a russet tinge and finely netted; the flesh is rich creamy-yellow, very thick, sweet; and finely flavored. Pkt. 5 cts., 1 oz. 15 cts., ¼ lb. 35 cts., 1 lb. \$1.00.

Large Cheese

Our pedigreed strain, exceptionally early and uniform, is particularly valuable to market gardeners and canners. Fruits very flat, weigh 10 pounds, slightly ribbed, cream colored; flesh very thick, orange-yellow and of fine quality. Pkt. 5 cts., 1 oz. 15 cts., ¼ lb. 25 cts., 1 lb. 80 cts.

Parsley

Parsley seed is even slower than parsnip in germinating. It grows best in rich mellow soil and should be sown as early as possible in spring in rows 1 to 2 feet apart with a covering of not more than ½ inch of soil firmly pressed down. When the plants are well up, thin them 8 to 12 inches apart in the row.

All pkts. 5 cts., 1 oz. 15 cts.

Champion Moss Curled

A vigorous compact sort, very fine for garnishing and flavoring. Owing to its uniformly deep green color and attractive foliage, it is one of the best for either market or home use. Densely crimped and curled. ¼ lb. 30 cts., 1 lb. 90 cts.

Peerless (New)

Received Award of Merit, All-America Selections, 1934

A very dark green, fine curled type, about 8 inches tall. Its important characteristics are hardiness and ability to hold its color into the winter. Good quality and uniformity. ¼ lb. 45 cts., 1 lb. \$1.00.

Hamburg (Rooted)

The fleshy roots of this variety resemble parsnips, and are used in soups and stews. The flesh is white and sometimes similar to celeriac (root celery). The roots may be dug and carried through the winter like turnips, etc. 100 days. ¼ lb. 30 cts., 1 lb. \$1.00.

All-American Parsnip

Plain or Single

The standard variety of plain leaved parsley. Leaves dark green, deeply cut but not curled. ¼ lb. 30 cts., 1 lb. 90 cts.

Parsnips

Sow seed in early spring in drills 15 inches apart and ½ inch deep in well dug rich soil. Keep crust from forming and cultivate often. Thin to stand 4 inches apart. Roots improve by being left in ground until next spring. One ounce of seed to 200 feet of drill; 5 to 6 pounds to an acre.

Hollow Crown (Large Sugar)

Roots are white, smooth and of excellent flavor. 12 to 15 inches long by 3 inches through at top with hollow crown. 100 days. Pkt. 5 cts., oz. 15 cts., ¼ lb. 30 cts., 1 lb. 90 cts.

All-American

Finest stock we have ever seen. The roots are clear white, clean, well filled and with small core, of fine texture and free from stringiness. The shape is intermediate, shoulders wide and with a deep crown. Strongly recommended for Market Growers. Pkt. 5 cts., 1 oz. 15 cts., ¼ lb. 30 cts., 1 lb. \$1.00.

PEAS

Peas should be planted very early in the Spring. The smooth dwarf sorts are highly satisfactory. Peas may be had during most of the summer and they should be grown much more largely for canning and drying. They require a fairly rich soil and the taller sorts should be well supported to secure maximum yields. Two pounds to 100 feet of row; 120 pounds to an acre.

FOR PEAS IN LARGE QUANTITIES SEE OUR WHOLESALE LIST

All pkts. 10 cts., ¼ lb. 15 cts., ½ lb. 20 cts.

Mammoth Podded Extra Early

The Largest Extra Early Variety

(3 ft.) This fine variety is almost as early as First and Best with much larger pods. The peas are semi-wrinkled and can be sown very early without danger of rotting. 1 lb. 35 cts., 8 lbs. \$1.68, 15 lbs. \$2.85.

World's Record

Similar to Gradus, but a trifle earlier and with somewhat shorter vine. Vines medium green about 3 feet tall, moderately productive. Pods 3¾ inches long, wide, pointed at end. Seeds large, wrinkled, cream and green. 1 lb. 35 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

Easy Money

One of the greatest peas ever offered, as it produces a large plump dark green pod, similar to Gradus. Five to ten days earlier. The vine is considerably shorter than Gradus. 1 lb. 35 cts., 8 lbs. \$1.68, 15 lbs. \$2.85.

Gradus (also called Prosperity)

(3 ft.) One of the best early large podded peas both for home gardens and commercial growers. It matures only three or four days later than the earliest kinds like Alaska and First and Best, has much larger pods, and is of much better quality. The pods are 3 to 3½ in. long and are filled with large peas which are very sweet and tender. 1 lb. 35 cts., 8 lbs. \$1.60, 15 lbs. \$2.70.

Thomas Laxton

Our improved strain retains the earliness of the first introduction but is more attractive in both vine and pod. Excellent for home and market gardens and for shipping, canning and freezing. Vine deep green and medium heavy. Pods single, rich deep green, plump, broad, blunt; contain 7 to 8 large, tender peas of splendid quality. 1 lb. 35 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

Laxton's Progress

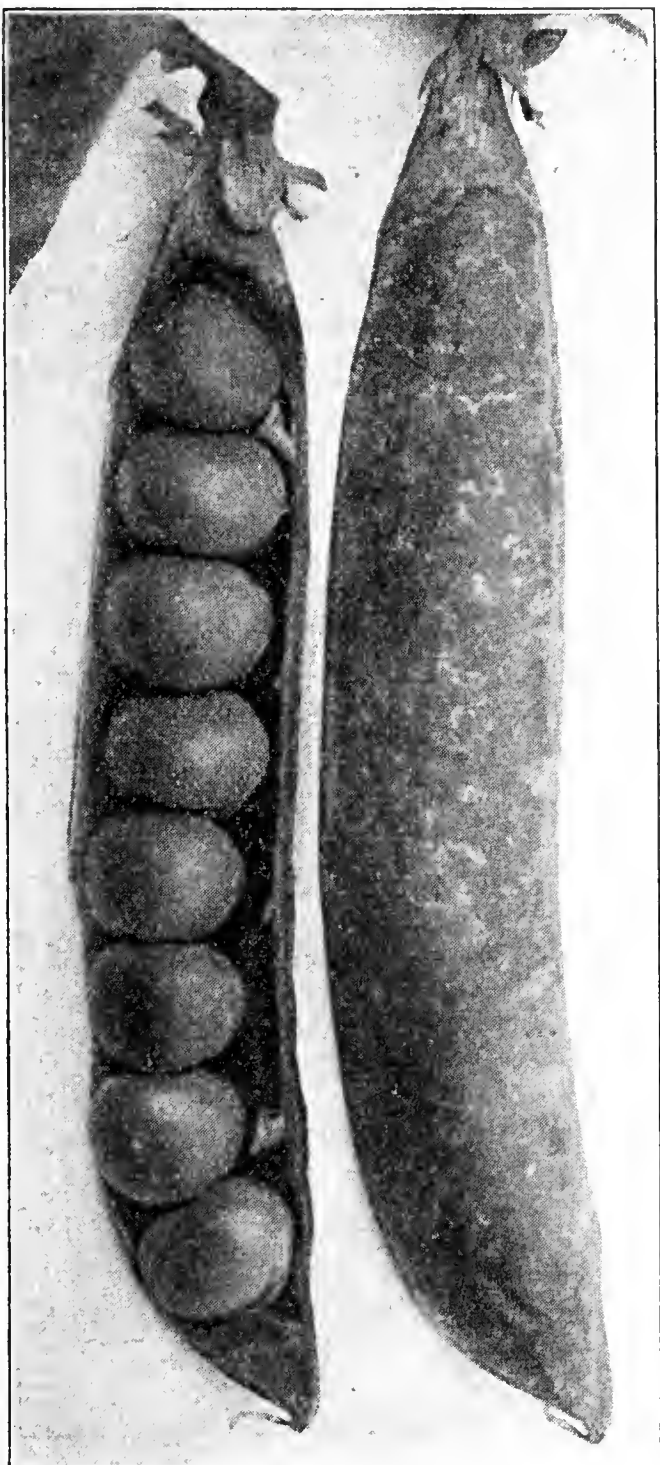

Developed by Laxton Bros. and introduced in 1922. The largest podded and most attractive of the Laxtonian family. Popular for shipping to distant markets, also for home and market garden planting. Vine medium dark green. Pods single, $\frac{7}{8}$ inch wide, dark green, somewhat curved, pointed, handsome; contain 7 to 9 large peas of good quality. Seed large, cream with green, wrinkled. Our strain of this important variety is noted for its solid deep green color. 1 lb. 35 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

Hundredfold or Blue Bantam

(20 in.) Resembles the old Laxtonian very much but is larger, has darker pods and is more prolific. The pods are $3\frac{1}{2}$ to 4 inches long and well filled with large deep green peas of fine quality. The vines are very strong, maturing only a few days after Gradus and Thomas Laxton. 1 lb. 35 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

Little Marvel

(15 in.) This pea is certainly rightly named and is one of the best and most popular kinds for the home gardener. It is wonderfully prolific and the peas are deep green and of high quality. They mature between Gradus and Hundredfold and will stand longer than most kinds without becoming tough and tasteless. 1 lb. 35 cts., 8 lbs. \$1.68, 15 lbs. \$2.85.

Asgrow 40 Peas

Nott's Excelsior or American Wonder

(15 in.) Very early dwarf pea of fine quality. 1 lb. 35 cts., 8 lbs. \$1.60, 15 lbs. \$2.70.

Laxtonian

Extra fine pea for either market or home garden, as its fine appearance is exceeded only by its remarkable flavor. In these respects it is similar to Laxton's Progress, and is only a few days later in maturity. The pods are long and large, dark green in color. The vine grows about 18 inches high and bears a large crop of uniformly large pods. 1 lb. 35 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

Medium and Late Varieties—Dwarf Asgrow No. 40

Resembles Stratagem, but 4 to 5 days earlier; unexcelled in pod size, and exceptional in quality; resistant to Fusarium wilt. Bred particularly for shippers and market gardeners and for freezing. Vine dark green, stocky and branching. Pods single and double, round, dark green, plump, pointed, curved at tip; contain 8 to 10 large, succulent peas. Seed large, wrinkled, green. 1 lb. 35 cts., 8 lbs. \$1.68, 15 lbs. \$2.85.

Wyoming Wonder

Exceptional quality. Resistant to Fusarium wilt. The pods are 5 to 6 inches long, very dark green. Vine 24 to 28 inches tall. 1 lb. 35 cts., 8 lbs. \$1.60, 15 lbs. \$2.70.

Dwarf Alderman (New)

Has pods as large as the tall Alderman. The quality is superb. 1 lb. 35 cts., 8 lbs. \$1.60, 15 lbs. \$2.70.

TALL VARIETIES

Alderman

A handsome large podded variety of the Telephone family. Excellent for home garden, for truckers, for shipping to distant markets and for freezing; resistant to Fusarium wilt. Vine dark green, coarse. Pods single, very broad, plump, straight, dark green, pointed; contain 8 to 10 peas of highest quality. Seed large, wrinkled, light green. This variety can well be considered the standard of high quality. 1 lb. 35 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

Telephone

(4 to 5 ft.) Very large pods and the peas are of highest quality. This is an old standard type which has given satisfaction for years. Has been largely superseded by Alderman. 1 lb. 35 cts., 8 lbs. \$1.52, 15 lbs. \$2.55.

Mammoth Melting Sugar

(4½ ft.) Edible pods. The largest and finest of this class. The pods are cooked like string beans and are highly appreciated by many people. Remove strings before cooking. 1 lb. 35 cts., 8 lbs. \$1.68, 15 lbs. \$2.85.

Peppers

The pods of the pepper are used in sauces, salads, soups or as a seasoning and the large mild varieties called mangoes are eaten from the hand or variously stuffed and prepared with cabbage, tomatoes or meat. The pods of green peppers are green until in ripening they turn red or yellow, according to the variety. Start pepper in hot-beds, maintaining a temperature of 70 degrees and in other ways treat like a tomato. Set out-of-doors after frosts in 30-inch rows, giving each plant 18 inches in a row. One ounce of seed gives 2,000 plants and one-quarter pound plants an acre.

All pkts. 10 cts.

Harris' Earliest (Small)

The earliest pepper we are acquainted with. Plant very uniform in growth, dwarf and compact, seldom over 18 inches in height, and extremely productive. Fruits pendent, mild and sweet, similar to Bull Nose in form, three-lobed, $3\frac{3}{4}$ inches in height by $2\frac{1}{2}$ inches in diameter. The best pepper for the home garden. 1 oz. 60 cts., $\frac{1}{4}$ lb. \$1.60, 1 lb. \$6.00.

Price's Early Giant Pepper

Price's Early Giant (Large)

The plants are of vigorous growth and covered with enormous Peppers about 4 inches long and 3 inches through. The Peppers are deep green, turning to brilliant red, with thick flesh, of sweet, pleasant flavor. Fruits begin setting when the plants are quite small. 52 days. 1 oz. 60 cts., ¼ lb. \$1.60, 1 lb. \$6.00.

World Beater

A valuable large variety for market gardeners and shippers, being a cross of Chinese Giant and Ruby King. Plants vigorous, upright, and very productive. Fruits 4-lobed, smooth; color glossy green changing to bright red; flesh thick, mild, and very sweet. Particularly popular in the North, and a good shipper. 1 oz. 45 cts., ¼ lb. \$1.25, 1 lb. \$4.00.

California Wonder, Improved

An outstanding medium late, sweet variety for market garden and shipping. Plant vigorous, upright, prolific. Fruits mostly 4-lobed, upright, chunky; very attractive, smooth, uniform and deep green, changing to bright crimson; flesh thicker than any other variety, sweet and mild. 1 oz. 60 cts., ¼ lb. \$1.60, 1 lb. \$6.00.

Sunnybrook

A tomato-shaped, sweet, red pepper of much merit. Fruit smooth, upright, 3 inches in diameter by 2½ inches in depth with thick flesh. 1 oz. 60 cts., ¼ lb. \$1.60, 1 lb. \$6.00.

Long Thick Red

A hot pepper on the order of Cayenne, though much larger with a thicker flesh. Early and very prolific. Pods pendent, 4½ inches long by 1¼ inches in diameter at top; red and pungent. Popular in many markets; very early. 1 oz. 50 cts., ¼ lb. \$1.50, 1 lb. \$5.00.

Red Cherry (Large)

Popular for use in pickles. Plants vigorous, upright, prolific. Fruits round, smooth, solid, exceedingly pungent; color deep green changing to deep scarlet. 1 oz. 60 cts., ¼ lb. \$1.60, 1 lb. \$6.00.

Ruby King Pepper

(Sweet). 68 days. Standard for home, market garden and shipping. Plants vigorous, upright, prolific. Fruits large, 4½ to 5 inches long, 2½ inches through, slightly tapered; deep green becoming bright deep red; flesh thick, sweet and mild. One of the most popular varieties grown. 1 oz. 50 cts., ¼ lb. \$1.50, 1 lb. \$5.00.

Giant Crimson

(Sweet). 85 days. Popular home and market sort. Plants large, thrifty and fairly productive. Fruits very large; commonly 5 to 6 inches long and 4 inches through; slightly tapered; deep green, becoming deep crimson; mild and sweet throughout. 1 oz. 50 cts., ¼ lb. \$1.50, 1 lb. \$5.00.

Bull Nose (Half Hot)

Angular-shaped fruits 3 inches long and 2 inches thick. Occasionally a plant will produce hot peppers but usually they are sweet. Early; fine for pickling. 1 oz. 50 cts., ¼ lb. \$1.50, 1 lb. \$5.00.

RADISH

Radishes must grow quickly to be good, especially the small early sorts. The soil should therefore be thoroughly prepared. Start to sow right after frost is gone, at intervals of 10 days or so to insure a constant supply. Thin to 24 plants to the foot. If crowded, they run to leaves without making roots. Many gardeners sow the early sorts in the rows of slow-growing crops. The summer and winter varieties should be thinned to 6 to the foot; winter varieties should not be sown until August. One ounce will sow 100 feet of row; 8 pounds will sow an acre in drill, 12 pounds broadcast. Radish Seed is strictly of the finest grade, being grown from carefully selected and transplanted roots.

Proven seed stock produced each year from carefully selected and transplanted roots is the basis of our field plantings of the principal varieties. Northern grown radish leads in quality and our stocks, bred for the critical market garden trade and reproduced in well isolated fields, are second to none.

All pkts. 5 cts., oz. 15 cts.

Price's Forcer

21 days. An early forcing variety. Roots nearly round with a slight flattening at base. Scarlet color. Tops very small. Too small for early out-of-door planting. ¼ lb. 30 cts., 1 lb. \$1.00.

PRICE'S SCARLET GLOBE

(Special Strain)

21 days. Our selection from the Vick's Scarlet Globe. This strain is globe shape, exceptionally fine bright scarlet color. This stock starts fast and bulbs 2 to 3 days earlier than other stocks that we know of. Tops are medium. We consider this an outstanding strain of Scarlet Globe. ¼ lb. 25 cts., 1 lb. 60 cts.

Use a complete Fertilizer like 5-10-5 for the Vegetable Garden

Sparkler

25 days. Similar to Early Scarlet Turnip White Tipped, but with a larger white area around tip. Roots almost globe shaped, upper and greater part being bright scarlet. Tops small. Roots remain solid, crisp and sweet even when fully developed. $\frac{1}{4}$ lb. 25 cts., 1 lb. 70 cts.

French Breakfast

Oval, bright red with white tips; early. $\frac{1}{4}$ lb. 25 cts., 1 lb. 75 cts.

White Icicle

30 days. Roots 5 to 6 in. long and 1 in. thick. Pure white, with small tops. Usually marketed when about $\frac{1}{2}$ in. in diameter. Equally suitable for outdoor planting or forcing under glass. The most popular white home garden variety. $\frac{1}{4}$ lb. 25 cts., 1 lb. 70 cts.

White Strasburg

42 days. A popular white summer variety. White root grows 4 to 5 in. long, is of excellent quality and resistant to severe heat. Tapered and smooth. White flesh is crisp and mildly pungent. Thicker than White Icicle. $\frac{1}{4}$ lb. 25 cts., 1 lb. 70 cts.

Round Black Spanish

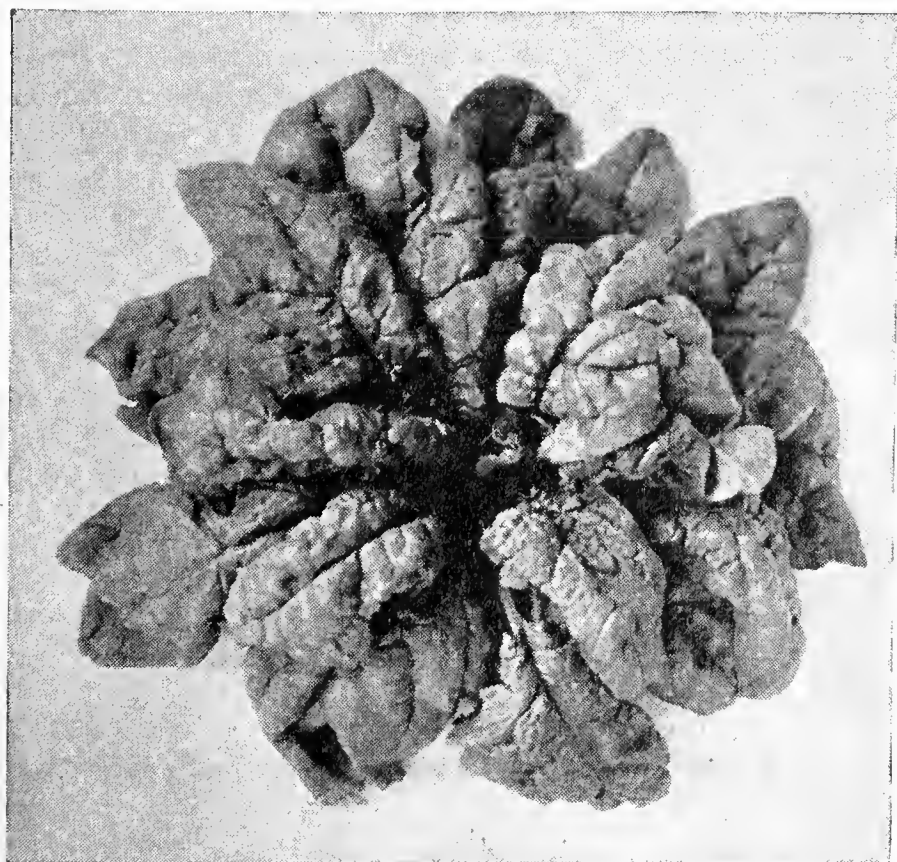

56 days. A variety having globular shaped roots, $3\frac{1}{2}$ to 4 in. in diameter. Skin almost black, somewhat roughened. Flesh white, firm, crisp and pungent. A very fine keeper. $\frac{1}{4}$ lb. 25 cts., 1 lb. 70 cts.

Half Long Black Spanish

56 days. Supposed to be the best keeper of winter radishes. Roots 4 to 6 in. long, $2\frac{1}{2}$ in. in diameter at the shoulder, oblong in shape. Skin is dark red, almost black, somewhat roughened. Flesh is white, crisp and pungent. $\frac{1}{4}$ lb. 25 cts., 1 lb. 75 cts.

Chinese Rose Winter (Scarlet China)

50 days. Roots become 6 to 7 inches long, $1\frac{3}{4}$ to 2 inches in diameter at shoulder and slightly broadened outward to 2 or $2\frac{1}{2}$ inches in diameter at the blunt base; skin smooth, uniform bright deep scarlet; flesh white, firm, crisp and pungent. $\frac{1}{4}$ lb. 25 cts., 1 lb. 75 cts.

Price's Summer Savoy Spinach

Spinach

Spinach can easily be grown in the spring and fall. Make first sowing as early as possible, and repeat at intervals until June 1. For fall use seeding may be made from August 1 to September 15. To winter over for spring use, sow from September 10 to October 5, according to the season. Rows should be one foot apart, and plants about two inches apart in the row. One ounce will sow 100 feet of row. 15 lbs. will sow an acre in rows; 25 lbs. will sow an acre if broadcast.

All pkts. 5 cts., oz. 10 cts., $\frac{1}{4}$ lb. 15 cts.
For Larger Quantities See Wholesale List.

Giant Nobel or Giant Thick Leaved

A recent European introduction of high merit. Very valuable for market gardens and canning. Plant large, vigorous, and spreading; slow to form seed stalks, and an extremely heavy yielder. Leaves very large, thick, smooth, pointed, with rounded tip; deep green, tender. The best of the Thick Leaved sorts. 1 lb. 40 cts., 5 lbs. \$1.25.

Reselected Savoy Leaved or Bloomsdale (Dark Green)

The standard very early spinach for home and market garden. Plants upright and compact. Leaves large; blistered and crumpled; rich deep, glossy green; of splendid quality. 1 lb. 40 cts., 5 lbs. \$1.25.

Bloomsdale Savoy, Long Standing

Only a few days later than the regular Bloomsdale Savoy, it holds twelve to fourteen days longer before throwing seed stalks. Plant is very uniform and sturdy, with very attractive, highly crumpled and blistered dark green leaves. Exceptionally valuable for home and market gardens. 1 lb. 40 cts., 5 lbs. \$1.25.

Summer Savoy (Price's)

Very dark green crumpled. Will stand hot weather without bolting to seed. 1 lb. 40 cts., 5 lbs. \$1.30.

Princess Juliana

This variety is somewhat slower growing than others, but it is very long standing. It is ideal to plant for succession with any earlier sort. The leaves are medium size and much blistered; the color is rich deep green. Stems are short, and the plants make compact growth. 1 lb. 40 cts., 5 lbs. \$1.35.

King of Denmark

Intermediate between the smooth-leaved and blistered types. The leaves are large and medium dark green in color. The plants are low growing and quickly produce a heavy crop which remains in condition from one to two weeks. A very satisfactory spinach for the home garden. 1 lb. 40 cts., 5 lbs. \$1.35.

Old Dominion

Developed at the Virginia Agricultural Experiment Station. A cross between Virginia Blight Resistant Savoy and King of Denmark, resistant to mosaic and of long standing character. Plant similar to Savoy but leaves somewhat more pointed. Used mostly for fall planting for early spring harvest. 1 lb. 40 cts., 5 lbs. \$1.35.

Blight Resistant Savoy (Virginia Savoy)

A Savoy-leaved sort, bred at the Virginia Experiment Station for mosaic resistance. Upstanding, vigorous plants; seeding rather early; highly desirable for planting in infested soil. Leaves somewhat smoother than other strains of Savoy. 1 lb. 40 cts., 5 lbs. \$1.25.

New Zealand (Tetragonia)

Although not a true spinach, the leaves look like spinach and are very useful as greens. On soil too poor to grow spinach successfully, the plants thrive and produce groups of small fleshy leaves that are tender and delicious when cooked. Each branch of the plant produces others, so that it goes on providing a continuous supply of greens throughout the summer. 1 lb. 50 cts., 5 lbs. \$2.25.

RHUBARD or PIE PLANT

One ounce of seed will plant 125 feet of row.

Victoria

An improved variety producing extra-large, thick stalks. Pkt. 10 cts., oz. 25 cts., ¼ lb. 75 cts.

Rhubarb Roots

Strong roots for early spring delivery. 10 cts. each; \$1.00 per doz. Large clumps 25 cts..

Squash

Squash grows best in a fertile deep soil. The bush varieties are grown in rows or in hills spaced 4 by 4 ft. The running sorts are spaced either 8 by 8 or 10 by 12 ft. Sow the seed after all danger of frost has passed. One oz. suffices for about 40 hills; 3 to 4 lbs. are needed per acre.

All pkts. 5 cts.

FOR PRICE ON LARGE QUANTITIES
SEE WHOLESALE LIST

Giant Summer Straightneck

A distinct improvement on the Crookneck strain, as it packs to better advantage for shipping. Popular with market gardeners and shippers. Plant is of bush type. Fruits thick-necked, straight, lemon-yellow; flesh thick, light yellow. 1 oz. 25 cts., ¼ lb. 45 cts., 1 lb. \$1.50.

Summer Crookneck

Very popular for home, market garden and shipping. Very prolific. Fruits become 12-14 in. long and 3½ in. through; neck curved; skin bright yellow, moderately warted. 1 oz. 15 cts., ¼ lb. 30 cts., 1 lb. \$1.00.

Acorn—Table Queen or Des Moines Squash

Weighs about 1½ pounds and is acorn-shaped, deeply furrowed, and dark green on the outside. The flesh is rich yellow, dry and mealy, and of delicious flavor. The vines yield prolifically, and the fruit matures early. 1 oz. 20 cts., ¼ lb. 40 cts., 1 lb. \$1.25.

Boston Marrow

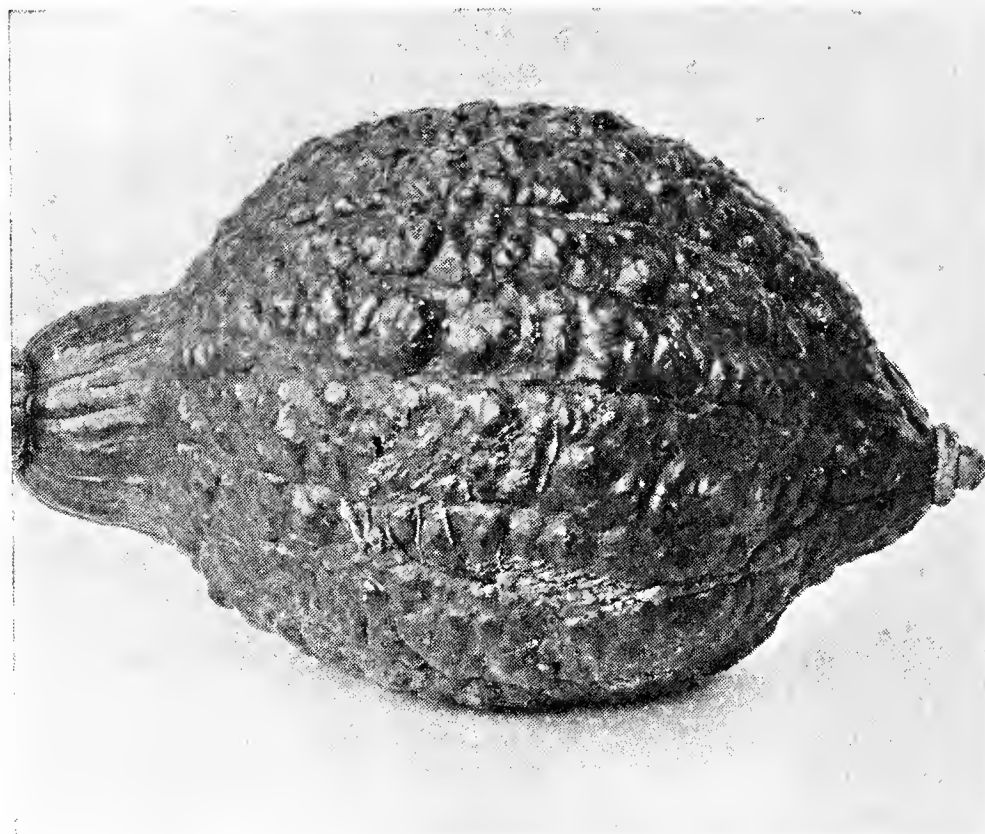

An abundance of large fruit, weighing 12 to 17 pounds. They are irregularly oval with a moderately hard, rich orange skin. The fine grained, salmon-yellow flesh is fine flavored and keeps well. It is extensively used in home gardens and is a good substitute for pie pumpkin. 1 oz. 15 cts., ¼ lb. 30 cts., 1 lb. \$1.00.

Golden Hubbard

Earlier and smaller than Hubbard; splendid for home and market garden and commonly used for canning. Fruits globular with fairly prominent neck and blossom end; about 11 inches long and 8 inches through; deep orange red with shallow warting; rind hard and tough; flesh thick, deep orange-yellow; fine grained and dry. 1 oz. 20 cts., ¼ lb. 40 cts., 1 lb. \$1.25.

Vermont Hubbard

110 days. Originated by the Vermont Agricultural Experiment station. Similar in size and shape to Improved Hubbard, but more warted and uniform; vine of trailing habit. Fruits weigh 10 pounds; dark green in color; shell, very hard and strong; flesh exceptionally thick, deep orange, dry, fine grained, and of excellent flavor. A worthy addition to the Hubbard group. 1 oz. 20 cts., ¼ lb. 40 cts., 1 lb. \$1.25.

Vermont Hubbard Squash

Warted Hubbard

The standard winter squash for home, market garden and shipping. Fruits medium large; commonly 9 to 10 inches through; globular, dark bronze green, moderately warted; rind very hard and strong; flesh very thick, deep orange-yellow, fine grained and dry; of splendid quality. 1 oz. 20 cts., ¼ lb. 40 cts., 1 lb. \$1.25.

Delicious Squash

The standard of excellence in winter squash. Fruits broad top-shaped, commonly 7 to 8 inches long; skin very dark. 1 oz. 20 cts., ¼ lb. 40 cts., 1 lb. \$1.25.

Blue Hubbard

110 days. The Blue Hubbard is a distinct variety resembling the True Original Hubbard in size and shape, but the color is a clear blue gray. Flesh is bright yellow, thick, fine grained, very dry and sweet. Splendid for pies. A good keeper. 1 oz. 25 cts., ¼ lb. 45 cts., 1 lb. \$1.50.

Italian Marrow—Cocozelle

Sometimes called summer asparagus because the young fruits when stewed are of a delicious flavor suggesting asparagus. Fruits straight, almost cylindrical; become 18 to 24 inches long and 5 inches in diameter; smooth, dark green with lighter green to yellow stripes; flesh pale greenish white. 1 oz. 25 cts., ¼ lb. 45 cts., 1 lb. \$1.50.

Salsify (Vegetable Oyster)

The roots of this vegetable are appetizing and nutritious, and the flavor is like that of oysters Salsify succeeds best in a light, well-enriched soil, which should be stirred to a good depth. Coarse and fresh manure should be avoided, as it will cause the roots to become irregular and branched. Sow early and quite deep, giving the general culture recommended for parsnip.

Mammoth Sandwich Island

Large and strong growing with long, smooth, white, tapering roots less likely to branch than those of other sorts. Pkt. 10 cts., oz. 30 cts., ¼ lb. 75 cts., lb. \$2.00.

TOMATO

ALL PKTS. 10 CTS.

Sow the seed in February or March in a hotbed, greenhouse or in shallow boxes in the house. When plants are about 2 inches high, transplant to 4 inches apart. Transplant in the open ground after all danger of frost is past, 3 to 4 feet apart each way. Cultivate frequently. When plant has reached a height of 5 feet, cut off the top. When three or four clusters of fruit have formed and some of the fruit is as large as a silver dollar, prune the leaves at the base one-half. This hastens ripening. Once a month apply sheep manure around each plant. One ounce will produce 2,000 to 3,000 plants, 2 to 3 ounces for an acre; 35 to 40 plants to 100 feet of row.

Earliana Improved

65 days. A very popular early home garden variety. Fruits flattened, medium in size, deep-scarlet red, firm and fairly smooth. Our stock is very choice. 1 oz. 60 cts., ¼ lb. \$1.75.

Early Apex

A first early sort, excellent for home and market gardens. Vine open and spreading; fruits medium sized, scarlet, smooth, somewhat flattened. An improved Earliana. 1 oz. 75 cts., ¼ lb. \$2.30.

Scarlet Dawn Tomato

Introduced in 1934. Received All-America Gold Medal for 1935. Rapidly growing in popularity. A cross of Clark's Early and Marglobe, earlier in season than either parent. Vine of medium growth, fairly open, very prolific. Fruits medium large with thick wall structure, globular, smooth, free from flat sides, bright scarlet ripening well to the stem, exceptionally attractive. Highly desirable for home garden, shipping, and early canning. 1 oz. 60 cts., ¼ lb. \$1.75.

Pritchard's Scarlet Topper

75 days. Wilt resistant. Fruits large, smooth, globular, solid with thick walls and cross sections. Color deep scarlet. Splendid home and market garden variety. Excellent for shipping. 1 oz. 50 cts., ¼ lb. \$1.50.

Bonny Best

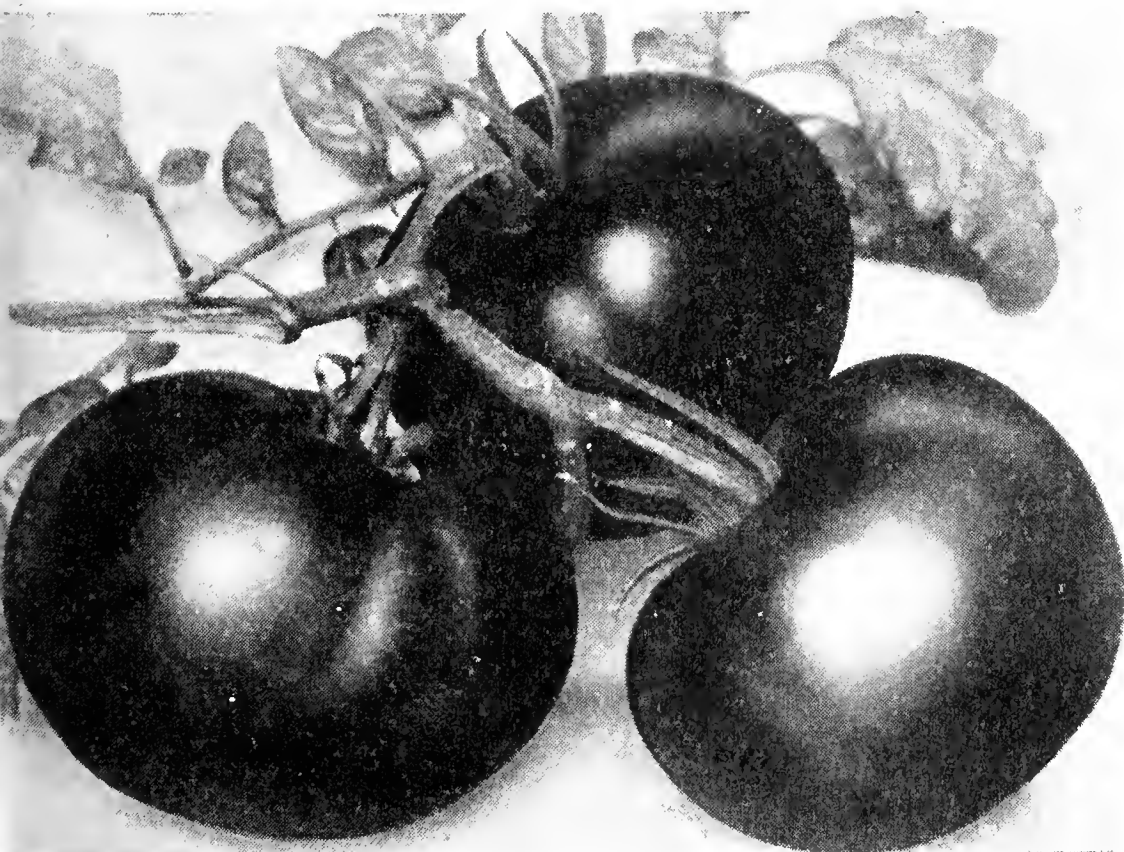

75 days. Vines strong and vigorous, fruit deep scarlet ripening to stem. Flesh firm. A productive and very desirable early and main crop. 1 oz. 50 cts., ¼ lb. \$1.50.

Chalk's Early Jewel

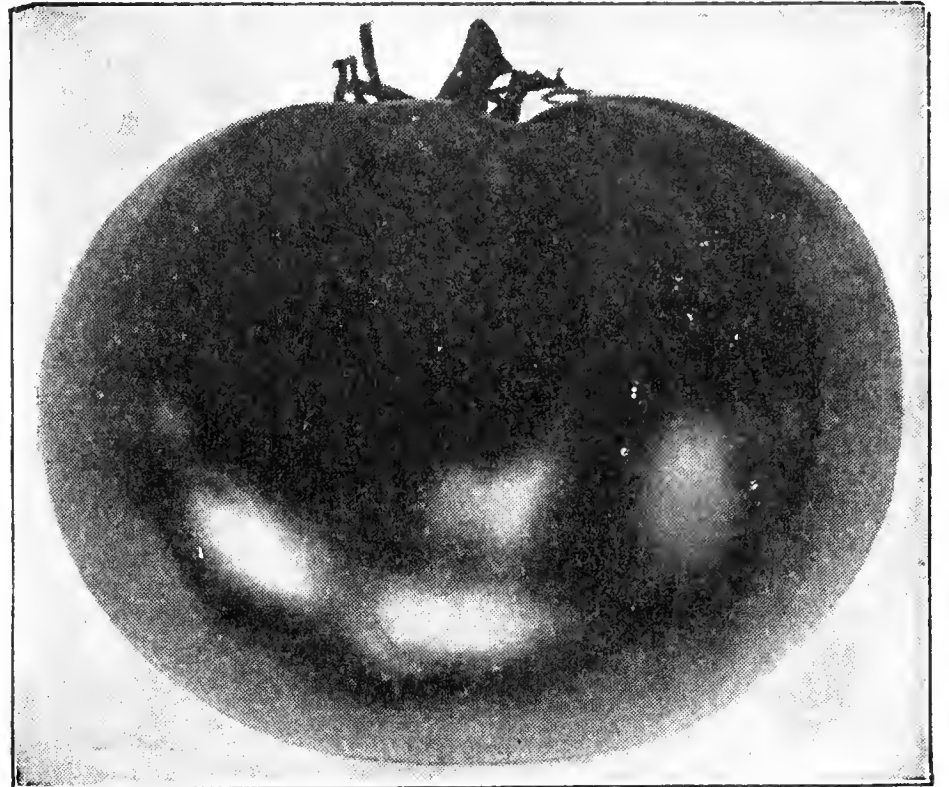

76 days. We consider this one of the very best early tomatoes yet introduced. Vines vigorous and very productive. Fruit deep scarlet red. 1 oz. 40 cts., ¼ lb. \$1.25.

John Baer

73 days. An early red tomato similar to Chalk's Early Jewel; very productive. 1 oz. 50 cts., ¼ lb. \$1.50.

Bonny Best Tomatoes

Marglobe

Nail rust resistant. 80 days. A wonderful variety which is resistant to nail-head rust and fusarium wilt. Large, perfect globe-shaped fruits of a beautiful scarlet color. Its spreading habit of growth enables it to bear in great abundance. 1 oz. 50 cts., ¼ lb. \$1.50.

Rutgers

New Jersey Experiment Station cross on Marglobe. Deeper than its horizontal diameter, small seed cavity, heavy cross walls, ripens from the inside out. One of the heaviest croppers. 1 oz. 60 cts., ¼ lb. \$1.75.

New Stone

84 days. Vines vigorous and productive; fruits large, smooth, solid and deep red in color; very heavy. This is a favorite canners' variety. 1 oz. 50 cts., ¼ lb. \$1.50.

Greater Baltimore

A main crop, productive red fruited variety of the Matchless type; popular with the canners. 1 oz. 50 cts., ¼ lb. \$1.50.

Dwarf Stone

The best of the dwarf tomatoes; fruits large, smooth, round, very solid and of deep scarlet color. 1 oz. 60 cts., ¼ lb. \$1.75.

Beauty (Livingston's)

Large, late, pink, very smooth. 1 oz. 50 cts., ¼ lb. \$1.50.

Ponderosa (Beefsteak)

Large, purplish pink, midseason, free from acid. 1 oz. 60 cts., ¼ lb. \$1.75.

Red Cherry

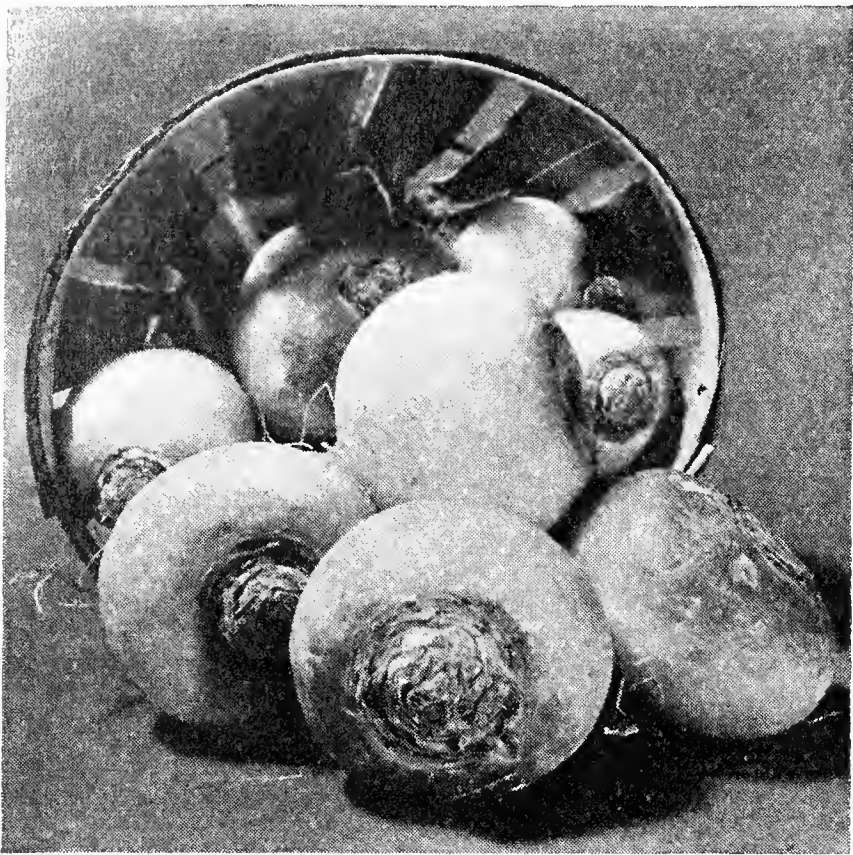

75 days. Fruits small, round; rich deep red. 1 oz. 60 cts., ¼ lb. \$1.75.

Yellow Pear

75 days. Fruits 2 in. long; pear-formed. 1 oz. 50 cts., ¼ lb. \$1.50.

Golden Ponderosa

Largest of the yellow tomatoes and similar to Ponderosa except in color of fruit. 1 oz. 60 cts., ¼ lb. \$1.75.

Purple Top White Globe Turnip

Turnips

Sow early sorts in April, in rows 18 to 20 inches apart. Cover seed $\frac{1}{2}$ inch and thin out 4 to 6 inches. Cultivate frequently. For succession sow at intervals until the last week in May. For fall and winter crop, sow in July or August, in drills or broadcast. One ounce to 200 feet of row; one pound to the acre in drills; two pounds broadcast.

All pkts. 5 cts., oz. 15 cts.

Extra Early White Milan

40 days. For table. An excellent white, home and market garden and forcing variety. Small strap leaved tops. Flat roots about 4 in. across. White flesh, tender and sweet. Desirable for Spring or Fall sowing. $\frac{1}{4}$ lb. 30 cts., 1 lb. 85 cts.

Extra Early Purple Top Milan

40 days. For table. A home and market garden variety. Very early. Also very fine for forcing. Tops small, strap leaved. Roots smooth and flat, 4 in. across, lower half white shading to purplish-red above. Flesh white, fine grained and sweet. $\frac{1}{4}$ lb. 30 cts., 1 lb. 80 cts.

White Egg

50 days. Very popular in home gardens and with market gardeners. Roots egg-shaped, 3 in. long and $2\frac{1}{2}$ in. thick, smooth and white. Half of root grows above ground. Flesh white and sweet. $\frac{1}{4}$ lb. 30 cts., 1 lb. 80 cts.

Price's Eureka or Bender

70 days. A very fine grained table Turnip. Creamy white in color, resembles White Egg, only broader in the crown, and tapers more to a point at the bottom. $\frac{1}{4}$ lb. 40 cts., 1 lb. \$1.25.

Golden Ball or Orange Jelly

65 days. Round roots, 4 in. in diameter, smooth skin, color orange yellow. Flesh yellow. $\frac{1}{4}$ lb. 30 cts., 1 lb. 75 cts.

Purple Top White Globe

57 days. An all-purpose variety, extensively used for home and market gardens, and for shipping. Our pure bred strain is noted for its uniformity and productivity. Tops dark green, large, erect, cut leaved. Roots large, globe-shaped, very smooth, upper part purple-red, white below; flesh white, sweet, crisp and tender. $\frac{1}{4}$ lb. 30 cts., 1 lb. 80 cts.

RUTABAGA (Neckless)

Improved (Long Island)

Very popular variety for market and for storage and carlot shipment. The roots are large, globular, deep purplish-red above ground, yellow below; flesh yellow, fine grained; firm, mild and sweet. Pkt. 5 cts., oz. 15 cts., $\frac{1}{4}$ lb. 25 cts., 1 lb. 80 cts.

Sweet Perfection White

While very good for stock feeding, this white fleshed rutabaga is especially desirable for table use. It is of vigorous growth and yields better than yellow varieties. Absolutely neckless, small topped, and fine grained. Pkt. 5 cts., oz. 15 cts., $\frac{1}{4}$ lb. 25 cts., 1 lb. 85 cts.

Sorrel (Narrow Leaf)

Improved varieties of sorrel when well grown and cooked like spinach make a palatable dish. Sow in rows early in spring and thin the seedlings to 6 or 8 inches apart in the row. Cutting may begin in about 2 months, and the plants will continue in full bearing from 3 to 4 years. The best garden variety, having large, pale green leaves of fine quality. Pkt. 10 cts., oz. 30 cts., $\frac{1}{4}$ lb. 90 cts., lb. \$3.00.

For Flavoring HERBS For Seasoning

Sage

Dill

Anise

(Pimpinella anisum.) Annual, 12 to 18 inches tall; chiefly grown for aromatic seeds used in flavoring. (Not the same as Florence Fennel which is sometimes called sweet Anise.) Pkt. 5 cts., 1 oz. 25 cts., $\frac{1}{4}$ lb. 75 cts.

Basil—Sweet

(Ocimum basilicum.) A hardy, aromatic annual. The seeds and stems have a strong flavor and are used in soups and sauces. Plant about 18 inches high, branching, with ovate toothed leaves; flowers white or bluish white in leafy terminal racemes or spikes. Pkt. 5 cts., 1 oz. 20 cts., $\frac{1}{4}$ lb. 50 cts.

Borage

(Borago officinalis.) Coarse, hairy annual 2 feet tall; large thick leaves used as pot herb and for flavoring; blue flowers highly decorative and used for garnishing; good bee plant. Pkt. 5 cts., 1 oz. 20 cts., $\frac{1}{4}$ lb. 50 cts.

HERBS—Continued

Caraway

(*Carum carui*.) A well known herb, cultivated for its seeds, which are used in confectionery, cakes, etc. The leaves are sometimes used in soups, for flavoring liquors, and for colic in children. Plant 1½ to 2 feet high, with finely cut foliage and clusters of small, white flowers. Plants never seed till the second year. Pkt. 5 cts., 1 oz. 20 cts., ¼ lb. 50 cts.

Dill—Mammoth

(*Anethum graveolens*.) Annual about 2 feet tall; of strong aromatic odor and mildly pungent flavor; chiefly grown for seed clusters used in making dill pickles. Pkt. 5 cts., 1 oz. 15 cts., ¼ lb. 50 cts.

Lavender

(*Lavandula spica*.) A hardy perennial growing about 2 feet high. It is used for the distillation of lavender water or is dried and used to perfume linen. It should be picked while still green and dried quickly. The seed is of rather slow and uncertain germination. Pkt. 10 cts., 1 oz. 50 cts., ¼ lb. \$1.50.

Marjoram—Sweet

(*Origanum majorana*.) An aromatic herb for seasoning. The young tender tops and leaves are used green in summer to flavor broths, dressings, etc.; they are also dried for winter use. Pkt. 5 cts., 1 oz. 25 cts., ¼ lb. 75 cts.

Rosemary

(*Rosmarinus officinalis*.) A hardy perennial with fragrant odor and a warm, bitter taste. The leaves are used for flavoring meats and soups, and for medicinal drinks. Plants do not reach a size suitable for use until the second season. Pkt. 10 cts., 1 oz. 50 cts., ¼ lb. \$1.50.

Sage—Broad Leaf

(*Salvia officinalis*.) Hardy, spreading perennial; 12 to 15 inches tall; of strong, pleasant aromatic odor and mildly pungent flavor; the most commonly used of all the herbs for seasoning. Pkt. 5 cts., 1 oz. 20 cts., ¼ lb. 60 cts.

Savory—Summer

(*Satureia hortensis*.) Annual about 15 inches tall; entire plant aromatic; very popular for seasoning. Pkt. 5 cts., 1 oz. 15 cts., ¼ lb. 50 cts.

Thyme

(*Thymus vulgaris*.) An aromatic perennial herb, 8 to 10 inches high, used principally for seasoning. Plant very branching with wiry foliage and small lilac flowers. Sow as early as the ground will permit. Pkt. 10 cts., 1 oz. 50 cts., ¼ lb. \$1.75.

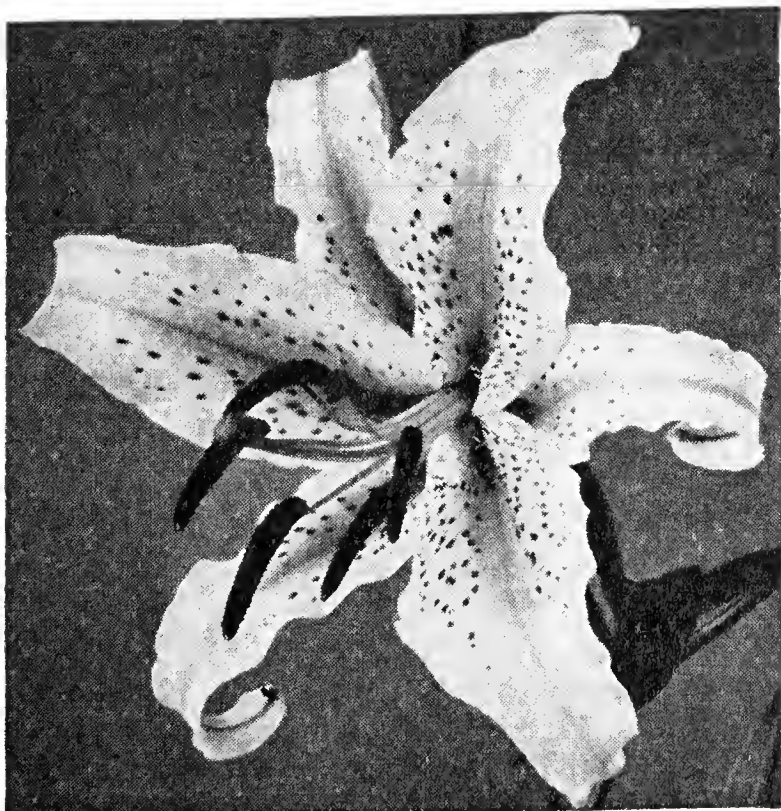

LILIES

Lilium Auratum

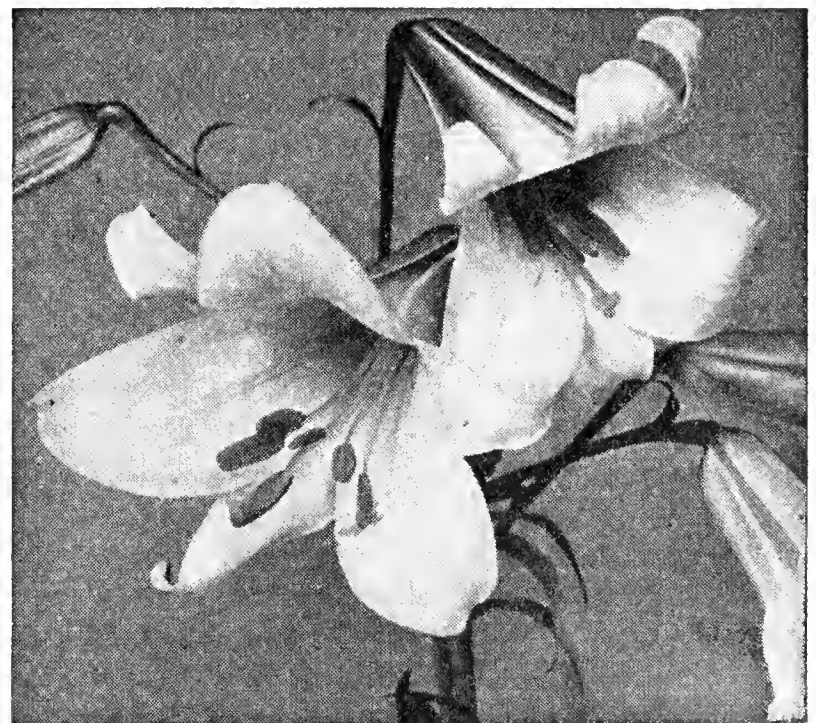

Familiarly known as the Gold-banded Lily of Japan. You should see the beautiful blooms in August to know how lovely they are. A broad band of gold runs from the throat to the tip of the snowy white petal, with crimson spots scattered over the entire surface. 25 cts. each, \$2.50 doz.

Lilium Speciosum Rubrum

One of the noted Speciosum trio that have been garden favorites for years. Its flowers, which come in August and September, are a delicate pink—in fact, almost white—with conspicuous red spots; stems from 2½ to 3 feet high and carry from four to six blooms. Each 25 cts., \$2.50 doz.

Lilium Auratum

Lilium Regale

Regale (Regal Lily)

What a wonderful thing is the fragrance of an herb garden. Here we have it distilled and intensified for every plant is fragrant. One can easily understand why the old fashioned herb garden is coming back, the mystery is why it ever disappeared. Each 25 cts., \$2.50 dozen.

Lilium Candidum

(Madonna or Ascension Lily)

Beautiful, delicately fragrant blooms of pure waxy white, borne during June and July on strong plants 3 to 5 feet in height. They are of easy culture, growing in almost any soil and location, and are excellent Lilies for the hardy border. Each 25 cts., \$2.50 doz.

Price's Agricultural Seeds

PRICES ON FARM SEEDS SUBJECT TO MARKET CHANGES

Write for Prices on Larger Quantities

Mammoth Red Clover. Domestic Grown. Pea Vine or Sapling Clover. Genuine Mammoth. A large rank-growing clover, ripening at the same time as Timothy, producing an enormous yield. Lb. 45 cts., bu. (60 lbs.)

Alsike or Hybrid. Alsike is a perennial and one of the hardiest of all Clovers, thriving in the coldest climates and stands freezing well, but also adapts itself to most climates where Clovers grow, and will grow in moister soil than Red Clover, in fact, has produced splendid crops under irrigation. The plants attain a height of one to two feet; stems and leaves, though smaller than those of Red Clover, are much more numerous, making hay of fine texture. Sow (if alone) 8 lbs. per acre. We advise farmers to add 2 to 3 lbs. per acre to their usual seeding of Red Clover and Timothy. Price, lb. 60 cts.

Grimm Alfalfa Clover (The Genuine Certified). Has a different root system, more hardy than other strains of Alfalfa and can be grown on shallower soil. Sealed and certified bags. Lb. 60 cts., bu. (60 lbs.)

Timothy. 99.60 Pure (Pine Tree Brand). As a crop for hay timothy is probably unsurpassed by any other grass. Lb. 20 cts., bu. (45 lbs.)

Japanese Buckwheat. It is of strong, branching growth, stands up well and produces from two to four times as much grain as any other variety under same conditions. It is also fully a week earlier. Our seed is grown from the largest Japanese type imported by us for stock seed. Sow 50 lbs. per acre.

Red Top Fancy. It is a perennial grass with a creeping habit of growth; leaf blades narrow. Red Top is a remarkable grass, accommodating itself to a variety of soils and conditions. It grows well on wet land. It is strongly drought-resistant and flourishes on soils so very poor in lime that most other grasses fail. Price, lb. 35 cts., 10 lbs. \$3.00.

Dwarf Essex Rape. A forage plant of great merit. Valuable feed for cattle, sheep and hogs. Lb. 15 cts., bu. (60 lbs.) \$5.00.

Golden Millet. Produces a very fine quality hay and makes a large seed head. Bu. (48 lbs.) \$3.50.

Orchard Grass. Lb. 30 cts., 10 lbs. \$2.50.

Soy Beans. (The Great Soil Improver). Soy Beans can be grown in all parts of the country where dent corn succeeds. We carry Manchou and Black Wilson varieties. Bu. \$3.50.

Sudan Grass. The most wonderful annual grass ever introduced. Per lb. 10 cts., 10 lbs. 75 cts., bu. (35 lbs.) \$2.25.

Winter Vetch. For forage and fertilizing purposes. Lb. 25 cts., bu. (60 lbs.) \$10.00.

Peas, Canadian Field. Usually sown with oats. Used both as a green feed and fertilizer. Bu. (60 lbs.) \$3.50, per 100 lbs. \$5.50.

Seed Oats. Selected varieties of supreme quality. Prices on application.

Mammoth Russian Sunflower. Large seeded variety. Lb. 15 cts., 10 lbs. \$1.00.

Field and Ensilage Corn

Lancaster Sure Crop. About 110 days. Stalks 8 to 12 feet high. Ears have broad yellow dent kernels on a red cob. 14 lbs., 90 cts., 56 lbs. \$3.00.

Improved Leaming. Yellow dent. An early, long eared corn, averaging about 10 inches in length, with 18 to 20 rows of deep yellow kernels. A good corn for silo, and extensively grown for that purpose by stock feeders everywhere. Matures in 100-110 days. 14 lbs. 80 cts., 56 lbs. \$2.50.

Longfellow. For many years a favorite yellow flint variety in New York State. The ears reach a length of 12 to 14 in., and have eight rows. The stalks are taller than Canada and occasionally bear two ears. 14 lbs., 90 cts., 56 lbs. \$3.00.

Sanford White Flint. An eight-rowed white flint variety, used to a considerable extent. Resembles Early Canada in all except color. 14 lbs. 90 cts., 56 lbs. \$3.00.

Early Eight Row Canada. Matures in about 85 days. Ears are medium length with 8 rows. Stalks grow 7 to 8 feet high. A yellow flint corn. 14 lbs., 90 cts., 56 lbs. \$3.00.

Sweet Fodder. This is sugar corn of the taller growing varieties which has not sufficient quality to rank as good sweet corn seed for our critical trade. Per 50 lbs. (bu.) \$4.00.

Westbranch Sweepstakes. One of the finest for silage. Grows stalks 10 to 12 feet high, a big ear 11 to 12 inches long, with 14 to 16 rows of kernels mostly reddish. Matures in about 100 days. 14 lbs. 75 cts., 56 lbs. \$2.50.

Inoculate Crops with Stimugerm. For vetches, field peas, cowpeas, and soy beans: 1/2-bu. size 25 cts., 1-bu. 35 cts., 5-bu. \$1.40. For clovers and alfalfa: 1/2-bu. size 35 cts., 1-bu. 65 cts., 2 1/2-bu. \$1.40.

HIGH GRADE FERTILIZERS

PLEASE NOTE—No smaller quantity of Fertilizer than here offered can be supplied.

If small quantities of Fertilizers listed are wanted by parcel post, please add for postage as follows:

15 cts. for 3 lbs., 20 cts. for 5 lbs., 30 cts. for 10 lbs.

Prices on Fertilizers subject to Market Changes.

Aluminum Sulphate—A material used in creating acid soils in which Azaleas, Rhododendrons, and similar plants are to be grown. Use one pound to 10 square feet of surface. 5 lbs. 45 cts., 10 lbs. 75 cts., 25 lbs. \$1.50, 100 lbs. \$5.00.

Adco—The addition of Adco to the compost pile, or to other vegetable refuse, grass clippings, leaves, etc., at the rate of two pounds to each wheelbarrow load of refuse, will produce a clean, odorless manure within three or four months. 25 lbs. \$2.00, 7½ lbs. \$1.00.

Blood Dried—A very quick acting fertilizer, being immediately soluble. 5 lbs. 50 cts., 10 lbs. 90 cts., 25 lbs. \$1.75.

Bone Meal—Unusually rich in nitrogen and phosphoric acid, the two principal plant foods. We recommend this especially for lawns, gardens and greenhouses, or any purpose where a high class fertilizer counts. Apply 800 to 1000 lbs. per acre. 5 lbs. 35 cts., 10 lbs. 60 cts., 25 lbs. \$1.25, 50 lbs. \$1.75, 100 lbs. \$2.75.

Bovung—A plain dried cow manure from high protein fed cows. Is absolutely free from weed seeds. Anal. 2-2-2. Guaranteed to contain 75% available organic matter. 100 lbs. \$3.50.

Cotton Seed Meal—Apply 800 lbs. per acre. Exceedingly rich in potash and ammonia, making an excellent grass and grain fertilizer; for putting greens it is invaluable. 100 lbs. \$3.00.

Driconure—A combined fertilizer and soil conditioner, contains all the strength of fresh manure, yet absolutely free of weed seeds and other impurities. Use in general gardens and for lawns. 50 lb. bag \$2.50; 5 lbs. 50 cts.

Lime, Agricultural Hydrated—Sweetens sour soils; binds loose soils; breaks up clay. Use ½ lb. to square yard. 10 lbs. 25 cts., 50 lbs. 75 cts.

Muriate of Potash—Apply 100 to 150 lbs. per acre, usually with other fertilizers. Excellent for potatoes, corn, and other grains. 100 lbs. \$3.50.

Nitrate of Soda—Apply 100 to 150 lbs. per acre, mixing with land plaster or other fertilizers, to render application more easy. Use only after plants are above ground. If used in liquid form dilute 2 ozs. to 1 gallon of water and do not apply oftener than twice a week. 5 lbs. 50 cts., 10 lbs. 75 cts., 25 lbs. \$1.25, 50 lbs. \$1.75, 100 lbs. \$2.75.

Peat Moss (granulated)—Acts as a perfect mulch. Marvelous results obtained with your garden and lawn by working it into the soil. Makes fertilizer more satisfactory. Prevents ground becoming hard baked or crusted. Bale of about 20 bu. \$2.85.

Agrico Fertilizer (Agrico Truck) 5-10-5—For all vegetable crops, grains, grass, etc. Apply 800 to 1,000 lbs. per acre broadcast. 5 lbs. 40 cts., 10 lbs. 70 cts., 25 lbs. \$1.00, 50 lbs. \$1.50, 100 lbs. \$2.50.

Super Phosphate—Twenty per cent available. Bone phosphate the most available form. Used on grain crops and others requiring an excessive amount of phosphoric acid. 100 lbs. \$2.25.

Sulphate of Ammonia—Apply 75 to 100 lbs. per acre only with other fertilizers deficient in nitrogen. A valuable fertilizer for all plants in which a large leaf development or rapid growth is desired. Will stimulate growth almost immediately. 5 lbs. 50 cts., 10 lbs. 70 cts., 25 lbs. \$1.50, 50 lbs. \$2.00, 100 lbs. \$3.25.

Salt—For asparagus beds and putting on walks and roads to kill weeds, Apply 800 lbs. per acre in early spring. 100 lbs. 90 cts., 50 lbs. 70 cts.

Pulverized Sheep Manure

Nothing can equal this for LAWNS, PLANTS, and Gardens, as it is the strongest of all natural manures, chemical analysis showing it to contain a higher per cent. of fertilizing ingredients—ammonia, phosphoric acid and potash—than in any animal fertilizer in use. It is sterilized to kill all foul seeds and ground fine. It is clean, easily and quickly applied, has no unpleasant odor, will not kill or burn the grass like the commercial fertilizers, will not sow a crop of noxious weeds for you like Barnyard or Stable manure to fill your lawns. It is immediate in its effect and lasting.

A beautiful Lawn is a great attraction to a home and as the constant growing and cutting of grass will exhaust the soil it makes it necessary to enrich it in order to keep your lawn in a state of perfection. To do this some use Barn Manure, which is bulky, unsightly and introduces seeds of obnoxious weeds and grasses. 5 lbs. 40 cts., 10 lbs. 60 cts., 25 lbs. \$1.00, 50 lbs. \$1.60, 100 lbs. \$2.75.

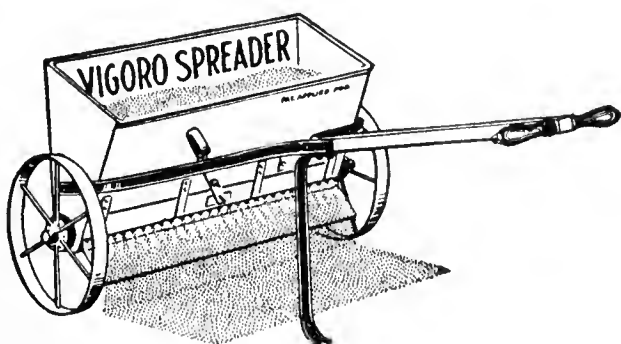

Vigoro—Beautify your home with shrubs, trees, lawns, and flowers. Make sure they receive the food elements needed for fine, sturdy growth. Feed them Vigoro, the Complete Plant Food that contains all 11 of the plant food elements scientists have proved plants require from the soil. 1 lb. carton 10 cts., 5 lb. carton 45 cts., 10 lb. carton 85 cts., 25 lb. bag \$1.50, 50 lb. bag \$2.50, 100 lb. bag \$4.00.

Loma—Beautifies lawns and gardens, a scientifically prepared plant food for lawns, flowers, vegetables, shrubbery and potted plants. Rich in Nitrates, Phosphates and Potash. Price, 1 lb. 10 cts., 5 lbs. 45 cts., 10 lbs. 85 cts., 25 lbs. \$1.50, 50 lbs. \$2.50, 100 lbs. \$4.00.

Please Write for Market Price on Larger Quantities.

Dealers, Florists and Large Users Please Ask for Quantity Prices.

Distributor and Lawn Seeder—Eliminates the messiness and waste of applying fertilizer and plant-food by hand. When used as a seed-distributor, the uncertainty of hand-seeding is eliminated.

Model	Width of spread	Capacity of hopper	Price
Small	16 in.	13 lbs.	\$1.50
Junior	16 in.	35 lbs.	5.75
Standard	24 in.	65 lbs.	10.50
Special	36 in.	100 lbs.	17.25

Maine Grown SEED POTATOES

(Certified Seed)

Potatoes are a most important crop to every gardener and care should be taken to plant strong, healthy, disease-free stock. A rich sandy loam containing plenty of humus will give the best crops. Cut the tubers to 1 or 2 eyes. Plant in rows 3 ft. apart, and drop 15 to 18 in. apart in row. Cover the tubers or divisions 4 in. deep. From 10 to 12 bu. of Potatoes are needed to plant one acre.

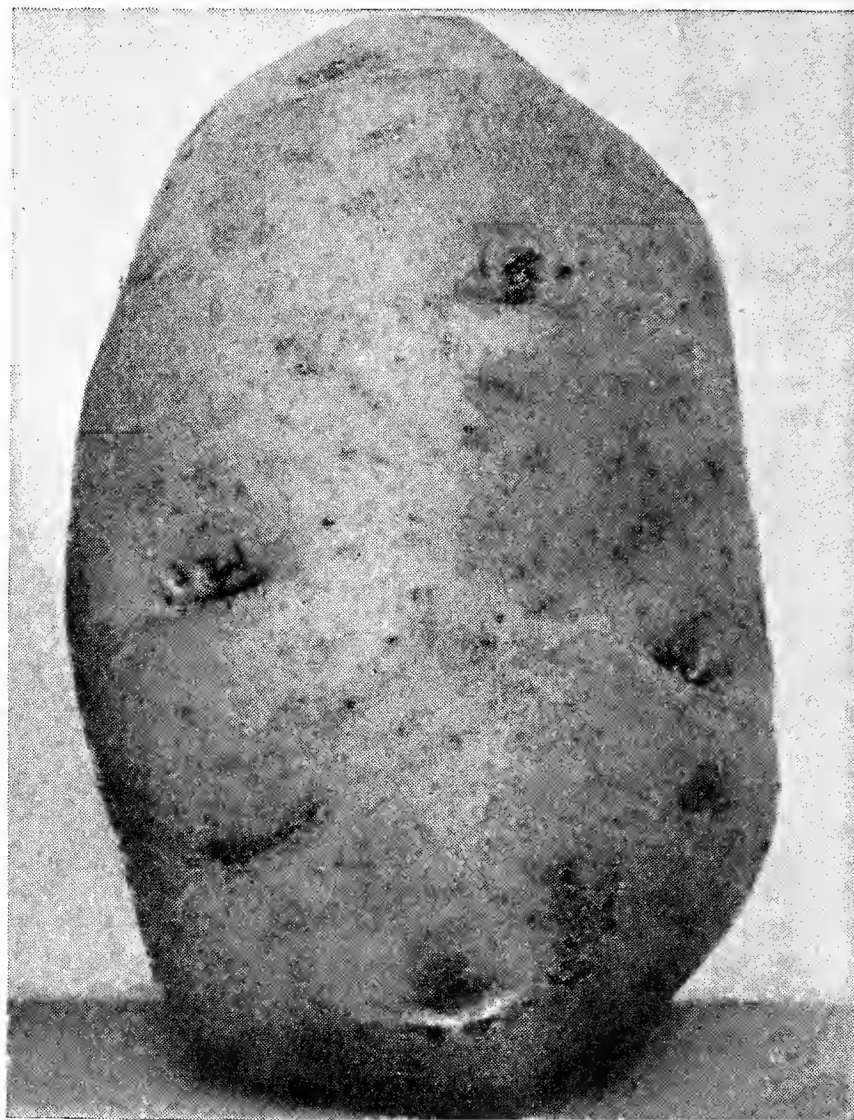

Because of market fluctuations, we are not quoting prices in this Catalogue. Write us for prices when you are ready to buy.

Irish Cobbler—One of the best extra-early varieties, with nearly round tubers having slightly indented, well-developed eyes when full size. The skin is thin, smooth, and of a yellowish white color. The flesh is pure white and exhibits remarkable cooking qualities. It is an extremely heavy yielder of choicest quality.

Green Mountain—The most popular potato on earth. Ideal for main crop. A dependable winter keeper. An excellent baking variety. A reliable medium late potato that is so popular in some sections it has superseded all other main crop varieties. It seems to thrive in all soils and in all localities, making heavy, healthy vines, and yielding big crops of large, smooth, white skinned tubers of handsome flattish oval form. It cooks white, dry and mealy, and well, and is not liable to scab or decay.

Red Bliss—To those who prefer a potato with a pink skin and white flesh, or those who grow for markets where this color is in demand, we recommend Red Bliss. It is one of the very earliest, nearly round, peels without waste and a fine yielder. It is a sure and uniform cropper, a strong grower, is of good size, cooks white and mealy and measures up to every requirement of a first-class first early potato. Its productiveness and fine quality commend it.

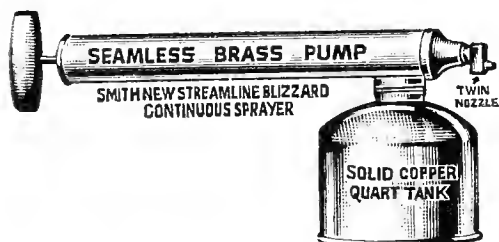

Russet—Considered the best late Potato today and as near blight-proof as a Potato can be. The tubers are round to oblong and of good size. Flesh is pure white and the skin has a rough, russet appearance.

Green Mountain

Insure Your Potato Crop with Semesan Bel

New Improved Semesan Bel—Controls seed-borne diseases and scab and protects the cut tubers from rotting, which insures maximum yield. Easily and quickly applied. Mix one pound with 7½ gallons of water, dip seed potatoes, drain and plant. 4 ozs. 50 cts.; lb. \$1.65; 5 lbs. \$7.00.

SPRAYERS and Dusters

KNAPSACK SPRAYERS

BROWN'S

Open-Hed—4-gal. galvanized tank. \$6.00. 4-gal. brass tank. \$8.90.

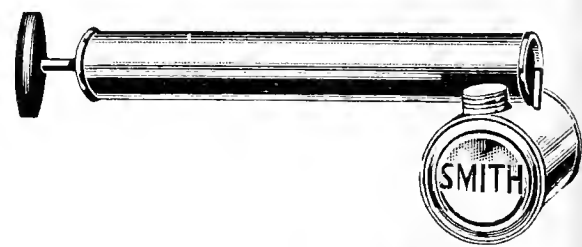

Open-Hed—3-gal. galvanized tank. \$5.00. 3-gal. copper tank. \$7.00.

No. 37—2½-gal. galvanized tank. \$4.00.

HUDSON

No. 110G—4-gal. galvanized tank. \$6.25.

No. 110B—4-gal. brass tank. \$9.60.

TIN SPRAYERS—\$.25, \$.35, \$.50, \$.75

Mighty Wheelbarrow Sprayer—The Mighty Wheelbarrow Sprayer has a corrugated galvanized bucket of 15 gallons capacity, heavy-duty pump, 5-gallon air-pressure tank, strong iron frame, and large wheel with wide rim to prevent Sprayer from sinking into ground when loaded. Excellent for use in spraying orchards, vineyards, garden truck, field-crops, etc. Will handle all spraying solutions and is ideal for spraying whitewash and cold-water paints. Each, \$34.00.

Has a solid copper STREAMLINE tank. The STREAMLINE pump barrel is of seamless brass and has a twin nozzle for straight-ahead or at an angle spraying. The filler opening in tank is extra large for easy filling.

It gives a continuous, unbroken spray with slow pumping. All parts are easily removed without tools for cleaning.

PUMP CHAMBER—Seamless solid brass, 1½ in. x 15 in. Overall length 18½ in.

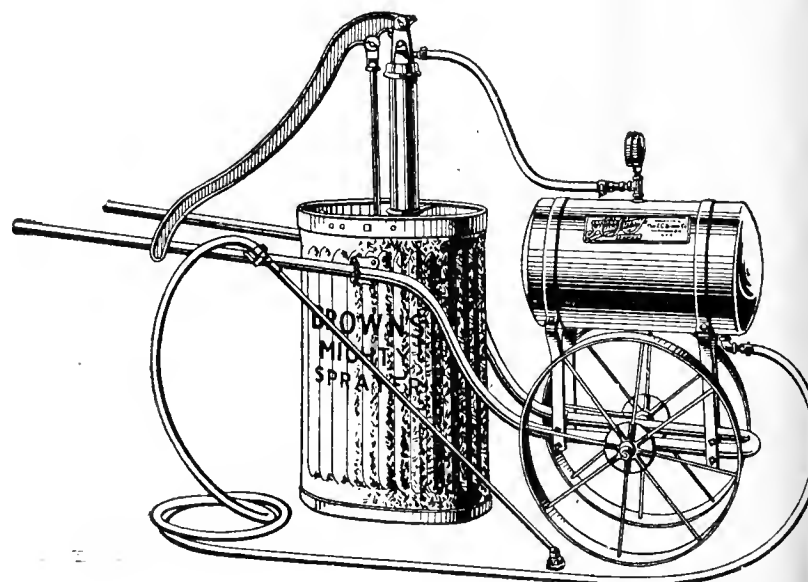

TANK—Solid copper; capacity 36 ounces (1½ quarts). Screws to pump.

NOZZLES—Twin, for straight or angle spraying. Price, \$1.85.

Bucket Sprayers—For spraying trees, shrubs, vines, field-crops; handling whitewash, disinfectants; washing automobiles, windows, and other purposes. Price, \$3.50.

Dust King One Man Powder Duster—Highly adapted for dusting all vegetable crops, Grapes, Berries, Bush Fruits, etc. With complete attachments for dusting one or two rows, dusting underneath leaves, capacity 5 lbs. Regulator is provided for small or large amount of Dust. Price, \$11.00. Net weight 8 lbs. Shipping weight 15 lbs.

FARM AND GARDEN TOOLS

A Complete Line. If it's for the garden, we have it

Plant Labels—Wood, pointed, for pot and garden plants. 4 x 5/8 inches, 30 cts. per 100, \$2.30 per 1000; 5 x 5/8 inches, 35 cts. per 100, \$2.50 per 1000; 6 x 5/8 inches, 40 cts. per 100, \$2.80 per 1000; 8 x 7/8 inches, 60 cts. per 100, \$5.00 per 1000; 10 x 7/8 inches, 70 cts. per 100, \$6.00 per 1000; 12 x 1 1/8 inches, \$1.10 per 100, \$9.00 per 1000. Wired, Wood, 3 1/2 x 5/8 inches, for trees, shrubs, Dahlias and similar plants, 35 cts. per 100, \$2.50 per 1000.

Japanese Cane Stakes—These are very attractive for all purposes of plant staking; thin and very strong. 3 ft. green, 65 cts. per 100, \$4.50 per 1000; 4 ft. green, 85 cts. per 100, \$6.00 per 1000; 5 ft. green, \$1.00 per 100, \$7.50 per 1000; 6 ft. plain, \$1.50 per 100, \$10.50 per 1000.

Stakes, Wooden—Painted green. Heavy grade for Dahlias. 4 ft. \$1.40 per doz.; 5 ft., \$1.75 per doz.; 6 ft. \$2.20 per doz.

Light Grade Stakes—Painted green. 1 1/2 ft., 40 cts. per doz., \$2.10 per 100; 2 ft., 60 cts. per doz., \$3.50 per 100; 2 1/2 ft., 85 cts. per doz., \$4.60 per 100; 3 ft., \$1.10 per doz., \$6.75 per 100; 3 1/2 ft., \$1.30 per doz., \$8.50 per 100; 4 ft., \$1.60 per doz., \$10.00 per 100; 5 ft., \$2.00 per doz., \$12.75 per 100.

Raffia—Palm fibre used by gardeners for tying plants and bunching vegetables. It is the best tying material yet produced. Natural color, 30 cts. per lb.; green dyed, 80 cts. per lb.

Ornamental Lawn Fans—Most popular, and inexpensive. Are most substantially built and painted with good white paint. 5 ft. fan, 95 cts.; 6 ft. fan, \$1.25; 8 ft. fan, \$1.50; Lattice Type, \$1.00 to \$1.50 each.

English Grass Hooks—"Fraser Brand." Price, 85 cts. Domestic—Best Quality. Price, 75 cts.

"Magic" Weeders—Spring tooth. The fingers are made of tempered steel. Is useful in loosening ground. Price, 15 cts., 25 cts., 50 cts.

Hedge and Shrub Shears—The blades are tempered cutlery steel, riveted to heavy malleable arms. This is a light, clean-cutting tool and very useful for everything excepting old heavy hedges. Price, \$1.00 to \$2.50.

Progress Pruning Shears—Finest and best tempered steel. The blade is detachable, and the ratchet nut can be adjusted to keep them properly tightened. It is built for hard usage. Price, 50 cts. to \$2.25.

Flower Gathering Scissors—Finest quality, imported. Cuts and holds the flowers. Price, \$2.25.

Garden Club Shears—Price, 75 cts.

Dibbles—For transplanting tomatoes, cabbage, celery, etc. Brass point and wood handle. \$1.00 each. Steel point and wood handle. 80 cts. each.

Lopping Shear—Is made with two drop forgings of high grade tool steel, carefully hardened and ground and fitted with 26-in. white ash handles, making a tool which is unsurpassed for cutting underbrush and limbs. Price, \$2.50 to \$5.00.

Border Shears—English Imported. Long handle for trimming the edges of borders and walks. 9-inch, \$5.00. American made. Best quality, 9-inch, \$4.00.

CEDAR TREE TUBS

New York pattern. Made of choicest seasoned white cedar. Highly finished, iron hoops, iron feet and drop handles.

No.	Inside Top Diam.	Inside Bottom Diam.	Depth	Each
1	12 in.	9 3/4 in.	10 5/8 in.	\$2.75

Neponset Paper Pots—Made of water-proof paper, light, clean and unbreakable. 2 1/2 in., 12 cts. per doz., 65 cts. per 100; 3 in., 14 cts. per doz., 80 cts. per 100; 4 in., 15 cts. per doz., 85 cts. per 100.

National Eezy Wear Garden Gloves—Made of imported leather processed to make it pliable as kid and washable. An ideal glove for men and women gardeners. Will outwear six cotton gloves. Sizes for women: "Small," "Medium," "Large"—for men: "Medium," and "Large." Price, 75 cts. a pair, postpaid.

Watering Pots (Wotherspoon)—Round shape. Each pot has a long spout with one fine and one coarse rose. Price, 6 qt., \$5.50; 8 qt., \$6.25; 10 qt. capacity, \$6.30; 12 qt. capacity, \$7.00.

Standard Watering Pots—All sizes, 50 cts. to \$1.25.

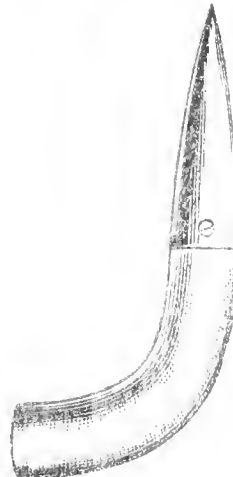

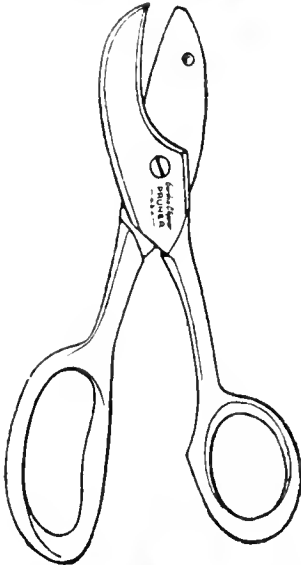

Fraser Brand, English Riveted Back Scythes—30 in. to 34 in. Each, \$2.75.

American Scythe Blades—Price, \$1.75.

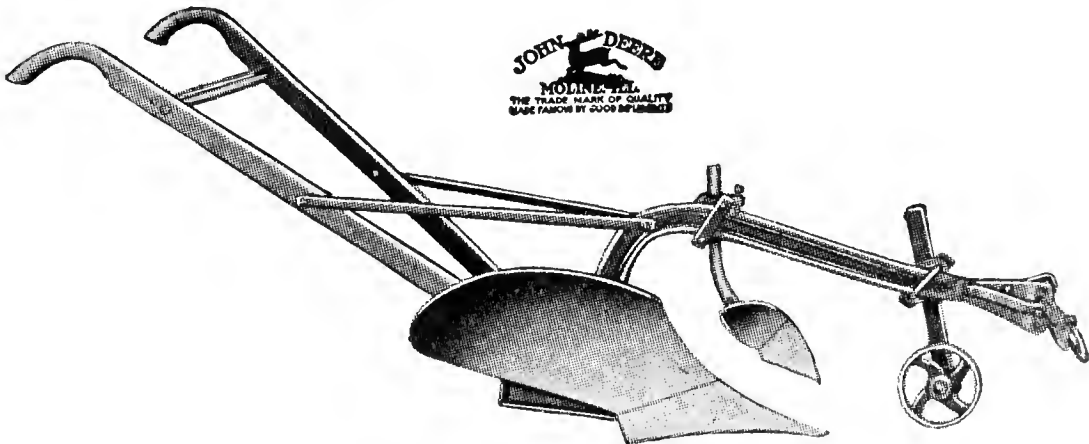

(Scythe Stones) 25 and 35 cts. (Snathes) \$1.75.

Solid Shank Trowels—Imported stainless steel. Price, \$1.25. American made, 50 cts. to 85 cts.

Garden Rakes, Hoes and Shovels.

We carry a Complete Line of Plows and Repairs, also Peg, Disc and Spring Tooth Harrows

Syracuse Walking Plow

INSECTICIDES and FUNGICIDES

DIRECTIONS FOR USING ANY OF THE FOLLOWING WILL BE FOUND ON EACH PACKAGE

PLEASE NOTE: If wanted by Parcel Post add for postage as follows: 10 cts. for 1 lb., 15 cts. for 2 lbs., 20 cts. for 5 lbs., 30 cts. for 10 lbs., up to and including the third zone; for other zones please add additional postage.

**For
Soil
Steri-
liza-
tion**

Ansul Formaldehyde Dust—A dust-treatment for the sterilization of the soil and disinfection of the seed against damping-off and other root-rots of vegetables and flower seedlings. Use at the rate of 1½ ounces per square foot of area 2½ to 3 inches deep; for deeper soils, use 2 to 3 ounces. Full directions on container. For the average greenhouse flat 2 feet square and between 2 and 3 inches deep, it will take 3 ounces of dust per flat, same to be thoroughly mixed on the floor before placing in the flats. Lb. 75 cts., 5 lbs. \$2.00.

Antrol—The Antrol system is adapted to any size house or garden and quickly destroys all species of sweet eating insects. It is composed of small glass containers and a special formula of syrup. Antrol sets containing 4 ready filled ant feeders 40 cts., extra ready filled feeders 10 cts., 4 oz. bottle syrup 35 cts., pints 85 cts.

Arsenate of Lead (powdered)—1 lb. to 1½ lbs. dilutes to 50 gallons of water or may be used dry like Paris Green. 1 lb. bags 30 cts., 4 lb. bags 80 cts.

Arsenate of Calcium—Used in control of potato bugs, Mexican bean beetle, tomato and cabbage worms and many other chewing insects, which attack vegetables. Mixed easily with water and can be used either spray or dust. 1 lb. 30 cts., 4 lb. bags 80 cts.

"Black Leaf 40"—Per 1 oz. bottle 35 cts., 5 oz. bottle \$1.00, 1 lb. \$2.25, 2 lbs. \$3.25, 5 lbs. \$5.85, 10 lbs. \$10.60.

Bordeaux Mixture (powder)—12¾% copper mixture, for spraying purposes. 1 lb. 30 cts., 4 lb. bags 65 cts.

Blue Stone (Copper Sulphate) Crystals. For making Bordeaux Mixture; best known remedy for blight. Lb. 10 cts., 10 lbs. 90 cts., 100 lbs. \$7.00.

Carbon Disulphide Merck—For the extermination of woodchucks, ground squirrels, moles, mice and prairie dogs. Also used in wheat bins to control weevils. 1 lb. can 50 cts.

Ceresan (New Improved)—A new low cost grain disinfectant. Costs only 1⅞ to 2⅓ cts. per bushel. Unusually effective in controlling bunt or stinking smut of wheat, covered smut and stripe of barley, and oat smut. Frequently improves the stand and yield of grain 1 to 5 bushels per acre. Easily and quickly applied by 20 revolutions of seed treater or 3 turning with a shovel. Seed should be treated 24 hours before planting. Does not reduce drilling rate nor damage drill. One pound treats 32 bushels of wheat, oats, or barley. 1 lb. tin 70 cts., 5 lb. tin \$3.00.

Cuprocide (Red Copper Oxide)—Specially prepared for use on soils and plants, to prevent the hunger disease known as Damping Off. 1 lb. 90 cts., 5 lbs. \$3.50.

Cyanogas (Calcium Cyanide) (G. Fumigant)—A valuable insecticide for greenhouse fumigation for destroying aphids, white fly, soft scale, thrips, etc. It is scattered along the walks and in the house when closed for the night. 5 lbs. \$3.00, 25 lbs. \$10.00.

Cyangas (Calcium Cyanide) (A Dust)—for killing rats, moles, woodchucks and other rodents. Per ½ lb. 45 cts., 1 lb. 75 cts., 5 lbs. \$3.00.

Carboleum (Wood Preservative)—\$1.65 gal.

Calomel Agricultural (for Onion Maggots)—¼ lb. 70 cts., 1 lb. \$2.15.

Corrosive Sublimate (Agricultural)—For treating seed. ¼ lb. 55 cts., 1 lb. \$1.70.

Ever Green Spray—Deadly to insects—both chewing and sucking. Non-poisonous to people and pets. Pyrethrum base. Requires no spreader. Simply mix with water,

and spray. Also kills ants and fleas on dogs. 1 oz. 35 cts., 6 ozs. \$1.00, 16 ozs. \$2.00, 1 gal. \$9.50.

Fungtrogen—A highly concentrated form of fungicide that will conquer mildew and control black spot on roses. It also supplies essential fertilizer. Dilutes 1 part to 60 parts of water. 75 cts. per ½ pint, 1 pint \$1.25.

Grape Dust—A powder preparation used for mildew, aphids, black fly and other insects and fungous diseases, principally in greenhouses. 1 lb. 35 cts., 5 lbs. \$1.25.

Grafting Wax—For all pruning and grafting purposes. Used when trimming trees and shrubbery. Gives needed protection. ¼ lb. package 20 cts., ½ lb. package 30 cts., 1 lb. package 50 cts.

Hitox—A double acting concentrated insecticide, that kills chewing and sucking insects, containing the active toxic properties of Rotenone and Pyrethrum, with a vegetable oil spreader. A complete spray that does not stain or injure foliage and is non-injurious to higher forms of life. 1 qt. \$3.00, 1 gal. \$9.00.

Hellebore—Will destroy currant worms and other soft-shelled insects that infest the garden. ½ lb. 30 cts., 1 lb. 50 cts.

Liquid Slug Shot—A concentrated spray for foliage of all kinds. Liquid Slug Shot combines rotenone and pyrethrum in the proper proportions with a spreader and a very effective fungicide. Simply dilute with water and spray. Non-poisonous to animal life—safe—and easy to use. 1 oz. 35 cts., 6 ozs. \$1.00.

Lime Sulphur (Dry Powder Form)—Applied as a dormant spray in the fall after the leaves drop or in the spring before the buds open to destroy San Jose scale and fungous spores of apple scab, peach rot, leaf spot, etc. One-half pound will make five gallons. 1 lb. 35 cts., 12½ lb. bag \$1.50.

Mouse-Nots—Ordinary extermination methods as applied to mice are much in the same class as those for rats. However, based on the eating habits of mice a PRODUCT HAS BEEN PERFECTED CALLED MOUSE-NOTS, a seed of unusually meaty flavor that has been found to be very attractive to Mice, whether it be the ordinary house mouse, field or pine mouse. 25 cts pkg.

Mole-Nots—Carry on their underground work unnoticed by man until their telltale ridges and mounds have disfigured lawns, damaged golf courses, or ruined seed beds in the garden or nursery. When such evidences of damage are first noticed, control measures should be undertaken on the affected area as promptly as possible. 25 cts. pkg.

"Nico-Fume" Pressure-Fumigator—For years, florists have used "Nico-Fume" Powder by burning it in loose piles on the greenhouse walk. But some nicotine will condense on the walk and thus be lost. To prevent this, "Nico-Fume" Powder is now supplied in special pressure-fumigation tins, in which the Powder is burned under pressure, producing finely-divided fumes, that quickly kill the insects. Results: Greater economy and increased efficiency. 1 1-lb. Pressure-Fumigator 75 cts., 1 ½-lb. Pressure-Fumigator 45 cts., 12 1-lb. Pressure-Fumigator \$7.00, 12 ½-lb. Pressure-Fumigators \$4.20.

Naphthalene Flakes Treatment of Gladiolus Bulbs for Thrips—Sprinkle the flakes among the bulbs, using one ounce to one hundred bulbs, or about 1 lb. to a bushel of bulbs. The time of application may be either in the fall, during the winter or a week, or two before planting in the spring. Lb. 15 cts., 5 lbs. or more 13½ cts. lb.

Nico-Fume (Liquid)—For use as a spray or vapor, for controlling green fly, aphids, etc., in greenhouses and outdoors. 1 lb. \$2.25, 4 lbs. \$5.75, 8 lbs. \$10.00.

STOMACH POISONS, such as Lead Arsenate and Paris Green, are used to combat chewing insects. Examples: Colorado Potato Beetle, Curculio.

CONTACT INSECTICIDES, such as Black Leaf 40 and Ever Green, are used to combat sucking insects. Examples: Plant-Lice, Pear Psylla.

FUNGICIDES, such as Lime-Sulphur and Bordeaux Mixture, are used to combat plant diseases. Examples: Apple Scab, Potato Blight.

Para Dichlorobenzine—For peach tree borers. Full directions on each package. Do not use on very young trees. When planted around base of a peach tree it generates a gas that kills the borer in that tree. 1 lb. 50 cts., 5 lbs. \$1.75, 10 lbs. \$3.00, 25 lbs. \$5.75, 50 lbs. \$11.00.

Paris Green—A poisonous powder for potato bugs, worms, caterpillars, slugs, etc. It may be used in liquid form 1 pound in 50 gallons of water, or with Land Plaster at the rate of 1 pound of Paris Green to 100 pounds Land Plaster. ¼ lb. 20 cts., ½ lb. 30 cts., 1 lb. 50 cts.

Pomo-Green with Nicotine—The leaf-green all-in-one Dust or Spray. A combination material which controls fungous diseases. Lb. can 75 cts., 5 lb. can \$3.00.

Pyrox (Bowkers)—A combined insecticide and fungicide for all leaf eating insects, blights and fungous troubles; a pasty substance and needs only to be mixed with water. 5 lbs. \$1.75, 25 lbs. \$5.00, 100 lbs. \$12.50.

Pyrox (Nicotine)—Kills both chewing and sucking insects; controls blight and other diseases. Just mix with water. 17 ozs. 50 cts., 5 lbs. \$1.75, 10 lbs. \$3.00.

Red Arrow Garden Spray—Kills many varieties of both sucking and chewing insects on vegetables, flowers, fruits Red Arrow is a highly concentrated pyrethrum extract, containing soap. Non-poisonous. Use as directed. Will not injure foliage. 1 oz. 35 cts., ¼ pt. \$1.00, 1 pt. \$2.50, 1 qt. \$3.70, 1 gal. \$9.50.

Rotenone Dust—For farmers and commercial growers. Controls insects on vegetable crops—leaves no poison residue. For asparagus beetle, bean leaf beetle, leaf hopper, Mexican bean beetle, cabbage worm, plant lice, thrips, striped and spotted cucumber beetle and other insects. Use with duster or mix with water as a wash. 15 to 25 lbs. per acre. 1 lb. bag 30 cts., 4 lb. bag 70 cts., 100 lb. bag \$13.50.

Rotecide—A standard rotenone spray. Kills both by contact and through the stomach, absolutely harmless to man, animal or bird life. Rotecide spray is complete. No spreader required, just add water. 1 oz. bottle 35 cts., 8 oz. can \$1.00, 1 pint can \$1.75, 1 quart can \$3.00, 1 gallon can \$8.00.

Semesan (DuBay)—A mercuric disinfectant for the control of many seed, plant and soil diseases. One ounce treats 15 pounds of seed. Per 2 ozs. 35 cts., 1 lb. \$2.25, 5 lbs. \$9.90.

Semesan Bel (DuBay)—For treating seed potatoes before planting controlling seed-borne diseases. 1 lb. treats 60 to 80 bushels of seed. Per 4 ozs. 45 cts., 1 lb. \$1.50, 5 lbs. \$6.75.

Semesan Jr. (DuBay)—Controlling seed-borne diseases of field seed and sweet corn; protects the seed from rotting in the ground. 4 ozs. 35 cts., 1 lb. \$1.00, 5 lbs. \$4.75.

Dog-Skat—Protect your evergreens. The odor slowly emanating from the open tube of Dog-Skat will keep dogs away. A tube lasts from six months to a year. Tube 30 cts., 3 for 80 cts.

Dogzoff—A repellent for dogs, cats, and rabbits. One spray will last three to four weeks. Not offensive to humans. Bottle 60 cts.

Hormodin "A" Stimulates Rapid Root Growth on Cuttings at Low Cost—Hormodin "A" is offered in the economical and convenient Boyce Thompson Institute units of dosage and root growth potency. Each package contains complete directions for the treatment of cuttings. Treats 200 to 450 Cuttings, per pkg. \$1.00, treats 450 to 1800 Cuttings, per pkg. \$2.00.

Stanley's Crow Repellent—As hundreds of corn growers have been doing for over twenty years. Large can,

enough for 2 bushels of seed corn (8 to 10 acres), \$1.00, half size can 60 cts. "Money Back" guarantee. 1 qt. \$1.75.

Scalecide—Used for the destruction of the San Jose Scale. Scalecide does not clog nozzles, hose or pump and is pleasant to use. Spray during the winter or early spring when the trees are dormant. 1 quart 65 cts., 1 gal. \$1.55, 5 gals. \$5.50, 15 gals. \$11.25, 30 gals. \$18.50, 50 gals. \$26.00.

Slug Shot Dust—The standard remedy containing Rotenone for currant worms, rose slugs, cabbage worms, and soft shelled insects that infest the vegetable or flower garden. 1 lb. carton 25 cts., 5 lbs. \$1.00, 25 lbs. \$4.00, 125 lb. keg \$18.00.

Snarol—For control of cutworms, snails, slug. Non-injurious to vegetation and very economical to use on account of its insolubility in water. 1½ lbs. 35 cts., 4 lbs. 85 cts.

Sulfocide—An effective summer spray for the control of scale and blackrot on fruit trees, mildew, and blackrot on roses, etc. Per pt. 50 cts., 1 qt. 85 cts., 1 gal. \$2.25.

Thrip Juice (Hammond's)—This preparation is very effective against aphids, red spider, mealy bugs and sucking insects generally. 1 pint 65 cts., 1 quart \$1.25, 1 gallon \$4.80.

Tobacco Dust (for dusting)—Repellent for most insects, bugs and worms infesting the garden. 1 lb. 10 cts. (prepaid 20 cts.), 5 lbs. 35 cts., (prepaid 50 cts.), 10 lbs. 60 cts., 25 lbs. \$1.00, 100 lbs. \$3.25.

Tobacco Dust (Gold Leaf)—10 lbs. 75 cts.

Tree Tanglefoot—A paste preparation painted around the trees to keep caterpillars, etc., from crawling into the trees. One pound makes from 12 to 15 lineal feet of band. 6 ozs. 25 cts., 1 lb. 60 cts., 10 lbs. \$4.35.

Tree Wound Paint—Prevents decay after pruning. Stops tree bleeding. This residual, penetrating, antiseptic paint is not affected by cold, heat or moisture. Does not peel, crack or get brittle. 1 quart \$1.25, 1 gallon \$3.00.

Tri-Ogen—Insect spray and Fungicide Rose Garden spray treatment, especially recommended for flowers. Convenient, easy and pleasant to use. Triple acting. Small kit (makes 16 qts.) \$1.50. Medium kit (makes 64 qts.) \$4.00.

Volck, Nursery—Effectually control aphids, mealy bug, white fly, thrips, etc., while for red spider and scale insects upon evergreens it is unequalled. Does not discolor foliage. ½ pint 35 cts., pint 55 cts., quart 75 cts., gallon \$2.00.

Volck, Garden—Containing both nicotine and soap, resulting in practically a complete spray, insecticide, fungicide and ovacide. Effective against aphids, cyclamen mite, white fly, chrysanthemum midge, rust, and mildew. 3½ oz. bottle 35 cts., 1 pint \$1.00, 1 quart \$1.50.

Volck, Greenhouse—Designed primarily for use under lath and glass. Used on plants and shrubs that are too tender for other sprays. Practically all tender foliage can be treated with Greenhouse Volck with a wide margin of safety. Qt. 75 cts., gal. \$2.00.

Weed Killer—Destroys weeds in paths, roads, gutters, drives, etc. Kill roots and tops of all weed and grass growth easier than hoeing and digging by hand. Very effective in walks and cobbled gutters without injury to road-bed. Does not discolor cement. Usually prevents growth for season. 1 quart can 65 cts., 1 gallon can \$1.50, 5 gallon can \$6.25.

Whale or Fish-Oil Soap—Kills lice and sucking insects on trees, shrubs, plants, vines, and roses. Lb. 30 cts., 5 lbs. \$1.25, 25 lbs. \$4.00.

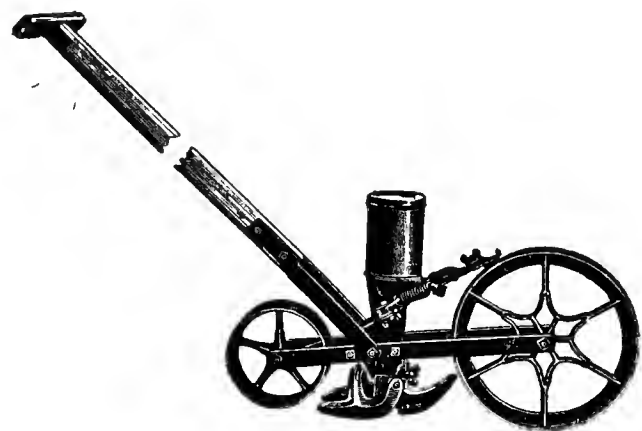

Garden

NO. 300 PLANET JR. SEEDER
Price, \$21.00

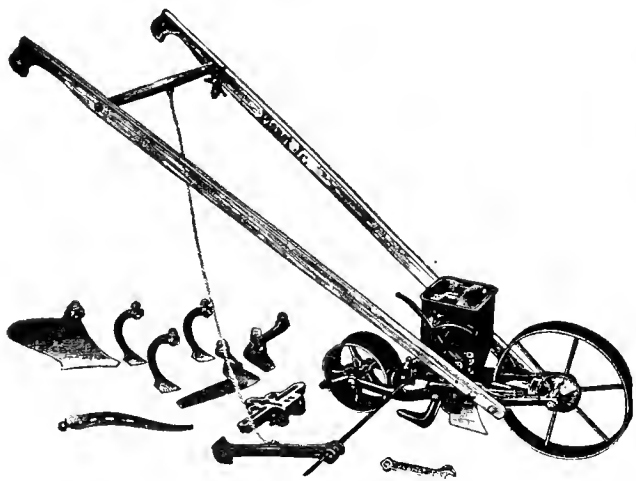

The No. 300 is rapidly becoming the most popular Seeder for market gardeners. It is a Plate Seeder, having three seeding-plates, each with 13 holes, giving ample adjustment for any size seed. Adjustments quickly and easily made. Hopper removable. Many exclusive features combine to make the No. 300 easy running, dependable and accurate. For use on muck soil and sandy soils.

NO. 300A PLANET JR. SEEDER. Same as No. 300 but with concave roller wheels for use on ordinary soils. Price, \$21.00.

NO. 22 PLANET JR. JIFFY SEEDER
Price, \$9.50

An inexpensive but accurate and dependable Seeder for small gardens. Will sow almost any vegetable seeds from the smallest up to beans in a continuous row accurately and evenly. Will handle a five-cent packet just as well as a hopper full. Ideal for the garden.

NO. 4 PLANET JR. COMBINED SEEDER AND SINGLE WHEEL HOE
Price, \$19.50

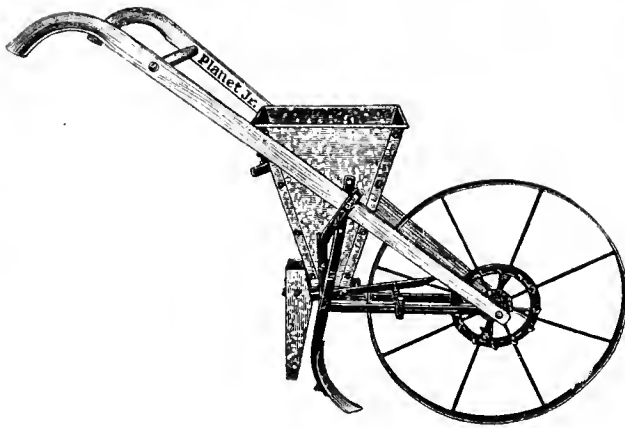

A combination of the most useful tools for a moderate-sized garden. Plants almost all vegetable seeds in continuous rows in hills 4, 6, 8, 12 or 24 inches apart. An adjustable plow opens a straight narrow furrow, the seeds are dropped in it, are covered and the soil firmed and the next row marked out all in the same operation. Converted into a Single Wheel Hoe by changing one bolt. Cultivating equipment includes all the essential equipment for hoeing, weeding, cultivating, plowing, furrowing, ridging, etc. The tools are oil-hardened and tempered and will wear almost indefinitely.

NO. 4D PLANET JR. SEEDER. Exactly the same as the No. 4 above but without the cultivating attachment. Price, \$15.50.

PLANET JR. NO. 125 FIVE TOOTH CULTIVATOR
Weight 24 lbs.

Equipment: 5-1 $\frac{1}{4}$ x 5 Cultivator Steels
18 inch steel wheel
Price, \$6.00

Planet Jr.

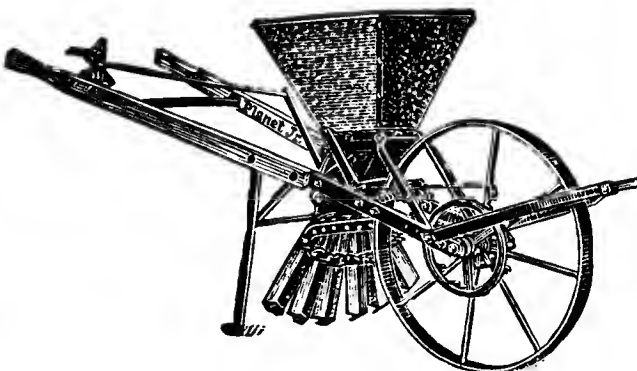

PLANET JR. NO. 215 FERTILIZER DISTRIBUTOR

Price, \$6.50

Packed Weight 17 lbs.
Capacity of Hopper 30 lbs.

There has long been a demand for a light, inexpensive, but practical tool for side dressing growing crops. The No. 215 Fertilizer Distributor will answer this need for many farmers.

NO. 220 SAVES TIME AND LABOR—PRODUCES BIGGER CROPS
Price, \$29.50

The important points to consider about a Fertilizer Distributor are, does it accurately place the fertilizer where and as it should be placed, and does it save fertilizer, time, and labor while doing it? The Planet Jr. No. 220's have now been in use for years and have proved that they meet the above requirements.

"THE FARMER" NO. 125

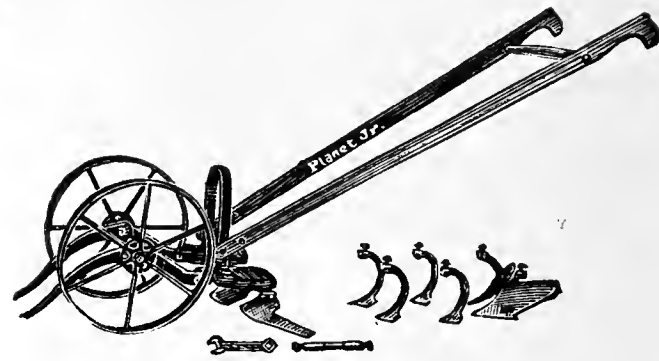

The "Farmer" is all that the name implies. It "farms" a garden the way a farmer likes to see it farmed. The five reversible cultivator steels do the business just like a regular five shovel one horse cultivator.

And the steels are so arranged that the furrow made by the outside tooth next to the row is filled up by the "oil win" tooth. The steels are the right width for thorough cultivation and easy pushing and have double life because they are reversible—all are oil hardened and tempered for efficient use and long life.

The "Farmer" is quickly adjustable in width from 9 $\frac{1}{2}$ to 15 inches, which means cultivation of 12 to 24 inch rows at one passage. For still narrower rows the two outside teeth can be easily removed.

The wheel is adjustable to regulate the depth of work and the handles are adjustable in height to suit the operator.

Tools

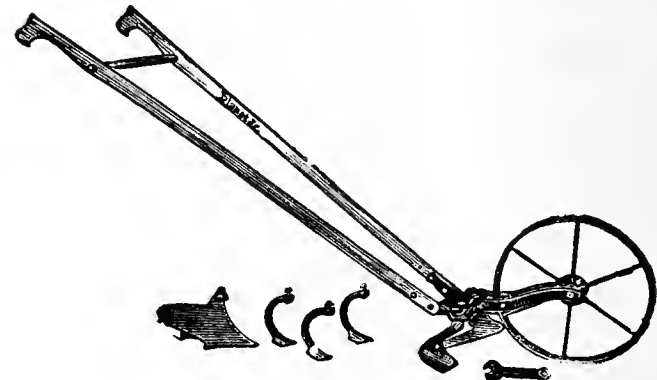

NO. 12 PLANET JR. DOUBLE AND SINGLE WHEEL HOE
Price, \$11.50

Planet Jr. Double Wheel Hoes are almost universally used by professional vegetable growers. They will straddle the crop, hoeing both sides of the rows at once and until the plants are 20 inches high. The No. 12 includes all the equipment usually required for gardening—a pair of Hoes for shallow cultivating and weeding, 4 steel Cultivator Teeth for general cultivation and a pair of Plows for hilling, furrowing, etc. A long bolt and ferrule are furnished for changing to a Single Wheel Hoe for later cultivation.

NO. 11 PLANET JR. DOUBLE WHEEL HOE. Same as the No. 12 but with additional equipment including a pair of 4 $\frac{1}{2}$ -inch Hoes, a pair of 3-tooth Rakes and a pair of 5-tooth Rakes. Price, \$14.50.

NO. 13 DOUBLE WHEEL HOE. Same as No. 12 but equipped with one pair of hoes only. Used by thousands of market gardeners for shallow cultivation. Price, \$8.75.

NO. 17 PLANET JR. SINGLE WHEEL HOE
Price, \$8.00

The No. 17 with plow, cultivator teeth and hoes, is the most popular of all Wheel Hoes because it is light and easy to handle and has the most needed equipment.

NO. 17 $\frac{1}{2}$ PLANET JR. SINGLE WHEEL HOE. Same as the No. 17 less the Plow. Price, \$7.00.

NO. 18 SINGLE WHEEL HOE. Same as the No. 17 $\frac{1}{2}$ less the Cultivator Teeth. Used extensively by market gardeners. Price, \$6.00.

PLANET JR. NO. 82 HORSE HOE AND CULTIVATOR COMBINED

A Seven-Tooth Horse Hoe for More Thorough Cultivation
With Steel Wheel. Weight, 77 lbs.
Price, \$16.00

The No. 82 Seven-Tooth Horse Hoe has gained great popularity because of the large amount and great variety of work that can be done with it. Finishes rows up to 32 inches apart working the middle complete at one passage. Its reversible side standards can be changed to any angle desired; the zig-zag frame is particularly strong and the seven teeth insure fine and thorough cultivation. It is equipped with lever adjustment for width like the No. 9. In addition to the regular equipment, other widths of cultivator teeth, sweeps, furrowers, and turning shovels, can be added.

The No. 82 can also be bought without a wheel (82D), or without the hilling steels and shovel steel (82E).

A DOZEN SUPERB DAHLIAS

From the large number of Dahlias introduced in recent years we have selected the following meritorious, large-flowering varieties, any one of which will add an outstanding sort to your garden list. With proper culture they will produce strong, sturdy plants with the finest of large blooms. Furnished in strong divided tubers.

The reasons for the popularity of the Dahlia are not hard to find. They are easy to grow, requiring a well-dug but only moderately rich soil and a fairly sunny situation. The tubers may be planted any time from April 25 to July 1, in this latitude, but the first of June is generally the best time to set them out. June-planted Dahlias come into bloom after the hot days of summer have passed and produce the largest and finest flowers. Set the tubers with the crown or eyes up and cover with about 4 inches of soil. Allow only two or three main stalks to develop in each hill. Give plenty of room, at least 2 feet and better 3, between plants. A light application of fertilizer at regular intervals is advisable. To produce exhibition flowers, careful trimming and disbudding is practised.

Cameo (ID.)

True coral-pink, deepening toward center; petals overlaid with glistening golden sheen, reverse deep rose-pink. Fine exhibition flower. \$1.00 each.

The Commodore (ID.)

One of the largest and most spectacular yellow Dahlias, many of the blooms attaining 1 foot across and of good depth; color a brilliant lemon-yellow; petals long and broad. Exceedingly free bloomer. 50 cts. each.

Champoeg (ID.)

Exhibition-size blooms of lemon-yellow, with a suffusion of deep rose-pink. Free flowering and early. Stiff stems. 50 cts. each.

Ida Perkins (Decorative)

A magnificent pure white with full center and of fine form. The large showy blooms are produced in profusion and are admirable for cutting. An early bloomer. 75 cts. each.

Jane Cowl (Decorative)

A massive bloom of buff and old-gold, blending with salmon. The stem is of unusual strength, which supports the bloom well above the foliage. 50 cts. each.

Jersey's Beauty (Decorative)

Lovely pink with the tips of the petals slightly touched with gold. A large, perfect bloom on very long, stiff stems. One of the finest Dahlias ever introduced. 50 cts. each.

Kathleen Norris (ID.)

A pleasing, soft rose-pink; center petals creamy pink. The petals are broad, overlapping and beautifully twisted.

Kemp's Violet Wonder (ID.)

A magnificent Dahlia, bright violet-purple in color, the tips of the petals shading into a faint bluish-violet. The flowers are large and deep, of perfect form, and keep well when cut. The stems are stiff, holding the flowers well above the foliage. It is a strong grower. 50 cts. each.

Mrs. I. de Ver Warner (Decorative)

A deep mauve-pink of perfect form and large size. Free and continuous bloomer, excellent for exhibition as well as for general garden purposes. 35 cts. each.

Monmouth Champion (F.D.)

Brilliant orange-flame. Strong grower. 50 cts. each.

Omar Khayyam (F.D.)

An unusual coloring—Chinese red at the base of petals shading to bright orange and tipped lighter. 75 cts. each.

Satan (C.)

A sensation for its striking beauty, formation and coloring. Here is really an outstanding variety; blooms average 10 to 12 inches in diameter and 6 inches in depth; color, flaming scarlet with orange-salmon at base of each petal; flowers last a long time when cut. Price, 75 cts. each.

GLADIOLUS

Naphthalene Flakes Treatment of Gladiolus Bulbs for Thrips

Sprinkle the flakes among the bulbs, using one ounce to one hundred bulbs, or about 1 lb. to a bushel of bulbs. The time of application may be either in the fall, during the winter or a week or two before planting in the spring, and suggest sprinkling the flakes in trench when planting, covering the flakes 1 or 2 inches and planting the bulbs on top in the usual manner. Per lb. 15 cts.

Betty Nuthall. A warm, light coral with pale orange throat and a light feathering of carmine. The flowers are often 6 inches across, of splendid substance, and are well placed on tall, strong spikes.

Dr. F. E. Bennett. Deep peach-red, with flame-scarlet suffusion, lip speckled ruby and white. Large flowers borne on tall, stiff stems. The general effect of the flower is red and it is considered the finest of its color.

Golden Measure. A deeper shade of yellow, heretofore unknown in the large-flowering Gladiolus. Several of these gorgeous flowers in bloom at once on a tall stem give a most magnificent effect.

Mr. W. H. Phipps. Superabundance of bloom and remarkable color have combined to bring this variety rapidly to the fore. The huge flowers, perfectly placed on a tall stem, are clear La-France pink, overlaid with glowing salmon-rose, frequently speckled with ruby.

Mrs. Leon Douglas. Enormously large flowers of beautiful begonia-rose, striped with flame-scarlet, the lower petals pale lemon, speckled ruby. The tall, strong stems produce several side-shoots. Considered one of the largest Gladiolus in existence.

Peace. Few varieties have become as popular as Peace. The general effect of the flower is white, with a pale lilac feathering on the interior petals. Large, well placed and borne on tall, strong spikes.

Rev. Ewbank. A beautiful light porcelain-blue, giving the effect of an almost solid color; deep blue blotch on lower petals; early and good-sized flowers.

Mrs. Frank Pendleton. Salmon-pink which extends to reverse side of the petals as well as in the center, with a rich, deep maroon blotch on the three lower petals.

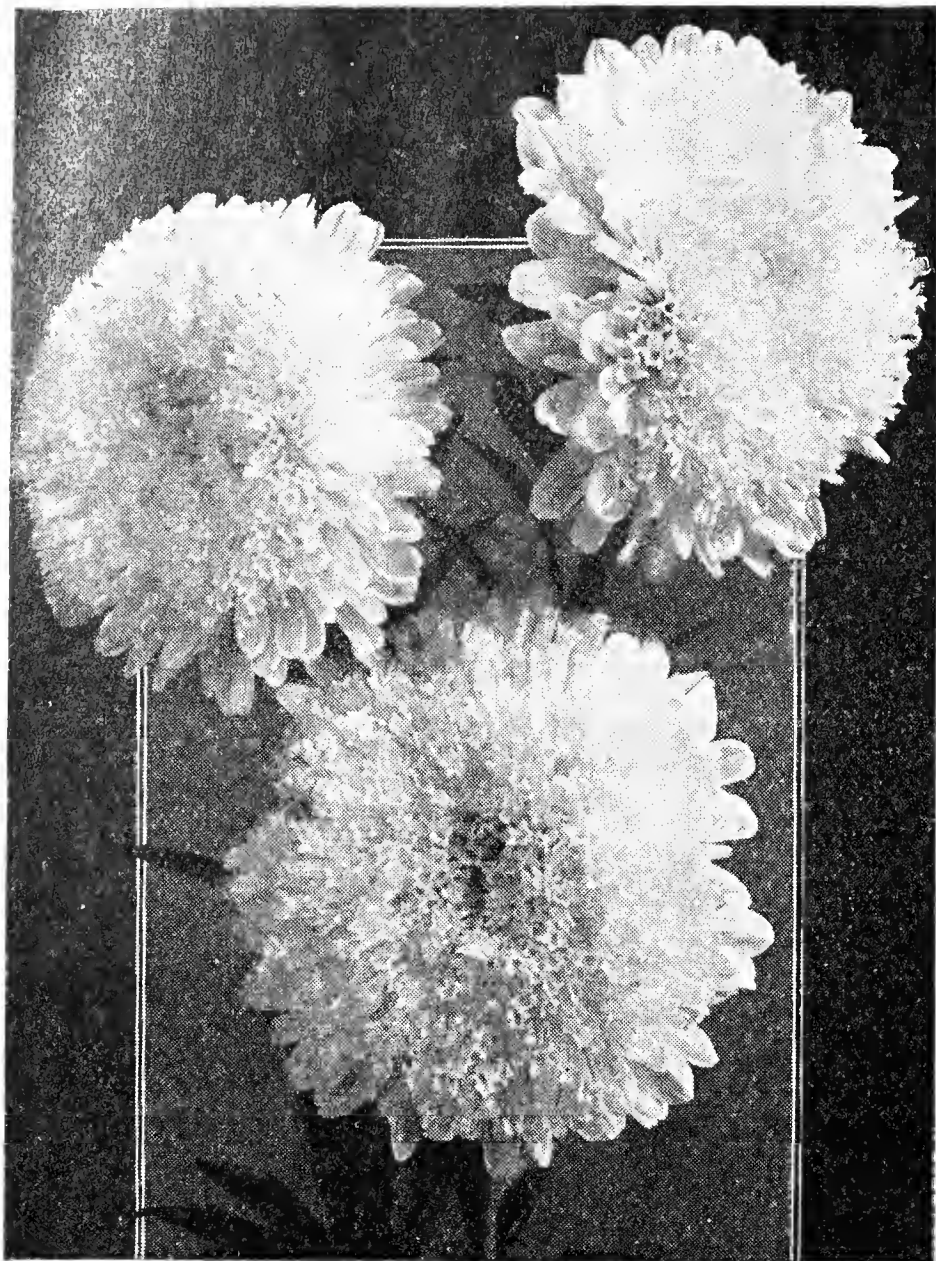

Mrs. Dr. Norton. Delicate cream and pink, deepening toward the edges; sulphur-yellow center. Flowers widely expanded.

E. J. Shaylor. Tall, very strong plants and large blooms of a beautiful deep rose-pink. This variety has recently been awarded a certificate of merit in London.

Purple Glory. Deepest velvety maroon with almost black blotches. Large, ruffled flowers on very tall, sturdy stems. A real giant in all respects.

Halley. Largely grown on account of its earliness. The flowers are beautiful salmon-pink, with creamy white blotch in throat. One of the earliest-blooming.

The above varieties: Per 100 \$2.75, per doz. 40 cts., each 5 cts.

Aster "Golden Sheaf"

Calendula "Orange Shaggy"

Our Selection of The Newer Flower Seeds

THREE PAGES OF "ALL-AMERICAN" WINNERS AND OTHER FLOWERS OF EXCEPTIONAL MERIT, NOVELTIES AND SPECIALTIES

The new flower specialties are offered because of their outstanding merits, and to promote interest in the really worth while new varieties.

ASTER—SUPER GIANT LOS ANGELES

Award of Merit by All-American Selections Committee

The first variety of this giant race. The color is a serenely pure shell pink, in flowers which are full petaled, deep and unusually large, yet artistically graceful in feathery effect of the interlacing petals. Height 2½ ft. Pkt. 15 cts., ⅛ oz. 40 cts.

ASTER—WILT RESISTANT

"Golden Sheaf"

The deepest yellow aster yet offered, free flowering and the only yellow Wilt Resistant. Large full flowers with quilled centers and outer band of broad petals. Fine for cutting. Pkt. 15 cts., ⅛ oz. 40 cts.

ASTER—SUPER GIANT EL MONTE

Special Mention 1936 All-American Selection

A large Crimson Aster, composed of daintily interlocked plume-like petals extremely large and fluffy. Early blooming, a super giant of the Ostrich Feather type. Pkt. 15 cts., ⅛ oz. 40 cts.

CALENDULA—ORANGE SHAGGY

All-American Gold Medal Winner 1935

The long deeply fringed petals overlap each other irregularly, giving the flower the effect of a shaggy Chrysanthemum. A brilliant orange that is effective in the garden or as a cut-flower. Pkt. 10 cts., ⅛ oz. 30 cts.

CALENDULA—"SUNSHINE"

All-American Gold Medal Winner

2 ft. tall with rather light and graceful foliage. Flowers are a bright golden canary yellow, with the center petals curled inward somewhat resembling Chrysanthemums. Pkt. 10 cts., ⅛ oz. 30 cts.

COREOPSIS—DOUBLE SUNBURST

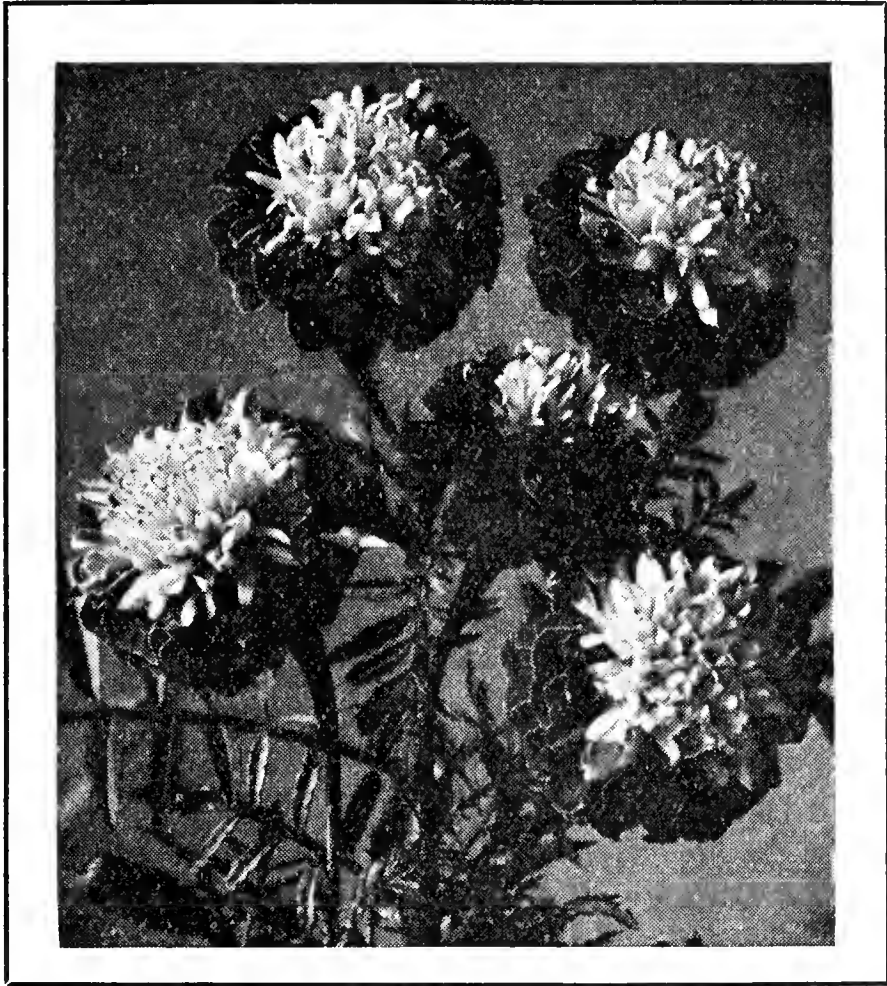

This hardy perennial always was a favorite for gardens and for cut-flowers; now this glorious double form has been preferred. Large double golden yellow flowers on long clean stems are produced all summer if not allowed to go to seed. Pkt. 10 cts., ⅛ oz. 30 cts.

ESCHSCHOLTZIA—RAMONA STRAIN

A new compact strain of California Poppies, beautifully frilled and incurved, colors range through the pinks, yellows and bronzes. Pkt. 10 cts., ⅛ oz. 25 cts.

● SPECIAL OFFER ●

Your selection from these three pages of All-American and Flower Novelties. Two 10c pkts., One 15c pkt., and One 25c pkt., all three for 50c. Two collections 90c.

Marigold, Harmony

Marigold, Dixie Sunshine

MARIGOLD—DOUBLE HARMONY (New)

Dwarf double French Marigold, charming and distinct—flowers Scabiosa-like—deep orange center, petals flanked by broad velvet dark maroon-brown guard petals—plants dwarf, compact, free blooming. Pkt. 10 cts., $\frac{1}{8}$ oz. 25 cts.

MARIGOLD—DIXIE SUNSHINE

An entirely new variety. Large ball shaped flowers, composed of many tiny five petaled florets, gracefully interlocking, golden yellow, fully double. Lacks the objectionable Marigold odor. Pkt. 10 cts., $\frac{1}{8}$ oz. 30 cts.

MARIGOLD—SUNSET GIANTS (New)

A plant type that is a new departure in Marigolds, being showy, fragrant and of exceptional size. Flowers are loosely formed, full center, colored from light yellow to deep orange. Instead of the usual Marigold odor they have a definite sweet fragrance. Pkt. 10 cts., $\frac{1}{8}$ oz. 30 cts.

MARIGOLD—YELLOW SUPREME

All-American Gold Medal 1935—A full carnation flowered Marigold of a rich creamy lemon-yellow color. A perfect companion to Guinea Gold. Flowers are produced freely and lack the usual Marigold odor. Pkt. 10 cts., $\frac{1}{8}$ oz. 30 cts.

LARKSPUR—IMPERIAL CORAL KING

Companion flower of White King. A new color in Larkspurs. Blush pink with a strong suffusion of coral which deepens and gets richer as the flower matures. Pkt. 10 cts., $\frac{1}{8}$ oz. 25 cts.

LARKSPUR—GIANT IMPERIAL WHITE KING

1937 Award of Merit

The florets are extremely large and fully double, measuring 2 in. across, evenly and closely spaced, of a clear glistening white. Cutting spikes 30 in. Plants tall, 5 ft. Pkt. 10 cts., $\frac{1}{8}$ oz. 25 cts.

NASTURTIIUM—DOUBLE GLEAM HYBRIDS

(The Gold Medal Flower)

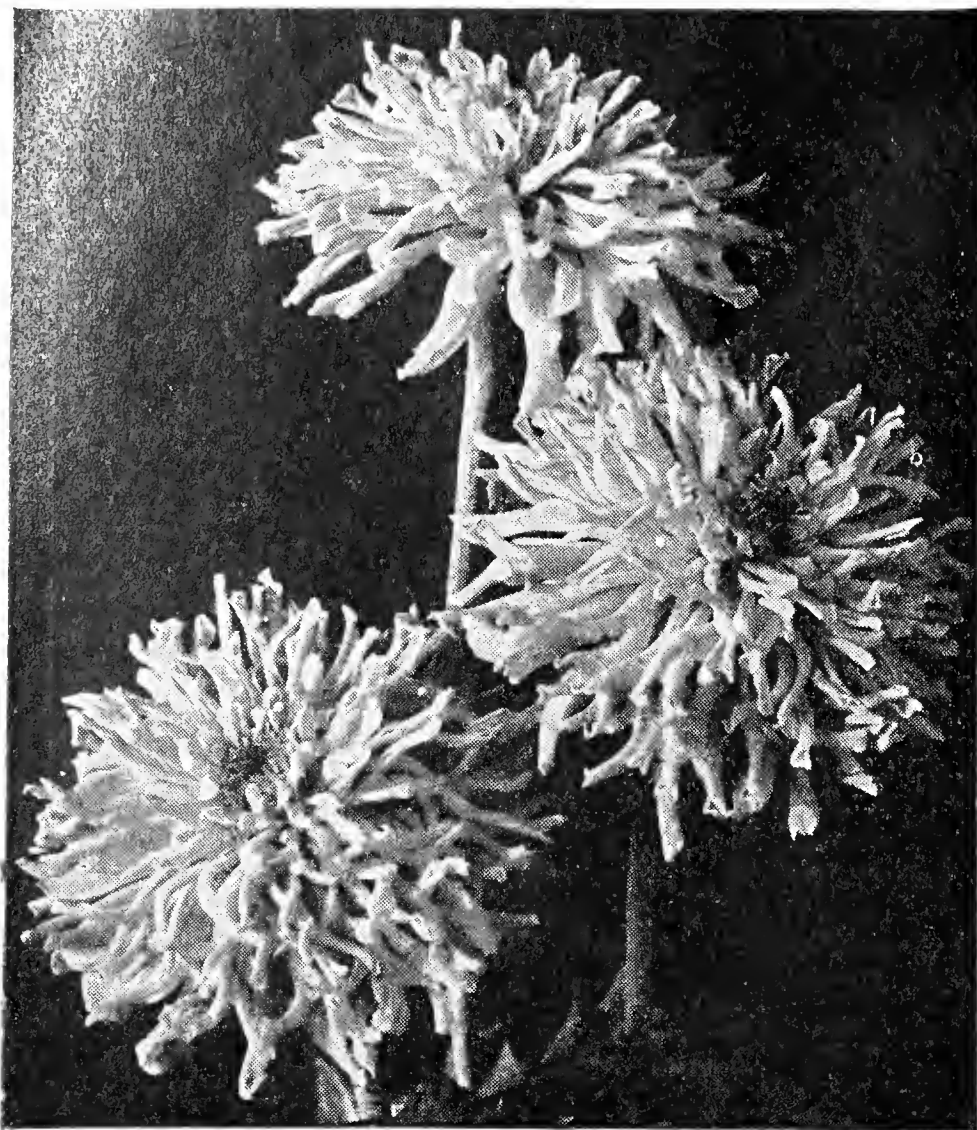

The hybrids are a collection of gorgeously colored, large, well formed double flowers of dazzling beauty. Glorious double flowers in salmon, golden yellow, orange scarlet, cerise, cream, orange and crimson on upright stiff stems, abound in profusion. Plants semi-dwarf, easily grown in the garden. Fragrant. Pkt. 10 cts., oz. 20 cts.

New Nasturtiums,
Gleam Hybrids

Larkspur, Giant
Imperial

Zinnia "Fantasy Mixed"

ZINNIA—FANTASY MIXED

The rounded flowers are composed of a mass of shaggy ray-like petals which give a delicate and refined appearance to the medium sized double flowers. Large enough to satisfy the desire for mass of color, yet small enough to lend themselves gracefully to flower arrangement. The color range includes red, orange, pink, yellow and cream. Pkt. 10 cts., $\frac{1}{8}$ oz. 25 cts.

**ZINNIA—CROWN O' GOLD
DESERT GOLD (New)**

A bicolor Zinnia comprising the deep and lighter shades of gold, each petal overlaid at the base with a deeper golden yellow. The flowers are large, double, well formed on generous stems. Plant 3 ft. tall. Pkt. 10 cts., $\frac{1}{8}$ oz. 30 cts.

ZINNIA—SCABIOSA FLOWERED (Annual)

Really a curiosity, the outer rows of petals are long and large, while the inner rows are short and tubular, giving the flowers the appearance of a Scabiosa. The plants grow three feet in height and are crowded with flowers. Pkt. 10 cts., $\frac{1}{8}$ oz. 25 cts.

ZINNIA—EARLY WONDER—GYPSY (New)

A dwarf early bloomer, 30 to 40 days, free blooming, deep rich burnished orange, medium sized flowers on long wiry stems, a good cut-flower. Desirable variety. Pkt. 10 cts., $\frac{1}{8}$ oz. 25 cts.

ZINNIA—FANTASY STAR DUST (New)

1937 Award of Merit

The shaggy ray-like petals are entirely different. A delicate graceful bloom of imposing appearance of a rich golden yellow. The plants are 2½ ft. and early blooming. Pkt. 10 cts., $\frac{1}{8}$ oz. 25 cts.

VERBENA—CRIMSON GLOW (New)

The flowers are pure, self-colored glowing crimson, of good size, freely produced on plants which are semi-compact. Crimson Glow is a vivid Verbena and rounds out the color shades of the Verbenas. Pkt. 10 cts., $\frac{1}{8}$ oz. 30 cts.

Rust Proof Antirrhinums

RUST PROOF ANTIRRHINUMS (Snapdragons)

Rust Proof Snapdragons have been subjected to the most rigid tests on rust infested grounds and have produced over 75% of the plants absolutely immune. They are free bloomers having long spikes full of large beautiful flowers. Mixed colors. Pkt. 10 cts., $\frac{1}{8}$ oz. 30 cts.

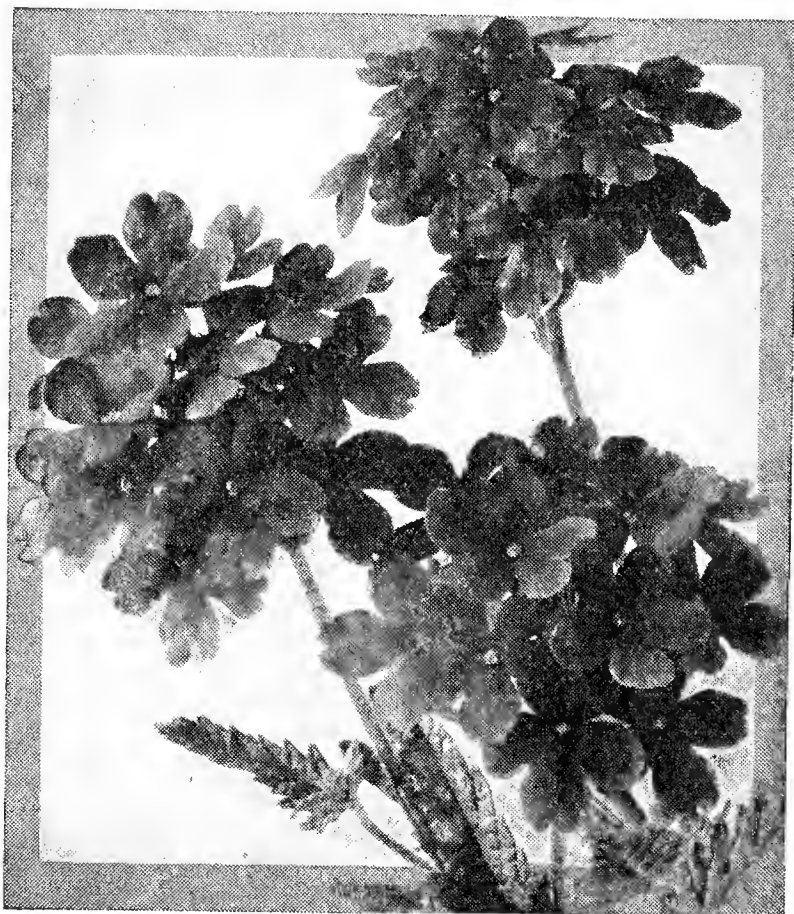

PETUNIA—DAINTY LADY (New)

American and European Award Winner

A new yellow single fringed Petunia, medium sized, free bloomer, of unusual merit. The plants are upright, semi-dwarf, excellent for border, bedding, window boxes and cut-flowers. Pkt. 35 cts.

**PETUNIA—RUFFLED MARTHA
WASHINGTON**

All-American Award of Merit 1935. This neat dwarf plant is studded with lovely frilled blooms which are bluish lavender at the center and shade to a bluish white at the edges. Strongly veined in the throat. Comes 100% true from seed. Pkt. 25 cts.

Verbena Crimson Glow

Asters

The most noted advance in Aster growing is the development of a new Wilt Resistant Strain, assuring amateur growers as well as florists beautiful blooms. The Asters listed below, with few exceptions, are bred for resistance to the Fuseriam Wilt and are absolutely immune to it.

NEW SUPER GIANT LOS ANGELES ASTER

A new race of Asters which promises to supersede all other strains for size and cut-flower use. Received Award of Merit, 1934 All-American selections. Pkt. 15 cts., $\frac{1}{8}$ oz. 40 cts.

IMP. NEW GIANT CALIFORNIA SUNSHINE ASTER

The flowers have long, wavy petals and a cushion center of small feathery quills of a different shade. Plants sturdy and strong, with long, stiff flower-stems. Mixed colors. Pkt. 15 cts., $\frac{1}{8}$ oz. 40 cts.

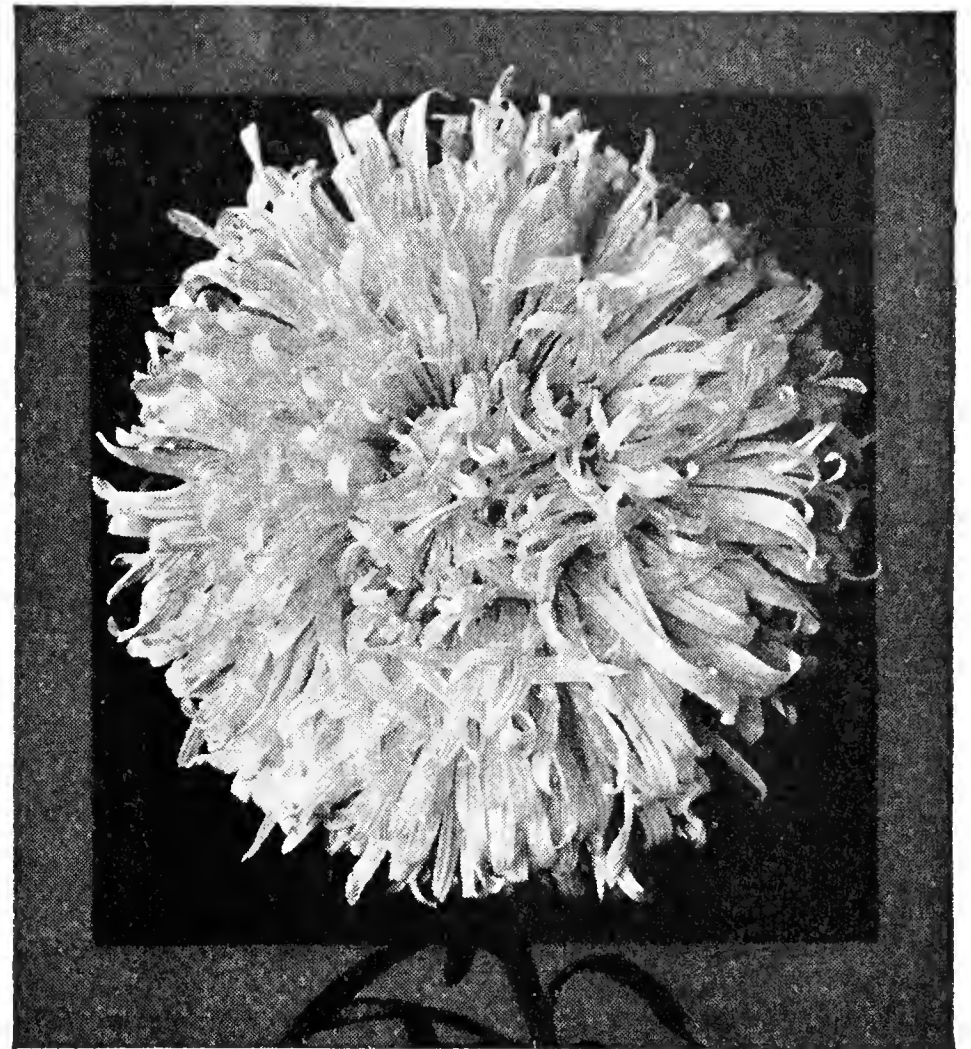

AMERICAN BEAUTY ASTER

We have noted with pleasure the steadily increasing popularity of the Beauty type Aster as a florists' flower. The colors are good, and their keeping qualities unsurpassed. They are excellent shippers and are rapidly superseding American Branching for general use.

The Early Beauties flower with the Crego and American Branching types, from early July until frost. The plants are from 2½-3 feet, with long, stout stems bearing large well formed flowers. White, Crimson, Peach Blossom, Dark Lavender, Purple, Mixed. Pkt. 10 cts., $\frac{1}{8}$ oz. 25 cts.

ASTER—SUPER GIANT EL MONTE (New)

A large crimson Aster, composed of daintily interlocked plume-like petals extremely large and fluffy. Early blooming, a super giant of the Ostrich Feather type. Pkt. 15 cts., $\frac{1}{8}$ oz. 40 cts.

Los Angeles Aster

GOLDEN SHEAF

The deepest yellow aster yet offered, free flowering and Wilt Resistant. Large full flowers with quilled centers; outer band of broad petals. Fine for cutting. Pkt. 15 cts., $\frac{1}{8}$ oz. 40 cts.

GIANT CREGO OR COMET ASTER

The twisted and curled petals give the flower the appearance of a huge, flat chrysanthemum. Flowers often 5 inches in diameter. The strong, erect stems average 20 to 24 inches in length. White, Shell-Pink, Crimson, Lavender, Purple, Mixed, all colors. Pkt. 10 cts., $\frac{1}{8}$ oz. 25 cts.

IMPROVED GIANTS OF CALIFORNIA

Curled and Interlaced

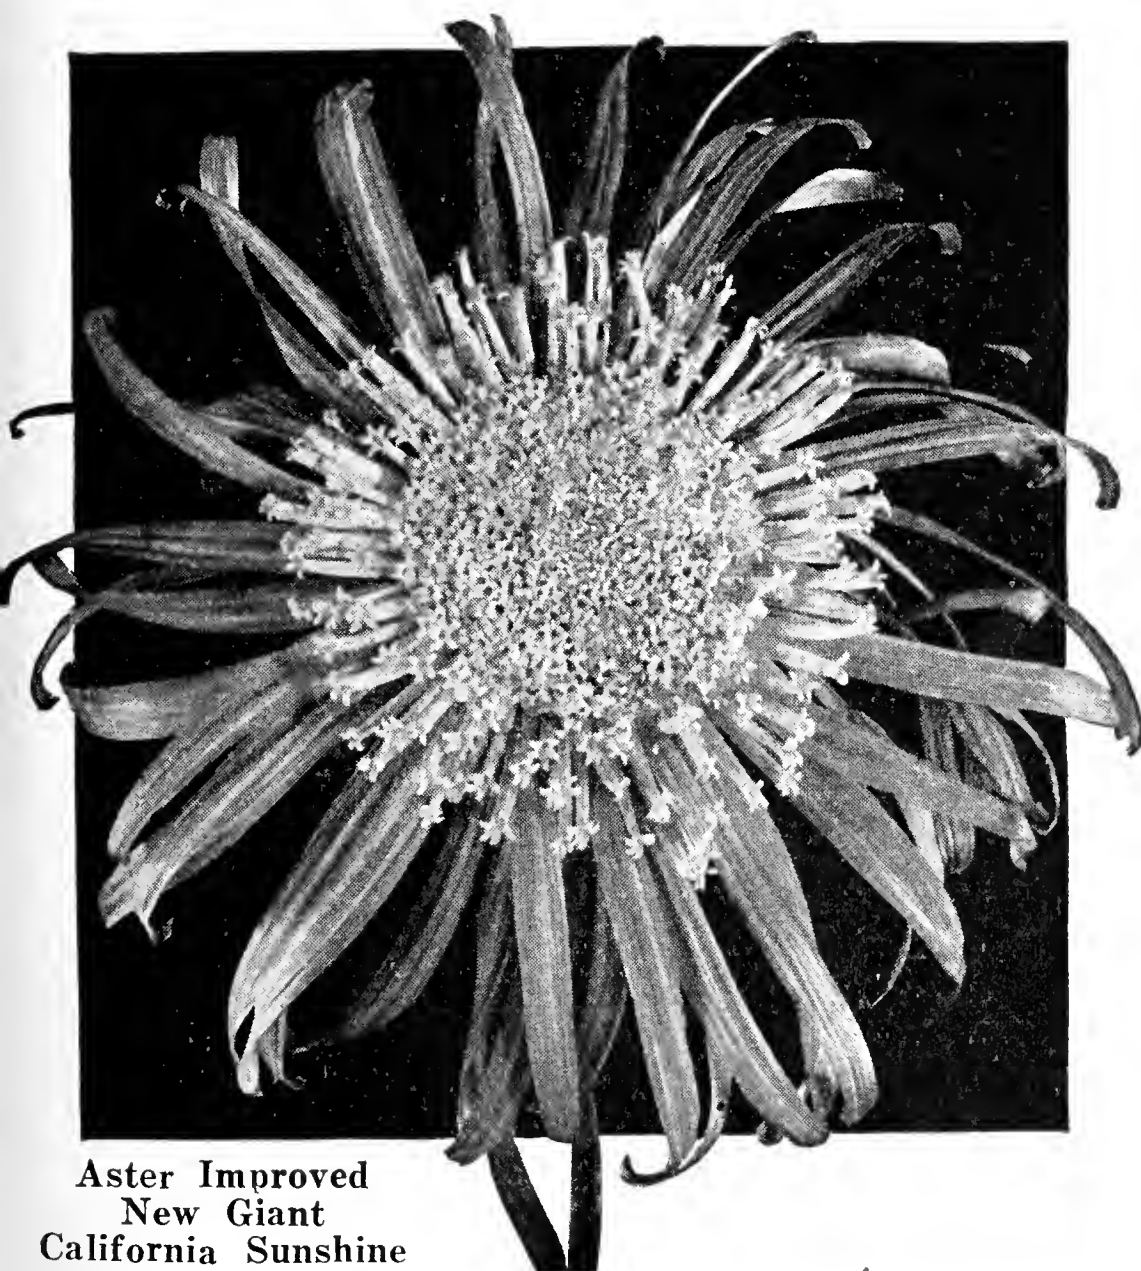

Characterized by the well-known Crego or Comet type of flower, combined with the Beauty Asters long, non-lateral branching stems and sturdy habit of growth. This type of Aster stands at the head of the list, not only for florists' use, but also for private gardens where quality is appreciated. The large flowers are borne on long stems. The plants grow from 2½-3 feet, blooming from early July until frost. Finest mixed. Pkts. 10 cts., $\frac{1}{8}$ oz. 40 cts.

AMERICAN BRANCHING ASTER

An Aster selected for its large double chrysanthemum-like blooms borne on long stiff stems. Plants grow from 2½ to 3 ft. high. Mixed colors. Pkt. 10 cts., $\frac{1}{8}$ oz. 35 cts.

AGROSTEMMA—ROSE CAMPION MULLEIN

Coronaria. HP. An attractive free-flowering hardy perennial of easy culture, producing glowing crimson flowers like a single pink, and silvery white foliage. Blooms the first season. Fine for cutting. Height, 2 feet. Pkt. 10 cts., $\frac{1}{8}$ oz. 20 cts.

Aster Improved
New Giant
California Sunshine

African Daisy

AFRICAN GOLDEN DAISY

An extremely showy annual Daisy from South Africa. The bushy plant grows 12 inches high, and the flowers, which are 2½ inches across, are a rich glossy orange-yellow, with dark disc and halo. Blooms continuously. Pkt. 10 cts., ⅛ oz. 25 cts.

AGERATUM—FLOSS FLOWER

Blue Perfection. Valued for its pretty, deep lavender-blue flowers which are borne in great profusion. Height, 1 foot. Pkt. 10 cts., ¼ oz. 30 cts.

Blue Cap. A new miniature ageratum of compact growth literally covered with a continuous bloom. 6 inches. Pkt. 10 cts., ⅛ oz. 40 cts.

Alyssum

ANNUAL ALYSSUM

White Carpet. Dwarf, compact plants, densely covered with large, pure white flowers. Height, 4 inches. Pkt. 5 cts., ¼ oz. 20 cts., oz. 60 cts.

Sweet. The popular old-fashioned sort, the best for broad edges and vases; pure white. Height, 6 inches. Pkt. 5 cts., ¼ oz. 15 cts., oz. 50 cts.

HARDY ALYSSUM—BASKET OF GOLD (HP)

Saxatile compactum. Golden Tuft. A useful little border and rockery plant growing not over 12 inches high, covered with enveloping flat clusters of bright golden yellow flowers early in summer. Pkt. 10 cts., ¼ oz. 25 cts., oz. 70 cts.

ARABIS—ROCK CRESS (HP)

Alpina. A hardy perennial and one of the earliest and prettiest spring flowers. The spreading tufts are covered with a sheet of pure white flowers as soon as the snow disappears. Unequalled for rockeries or edging; withstands the drought and is always neat. Height, 6 inches. Pkt. 10 cts., ¼ oz. 25 cts., oz. 70 cts.

ANCHUSA

Blue Bird. A neat variety for the border with a profusion of deep indigo blue flowers. An improved variety. 1½ feet. Pkt. 5 cts., ⅛ oz. 25 cts.

Capensis. Two foot high plants covered with bright blue Forget-Me-Not flowers. A profuse bloomer. Pkt. 5 cts., ⅛ oz. 25 cts.

BACHELOR BUTTONS OR CORNFLOWER

The new double Cornflowers, or Bachelor Buttons, make most excellent flowers for both the bouquet and garden. The flowers are double, of good clear colors, and with long, graceful stems for cutting. Annual.

Double Blue. Cornflower blue. Pkt. 10 cts., ¼ oz. 25 cts., oz. 75 cts.

Double Rose. A beautiful deep pink, flowering freely in almost any situation. Pkt. 10 cts., ¼ oz. 25 cts., oz. 75 cts.

Double, Mixed. Pkt. 5 cts., ¼ oz. 20 cts., oz. 60 cts.

AUBRETIA—RAINBOW ROCK CRESS (HP)

Pretty, dwarf-growing plants suitable for the rockery or for the edge of the border. They form masses of silvery green foliage and sheets of various colored flowers in spring and early summer. Mixed. Pkt. 10 cts., ⅛ oz. 45 cts., ¼ oz. 80 cts.

BALSAM—LADY'S SLIPPER

An old and favorite garden flower, producing its gorgeous masses of beautiful, brilliantly colored, double flowers in the greatest profusion; of easy culture. Annual. Choice Double Mixed Colors. Pkt. 10 cts., ¼ oz. 25 cts., oz. 75 cts.

BLANKET FLOWER—GAILLARDIA

The heads of star-shaped tufted flowers are greatly admired for their rich blending of red, yellow, orange. Height, ½ foot.

Indian Chief. An elegant, showy single-flowering annual variety with metallic red petals, surrounding a mahogany brown center. Pkt. 10 cts., ¼ oz. 30 cts., oz. 90 cts.

The Dazzler. Hardy Perennial. Pkt. 10 cts., ¼ oz. 30 cts.

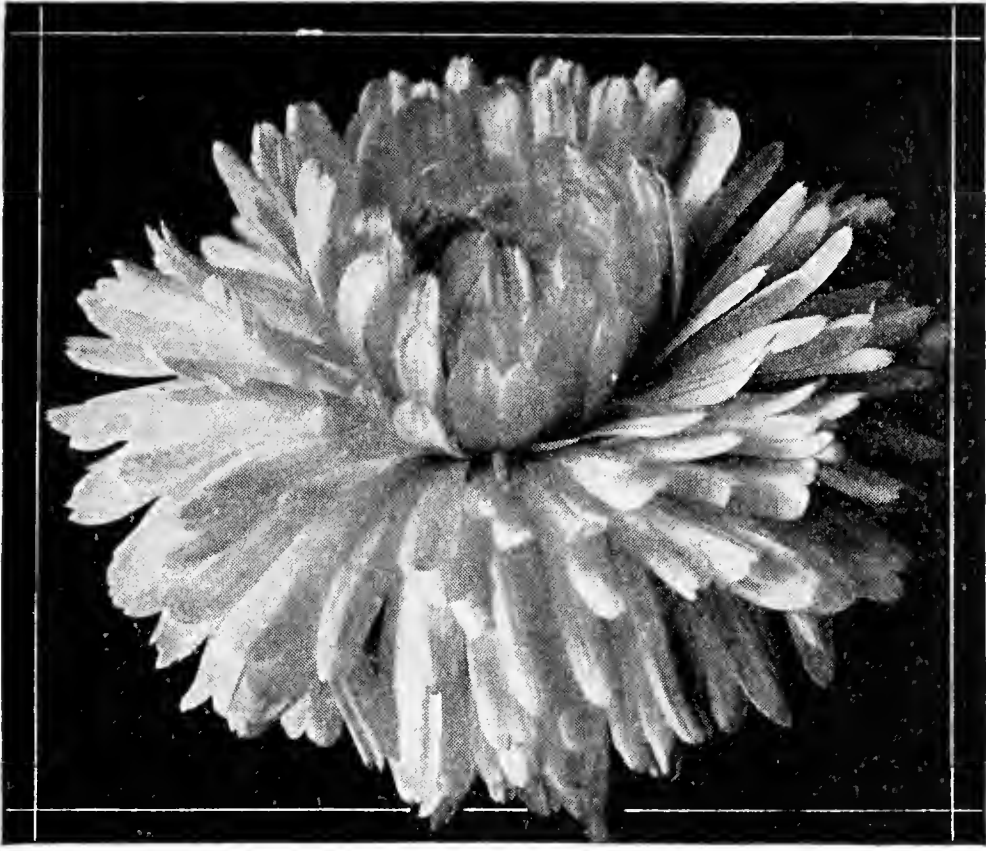

Burgandy—New Coppery Scarlet. HP. Pkt. 10 cts., ⅛ oz. 25 cts.

BRACHYCOME—SWAN RIVER DAISY

Mixed. Annual. Small blue, rose and white Daisy-like blooms nearly all summer. Fine for edgings, rock gardens or pots. Very free-flowering. 1 ft. Pkt. 10 cts., ⅛ oz. 20 cts.

Gaillardia, Indian Chief

Calendula, Sunshine

Canterbury Bells

Calendula Pot Marigold

Sunshine or Chrysantha. Entirely new Calendula. Tall stems, large double butter-cup yellow flowers with long wide petals drooping in the same manner as a chrysanthemum. Annual. Pkt. 5 cts., $\frac{1}{4}$ oz. 30 cts., oz. 90 cts.

Campfire (Sensation). The very double, brilliant orange flowers have a delicate crimson or scarlet sheen. Their characteristic flatness accentuates their unusual size. Pkt. 5 cts., $\frac{1}{4}$ oz. 30 cts., oz. 90 cts.

Orange King. An extra-fine strain of this splendid, double rich orange-red variety, producing flowers over 3 inches in diameter. Pkt. 5 cts., $\frac{1}{4}$ oz. 25 cts., oz. 75 cts.

Radio. Deep Orange, quilled petals, long stems. Pkt. 5 cts., $\frac{1}{4}$ oz. 25 cts., oz. 75 cts.

Orange Shaggy. Pkt. 5 cts., $\frac{1}{4}$ oz. 25 cts., oz. 75 cts.

Mixed, All Double Sorts. Pkt. 5 cts., $\frac{1}{4}$ oz. 20 cts., oz. 60 cts.

CANARY BIRD FLOWER

Canary Bird Flower. Annual. Very graceful, dainty climber with finely fringed, Nasturtium-like flowers of rich canary yellow, which at a distance appear like tiny canary birds with their wings half expanded. Prefers semi-shade and fairly moist soil. 10 to 15 ft. Pkt. 10 cts., $\frac{1}{4}$ oz. 20 cts.

ANNUAL CALLIOPSIS

Tall, Mixed. Contains large and small flowered varieties in many bright colors. Height, 2 to 3 feet. Pkt. 5 cts., $\frac{1}{4}$ oz. 20 cts.

Dwarf, Mixed. Yellow, orange, and mahogany, and tiger-flowered plants of dwarf growth. Height, 15 in. Pkt. 5 cts., $\frac{1}{4}$ oz. 20 cts.

CANDYTUFT

A very hardy, easily grown little annual that is a universal favorite for beds and masses. Successive sowings should be made during the summer, while the last sowing in the autumn will produce flowers early in the spring. Height, 1 foot. One packet will sow 15 feet.

Giant Hyacinth-flowered or Improved Empress. The finest of all white varieties. The long, heavy spikes of large flowers resembles a white hyacinth. Pkt. 10 cts., $\frac{1}{4}$ oz. 20 cts., oz. 60 cts.

Mixed Colors. A special mixture we make up of a number of separate colors, assuring a well-balanced assortment. Pkt. 5 cts., $\frac{1}{4}$ oz. 15 cts., oz. 50 cts.

HARDY CANDY TUFT (Iberis) HP

The Iberis or Candytuft is very desirable for the hardy perennial border, growing 1 foot high. **Mixed Colors.** Pkt. 10 cts., $\frac{1}{4}$ oz. 20 cts., oz. 60 cts.

CANTERBURY BELLS HP

Campanula calycanthem. The true Cup-and-Saucer Canterbury Bells. White, Pink, Blue. Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts., oz. \$1.25.

Campanula medium (Single Canterbury Bells). **Mixed.** The old-fashioned sorts, with beautiful, large, bell-shaped blossoms. Height, 2 feet. Pkt. 10 cts., $\frac{1}{4}$ oz. 25 cts., oz. 80 cts.

Campanula medium (Double Canterbury Bell). Lovely double bells on tall stems. Height, 2 feet. **Colors are mixed.** Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

CARDINAL CLIMBER

A brilliant and beautiful climber, growing rapidly and attaining a height of 30 feet. Foliage fern-like; flowers cardinal-red, $1\frac{1}{2}$ inches across. Soaking the seed or notching the seed-coat will hasten germination. Pkt. 10 cts., $\frac{1}{4}$ oz. 25 cts.

CARNATION

Marguerite. Large double flowers of beautiful colors. An improved strain of Pinks. Very fragrant. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

Chabaud's HP. Large, double, clove-scented blooms, 2 in. and more across, may be had in 5 or 6 months from sowing the seed. Flowers are borne on wiry stems 15-18 in. long. Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts., oz. \$1.25.

CASTOR-OIL BEAN—RICINUS

Plants of stately growth and picturesque foliage, brilliant colored fruit, producing an oriental effect. Height, 8 to 12 feet. Pkt. 5 cts., oz. 30 cts.

SILVERY CERASTIUM HP

Tomentosum. (Snow-in-Summer). Silvery white foliage; abundance of snow-white flowers. 4 inches high. Perennial. Pkt. 5 cts., $\frac{1}{4}$ oz. 35 cts.

CHRYSANTHEMUM

Single Annual. Blooming profusely from early summer until frost, they are most effective and showy. The bright-colored daisy-like flowers are useful for cutting. Height, 1 to $1\frac{1}{2}$ feet. Pkt. 5 cts., oz. 60 cts.

CHINESE LANTERN PLANT

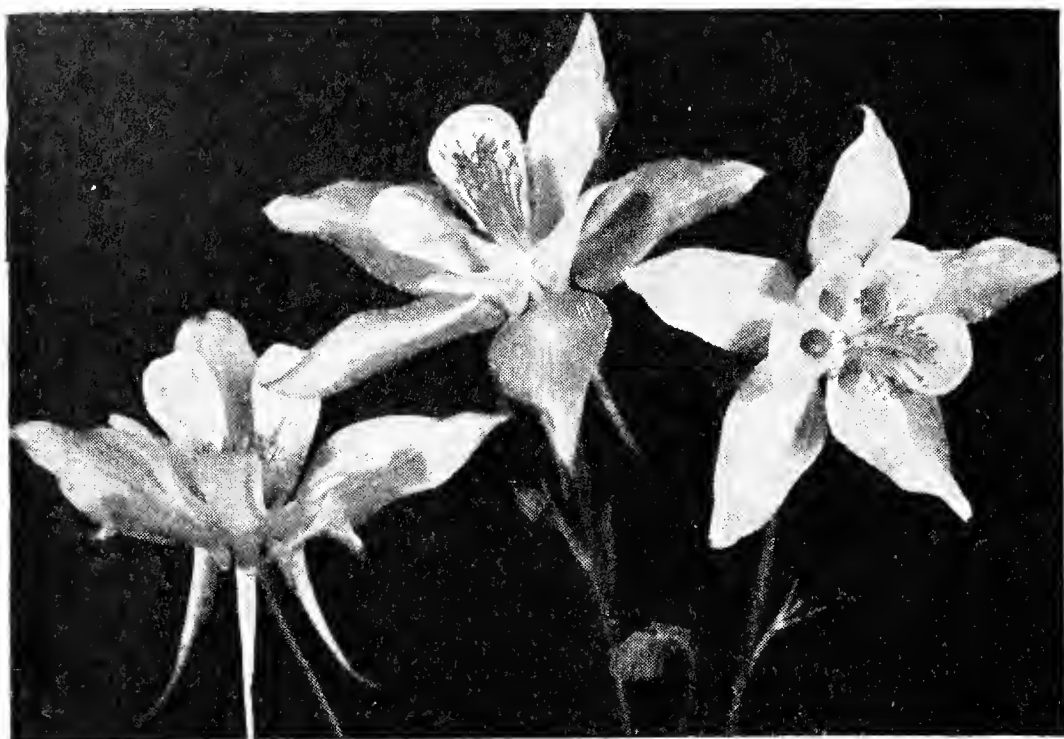

(Physalis Francheti) HP

A very highly interesting hardy perennial plant growing 2 feet high, covered with bright orange-scarlet fruits resembling Chinese lanterns. These fruits may be cut and dried for winter bouquets. Pkt. 10 cts., 1/4 oz. 20 cts.

COCKSCOMB OR CELOSIA

Glasgow Prize. Immense, showy, dark crimson combs. Height, 1 foot. Pkt. 10 cts., 1/4 oz. 40 cts.

Pride of Castle Gould. Enormous plumes which are attractively curled in much the same way as ostrich feathers to which they could be likened. Colors include brilliant shades of pink, orange, and crimson. Annual. Pkt. 10 cts., 1/4 oz. 40 cts.

Columbine, Long Spurred Mixed

COLUMBINE—AQUILEGIA HP

One of the most popular perennials, easy of cultivation. Very desirable for herbaceous borders and groups among shrubbery.

Long Spurred Finest Mixed. Superb single sorts unsurpassed for beauty and size of flower and with remarkably long spurs. Pkt. 10 cts., 1/4 oz. 45 cts., oz. \$1.50.

HARDY COREOPSIS HP

Double Sunburst. Beautiful hardy perennials that grow 15 to 18 inches high and produce their double golden yellow flowers in great profusion. Easily grown from seed, flowering the first year if sown early. Pkt. 10 cts., 1/4 oz. 30 cts.

COBAEA

Cobaea Scandens. Rapid growing climber; bell-shaped, rich rosy purple blooms. Unsurpassed for shade on porches or trellises. 10 to 20 ft. Pkt. 10 cts., 1/4 oz. 25 cts.

Cosmos

Early Klondyke Orange Flare. A new gorgeous orange yellow flower with foliage coarsely lacinated. Blooms in 3 months. Pkt. 10 cts., 1/4 oz. 30 cts., oz. \$1.00.

Double-Crested Mixed. A new and distinct type of early, large-flowering Cosmos, the center being full double, giving a crested effect. A well-balanced mixture. Pkt. 10 cts., 1/8 oz. 40 cts.

Extra-Early Giant, Mixed. Seed sown early will produce plants covered with fine flowers two months before the late flowering kinds. Pkt. 5 cts., 1/4 oz. 20 cts., oz. 60 cts.

CYNOGLOSSUM FORGET-ME-NOT

Amiable Chinese. An annual of easy culture, forming strong bushy plants 1 1/2 feet high and producing sprays of intense blue and white forget-me-not flowers throughout summer. Sow outdoors in May. Pkt. 10 cts., 1/4 oz. 20 cts., oz. 60 cts.

Delphinium

(Perennial Larkspur)

Magnificent new shades and varieties of this old time favorite have been developed that brings new joy to the flower lovers. Tall stately Hollyhock flowering kinds for the backgrounds and shorter varieties for borders.

Wrexham Hollyhock Strain. A fancy blending of light and dark shades that is unsurpassed in beauty. Pkt. 10 cts., 1/8 oz. 40 cts., 1/4 oz. 75 cts.

Belladonna. This is one of the most free and continuous blooming varieties. Immense spikes of lovely pale blue. Height, 4 feet. Pkt. 10 cts., 1/8 oz. 25 cts., 1/4 oz. 40 cts.

Bellamosa. A very dark blue variety of particular value for deliberate dark blue mass effect, and a striking contrast in connection with the azure shade of belladonna. Pkt. 10 cts., 1/8 oz. 25 cts., 1/4 oz. 40 cts.

DAHLIA HP

Unwins Dwarf Giant Hybrids. Easily grown from seed. Plants 20 inches high of compact growth, flowers single and semi-double of brilliant hues. Blooms freely until frost. Pkt. 10 cts., 1/8 oz. 30 cts., 1/4 oz. 50 cts.

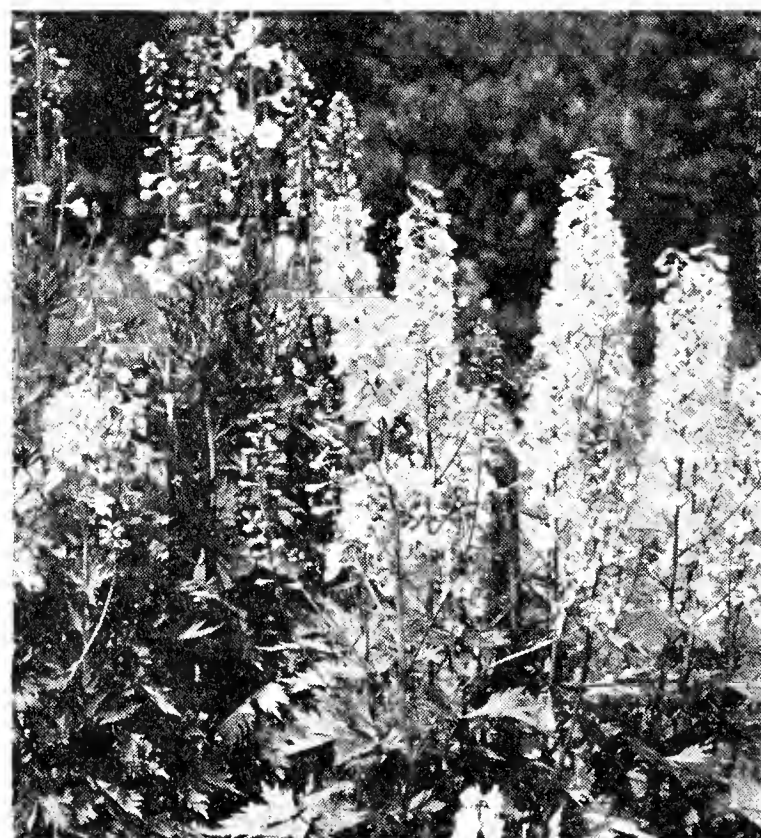

DIANTHUS—PINKS

A most satisfactory class of flowers, easily raised from seed, which are in constant bloom the entire season; fragrant.

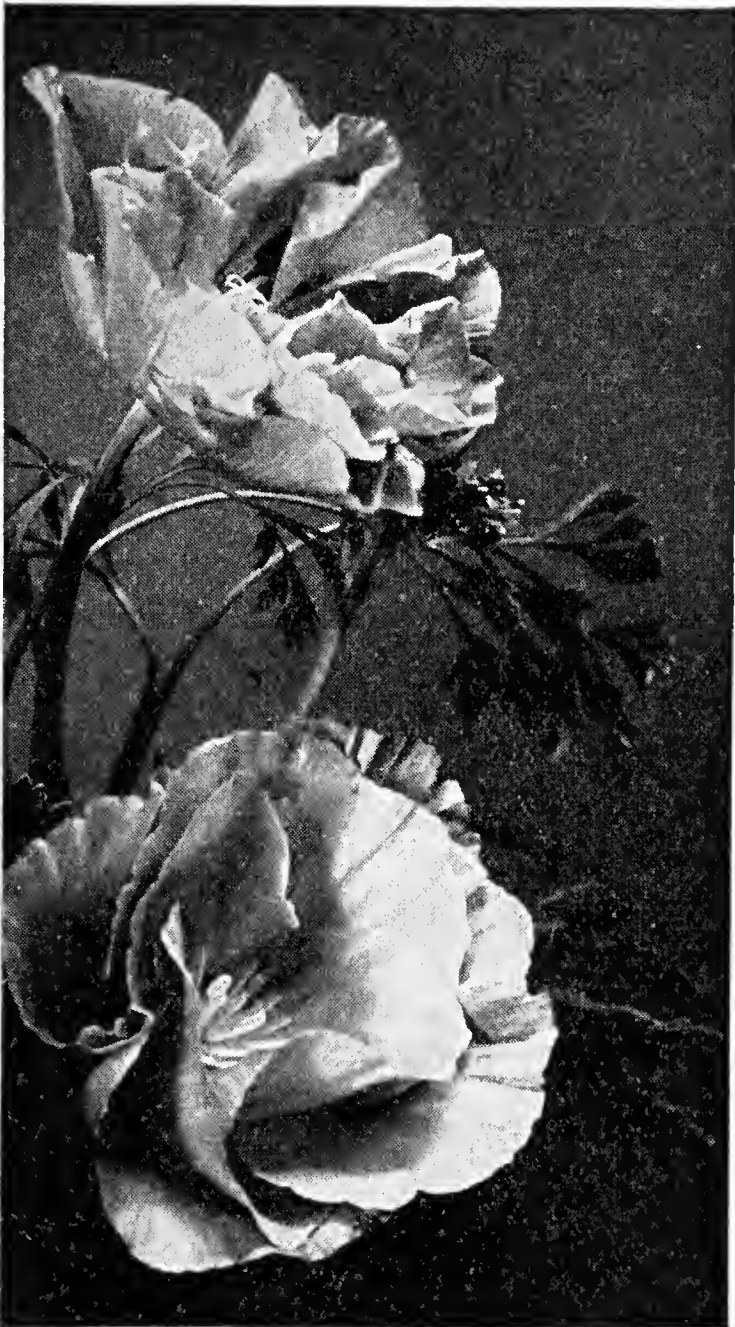

Heddewigi. (Single Japan Pink). Finest single-flowered. Pkt. 10 cts., 1/4 oz. 20 cts., oz. 60 cts.

Heddewigi fl. pl. (Double Japan Pink). Colors varying from the richest crimson to the most delicate rose. Mixed. Pkt. 10 cts., 1/4 oz. 20 cts., oz. 60 cts.

Plumarius, Perennial. Mixed. Double and semi-double blooms with spicy fragrance. Known everywhere. 18 in. Pkt. 10 cts., 1/4 oz. 30 cts., oz. \$1.00.

Delphinium

Eschscholtzia, Ramona Strain

ESCHSCHOLTZIA—CALIFORNIA POPPY

Eschscholtzias are among our most beautiful and popular annuals, being of the easiest culture. Sow the seed where the plants are to remain. Height, 1 foot.

Ramona Strain. A new compact strain of California Poppies beautifully frilled and incurved, colors range through the pinks, yellows and bronzes. Pkt. 10 cts., $\frac{1}{4}$ oz. 45 cts., oz. \$1.50.

New Hybrid, Mixed. This mixture has been saved from a number of sorts of wonderful colorings, including old-gold, fire-red, cream, and many other rich and unusual tones. Pkt. 10 cts., $\frac{1}{4}$ oz. 45 cts., oz. \$1.50.

Aurantiaca. Rich golden orange. This is the true California Poppy that the tourists rave so much about. It is, perhaps, the most desirable where one color is wanted. Pkt. 10 cts., $\frac{1}{4}$ oz. 20 cts., oz. 60 cts.

ENGLISH DAISY (Bellis perennis) HHP

Dwarf, early spring-blooming favorites; very double. Fine for borders, requiring partial shade in hot weather. Height, 4 inches. Finest Mixed. Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts., oz. \$1.25.

FORGET-ME-NOT (Myosotis) HHP

Beautiful little half-hardy perennials with star-like flowers. Bloom the first year from seed. Succeeds best in a shady situation. Height, 6 inches. Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts., oz. \$1.25.

FOUR O'CLOCK (Marvel of Peru)

A well-known favorite annual of bushy habit bearing, during the season, hundreds of white, yellow, crimson, and violet flowers. Height, 2 feet. Fine Mixed. Pkt. 5 cts., oz. 25 cts.

FOXGLOVE—DIGITALIS HP

The Shirley. New large bell-shaped flowers in rose and purple with mahogany-brown spots in the throat, borne on tall heavy spikes 3 feet long. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

Gloxiniaflora Mixed. Handsome perennial plant of stately growth and varied beautiful clear colored bell-shaped flowers. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

GEUM HP

Mrs. Bradshaw. An attractive perennial, growing 2 feet tall and bearing double orange-scarlet flowers during summer. Pkt. 10 cts., $\frac{1}{4}$ oz. 45 cts., oz. \$1.50.

GODETIA

Double Azalia Flowered. Mixed annual. Showy garden annuals of compact growth, about 1 foot high. Pkt. 10 cts., $\frac{1}{8}$ oz. 20 cts.

GOURDS

Ornamental Varieties, Mixed. Includes a great number of interesting and diverse forms. Pkt. 10 cts., oz. 25 cts.

GYPSOPHILA—BABY'S BREATH

Annuals and early-flowering perennials, bearing graceful panicles of small flowers that are elegant for cutting and for bunching with other flowers.

Elegans alba grandiflora. (Annual). An improved form of the annual Baby's Breath. Pure white, large flowers. Pkt. 5 cts., oz. 40 cts.

Rosea. Annual, Rose-colored flowers. Pkt. 5 cts., oz. 40 cts.

Paniculata HP. White single flowers, fine for bouquets; hardy perennials. Blooms first year if sown early. Pkt. 10 cts., $\frac{1}{4}$ oz. 20 cts., oz. 60 cts.

Paniculata fl. pl., Double HP. Small, double white bloom in much branched panicles during June and July. Invaluable for cutting. 3 ft. Pkt. 15 cts., $\frac{1}{8}$ oz. 50 cts.

HELIOTROPE—ANNUAL

Everyone loves the delightful fragrance and beauty of Heliotrope. Excellent bedding plants in the summer; desirable pot plants during the winter. Succeeds in ordinary soil and full sun. Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts., oz. \$1.25.

HELIANTHEMUM—SUN ROSE HP

Mutabile. An excellent, dwarf, creeping perennial for dry soils. Flowers in rose, pink, and white during May and June. Hardy and free blooming. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

HUNNEMANNIA

Giant Yellow Tulip Poppy, Santa Barbara Poppy or Bush Eschscholtzia

Sunlite. (Annual). Gorgeous, semi-double clear canary yellow blooms with a row of short petals on the outside, instead of the inside of the cup. Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts., oz. \$1.25.

HOLLYHOCK HP

Double Mixed. Hardy perennial plants; excellent for planting among shrubbery or forming a background for other flowers. Height, 6 to 7 feet. Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts., oz. \$1.25.

Single Mixed. Probably the most showy of the many good old-fashioned flowers. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

HIBISCUS—MALLOW HP

Mixed. Showy shrub-like plants bearing profusely white, pink and red flowers of enormous size during August and September. Easy to grow. 5 to 6 ft. Pkt. 10 cts., ¼ oz. 30 cts., oz. \$1.00.

HONESTY—LUNARIA

(Moonwort; Satin Flower)

Biennis. Hardy biennials, but grown as annuals. Admired for their silvery seed-pouches which are used for house ornaments. Height, 3 feet. Pkt. 10 cts., ¼ oz. 40 cts., oz. \$1.25.

ICE-PLANT (Mesembryanthemum) Annual

Crystallinum. The leaves appear as if covered with a coating of thin ice. This annual plant is grown as a ground cover and is particularly suited for the rock-garden or hanging baskets. The small, inconspicuous flowers are either white or light pink. Pkt. 10 cts., ¼ oz. 30 cts.

JOB'S TEARS Annual

Gray ornamental seeds. Often strung as beads. 2 to 3 feet. Pkt. 10 cts., oz. 25 cts.

NEW ANNUAL LARKSPURS

Giant Imperial Blue Bell. Deeper than sky blue. Long spikes of double flowers carried on stems 4 to 5 feet long. Pkt. 10 cts., ¼ oz. 30 cts., oz. \$1.00.

Stock Flowered Rosamond. Deep rose double flowers on long spikes. Pkt. 10 cts., ¼ oz. 30 cts., oz. \$1.00.

Dark Blue. Deep lovely blue flowers. Pkt. 10 cts., ¼ oz. 25 cts., oz. 75 cts.

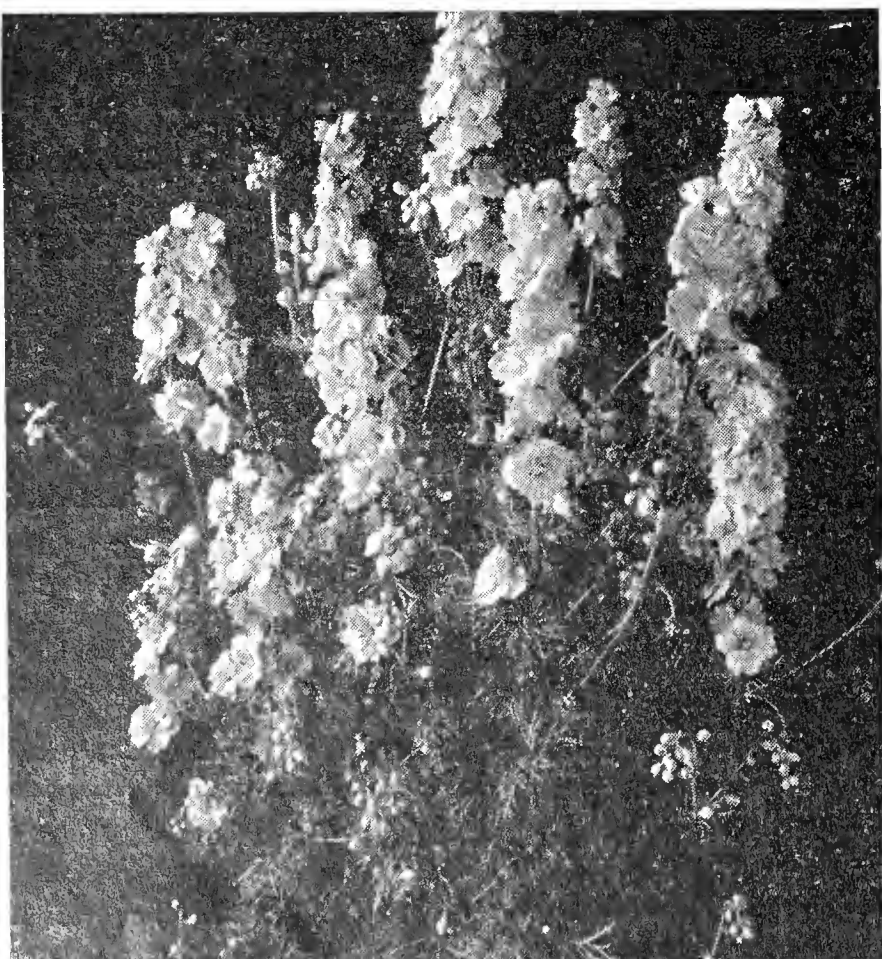

Annual Larkspur, Mixed Choice Colors. Fine for cutting. Pkt. 10 cts., ¼ oz. 30 cts., oz. \$1.00.

Empress Rose. A rich rhodonite-pink changing to her-mosa-pink with no trace of mauve. This magnificent new strain is a double, everblooming, super-branching Larkspur and grows over 6 feet. Pkt. 10 cts., ¼ oz. 30 cts., oz. \$1.00.

Lustrous Carmine. Bright red. Pkt. 10 cts., ¼ oz. 30 cts.

Giant Imperial White King. (New). The florets are extremely large and fully double, measuring 2 inches across, evenly and closely spaced, of a clear glistening white. Pkt. 10 cts., ¼ oz. 30 cts., oz. \$1.00.

Giant Imperial Coral King. (New). A new color in Larkspurs. Blush pink with a strong suffusion of coral which deepens and gets richer as the flowers mature. Pkt. 10 cts., ¼ oz. 30 cts., oz. \$1.00.

Annual Larkspur

LANTANA

Hybrida, Mixed. Annual. Shrubby annual plant with verberna-like flowers in shades of white, red, and yellow with an agreeable aromatic perfume. May be grown in pots or set out in summer. Remains in bloom late in autumn. Height, 2 feet. Pkt. 10 cts., ¼ oz. 30 cts., oz. \$1.00.

LOBELIA

Crystal Palace. 4 inches. Deepest blue annual. The compact class form bushy plants fairly sheeted with bloom throughout the season. Highly desirable for edgings, ribbon bedding and garden decoration as well as for pot culture. Pkt. 10 cts., ⅛ oz. 30 cts., ¼ oz. 50 cts.

LUPINUS—LUPINE

Lupines are showy plants, a little out of the ordinary, with handsome, conspicuous flowers, borne in terminal racemes, somewhat resembling the sweet pea. Do not attempt to transplant the annual sorts.

Hartwegi, Annual, Finest Mixed. Choice assortment of colors. Height, 2 feet. Pkt. 5 cts., oz. 50 cts.

Polyphyllus, Hardy Perennial, Finest Mixed. Various shades of Pink, Purple, Blue, and White. If sown early will bloom the first season. Height, 3 feet. Pkt. 10 cts., oz. 50 cts.

Marigold

AFRICAN MARIGOLD

Prince of Orange. Our trials with this convince us that this is the best full double orange. Perfect shaped flowers of tight structure of a glowing orange color. Pkt. 10 cts., ¼ oz. 40 cts., oz. \$1.25.

Lemon Queen. The finest yellow strain, similar to "Prince of Orange," except in color. A grand variety for the garden or cutting. Pkt. 10 cts., ¼ oz. 40 cts., oz. \$1.25.

Dixie Sunshine (Award of Merit 1936 All-American Awards). A grand new Marigold, tall and stately, with 100% double flowers of bright golden yellow. Does not have the objectional odor of the older types. Rich, attractive foliage. A later bloomer than most varieties, and should be started early. Pkt. 10 cts., ¼ oz. 40 cts., oz. \$1.25.

Collarette "Crown of Gold." Only Gold Medal winner in the 1937 All-American Selections. A new type with 2½ inch orange flowers formed with curled, quilled petals surrounded by a flat collar of petals. Fragrant blossoms, and the foliage is odorless. A grand early flowering variety. Pkt. 10 cts., ¼ oz. 40 cts., oz. \$1.25.

Gigantea "Sunset Giants." It is the largest Marigold yet produced. The loosely formed, full centered flowers average five inches, and there is a blending of rich colors from golden orange to a new shade of primrose. Exceptional work has been done in the selection of this type. Highly recommended. Pkt. 10 cts., ⅛ oz. 30 cts., ¼ oz. 50 cts.

"Guinea Gold." A distinct novelty with a profusion of large semi-double flowers of deep orange flushed with gold. The plant forms graceful, pyramidal clumps 2½ feet high. Blooms throughout the summer. Pkt. 10 cts., ¼ oz. 30 cts., oz. \$1.00.

"Yellow Supreme" (Winner of Gold Medal in the 1935 All-American Selections). A dazzling beauty with large, fluffy Carnation-flowered blooms of rich lemon yellow. It has a mild honey fragrance, it is a profuse bloomer, and it is a wonderful cutter. Highly recommended. Pkt. 10 cts., ¼ oz. 30 cts., oz. \$1.00.

Tall Varieties Mixed. A pleasing mixture of the fine tall type. Pkt. 10 cts., ¼ oz. 30 cts., oz. \$1.00.

FRENCH MARIGOLD

Harmony. A remarkable break in Dwarf French Marigolds. The perfect shaped flowers resemble Scabiosas and are a striking combination of bright gold bordered with rich maroon. Being exceptionally uniform in habit, bushy and covered with bloom, it is recommended for bedding and edging. An English novelty of merit. Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts., oz. \$1.25.

"Golden Ball." A neat dwarf with a profusion of tight double golden yellow flowers. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

"Dark Brown." A unique dwarf double with mahogany brown flowers. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

"Legion of Honor" Single flowers of rich golden yellow tipped with velvety brown. Dwarf habit. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

Dwarf Double Mixed. A fine mixture of all the fine named varieties. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

MEXICAN FIRE-BUSH OR SUMMER CYPRESS

An easily grown annual which forms a cypress-like hedge, with feathery green foliage. At the approach of autumn the foliage turns to a deep red color. Height, 2 to 3 feet. Pkt. 5 cts., oz. 40 cts.

MIGNONETTE, SWEET-SCENTED

Valuable on account of its fragrance. Sow in succession during the summer. Annual. Pkt. 5 cts., $\frac{1}{4}$ oz. 20 cts., oz. 60 cts.

MOONFLOWERS

Blue. Deep clear blue flowers. Vines are rapid growth and bloom profusely. Soak seed in water 24 hours before planting. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

White. Vines are covered with large white flowers. Seeds should be soaked in water. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

MORNING-GLORIES

Fine for covering fences and trellises on account of their rapid, luxuriant growth. They bloom freely.

Japanese Imperial. Flowers of immense size in a great variety of colors. Pkt. 5 cts., oz. 25 cts.

Heavenly Blue (Rubra Coerulea). True blue flowers with white throat measuring $3\frac{1}{2}$ to 4 inches across. Very beautiful and good bloomers. Pkt. 10 cts., oz. \$1.00.

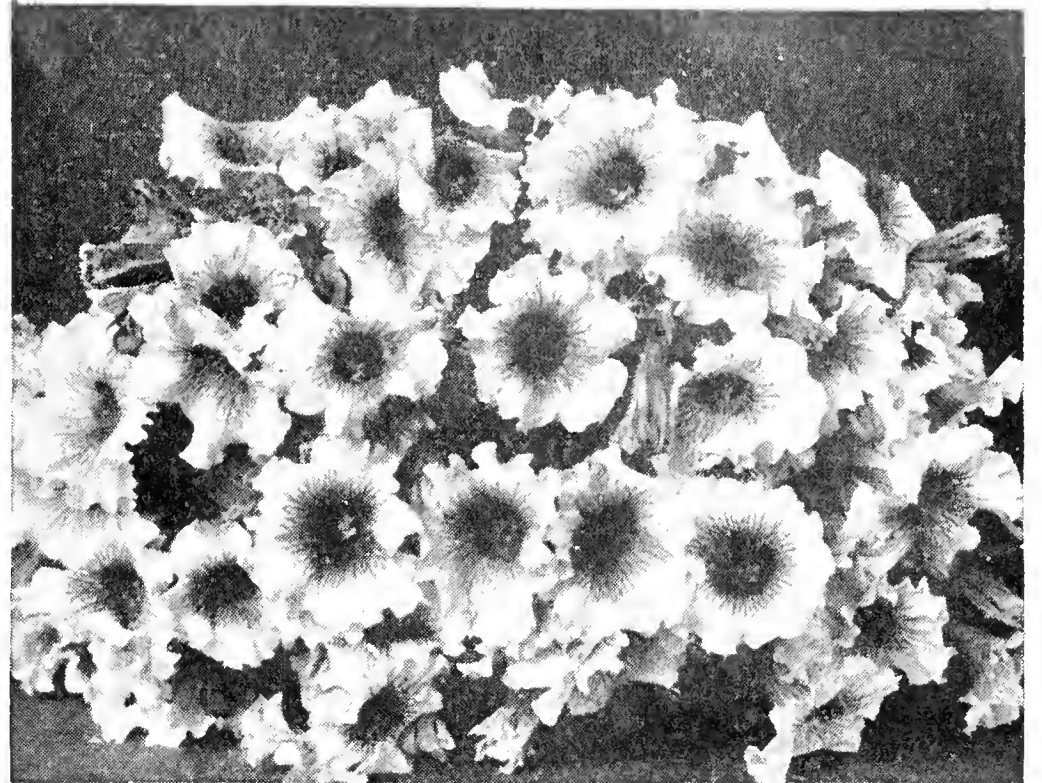

GRAND NEW DOUBLE SWEET-SCENTED NASTURTIUM

Double Gleam Hybrids (The Gold Medal Flower). The hybrids are a collection of gorgeously colored, large, well-formed double flowers of dazzling beauty. Glorious double flowers in salmon, golden yellow, orange scarlet, cerise, cream, orange and crimson on upright stiff stems, abound in profusion. Plants semi-dwarf, easily grown in the garden. Fragrant. Pkt. 5 cts., oz. 30 cts.

Double Scarlet Gleam. Individual double blooms of fiery orange scarlet, almost 3 in. across. The sweet fragrance is very pronounced and the double flowers more uniformly well formed. Plants are semi-dwarf, bearing numerous flowers on long wiry stems. Pkt. 5 cts., oz. 30 cts.

Dwarf Double Gem. At last we have the perfect nasturtium. Very compact plants without runners; an abundance of long stemmed flowers in colors ranging from the deepest crimson through orange, salmon and cerise to cream. Bright clear foliage makes this a perfect border plant. Pkt. 5 cts., oz. 30 cts.

Golden Gleam. Large double golden yellow flowers $2\frac{1}{2}$ inches to 3 inches across. Borne on stiff erect stems 6 inches in length. Pkt. 5 cts., oz. 30 cts.

Petunia "Martha Washington"
An Award of Merit for its beauty

SINGLE FLOWERING NASTURTIUMS

Our Gilt-Edge Mixtures are especially rich in brilliant colors, large, single flowers and free-blooming.

Tall or Climbing, Choicest Mixed. Pkt. 5 cts., oz. 15 cts.
Tom Thumb Dwarf, Choice Mixed. Pkt. 5 cts., oz. 15 cts.

NICOTIANA—FLOWERING TOBACCO

Affinis. New hybrids. The plants average $2\frac{1}{2}$ feet in height and bloom profusely in shades of rose red, crimson, and creamy white. Annual. Pkt. 5 cts., oz. 50 cts.

White. Pkt. 5 cts., oz. 50 cts.

PANSIES

Trimardeau or Giant Mixed. A Giant Flowering variety with an improved color range. Artistic effects can be achieved by planting this superb mixture. Pkt. 15 cts., $\frac{1}{4}$ oz. 50 cts., oz. \$1.75.

Price's Giant Flowering Mixed. (35 varieties). Pkt. 25 cts., $\frac{1}{4}$ oz. 80 cts., oz. \$3.00.

TUFTED PANSIES—VIOLAS HP

While the flowers of the Tufted Pansies are not as large as the regular type, yet they bloom so freely that they are superior to pansies where effect is wanted, the colors being particularly clear and distinct; they also bloom for a longer time.

Cornuta Mixed. A splendid mixture of the best varieties. Pkt. 10 cts., $\frac{1}{4}$ oz. 60 cts., oz. \$2.00.

Nana Compacta "Martha Washington." Winner of an Award of Merit in the 1935 All-American Selections. A unique new novelty in Petunias. It is a frilled and ruffled dwarf type of very neat habit. A perfect ball effect, nine inches high, studded with lovely frilled blooms. The frilled portion of the flower is blush white and the center of the large three inch flower is blue and lavender. It is strongly veined with purple giving a rich wine red shade to the depth of the throat. Comes 100% true from seed and is recommended for bordering garden paths, bedding, pots, or window boxes. Pkt. 25 cts., $\frac{1}{16}$ oz. \$2.00.

BEDDING PETUNIAS

These are ideal for beds, edging a garden path, for a formal border, or for a bright spot of color in the garden. They are continually in bloom with a lavish display of rich shades.

Howard's Star. A magnificent variety with a well defined pointed star of blush white on velvety maroon. Pkt. 10 cts., $\frac{1}{8}$ oz. 35 cts., $\frac{1}{4}$ oz. 60 cts.

Nana Compacta "Rose Gem" (Award of Merit 1936 All-American Awards). A splendid counterpart of the Gold Medal winner, "Pink Gem," greatly improved as to color and type. The compact, eight inch plants are studded with a profusion of bright rose colored flowers. Highly recommended for bedding, edging of paths, and for pot culture. Pkt. 10 cts., $\frac{1}{8}$ oz. 35 cts., $\frac{1}{4}$ oz. \$1.25.

PRICE'S FLOWER SEEDS

Rose of Heaven. A brilliant rose pink. Dwarf and compact in habit. Pkt. 10 cts., $\frac{1}{8}$ oz. 35 cts., $\frac{1}{4}$ oz. 60 cts.

Snowball. One of the finest bedding whites. A clear bright pearl color. When edged with Rosy Morn it is very effective. Pkt. 10 cts., $\frac{1}{8}$ oz. 35 cts., $\frac{1}{4}$ oz. 60 cts.

Viola. A glowing deep violet. When used in a bed it makes a carpet of vivid color. Pkt. 10 cts., $\frac{1}{8}$ oz. 45 cts., $\frac{1}{4}$ oz. 80 cts.

Rosy Morn Improved. An extra select strain of this popular and delightful bright rose with white throat. Pkt. 10 cts., $\frac{1}{8}$ oz. 35 cts., $\frac{1}{4}$ oz. 60 cts.

Silver Blue. A choice, delicate light blue. An ideal companion for Rose of Heaven. Pkt. 10 cts., $\frac{1}{8}$ oz. 45 cts., $\frac{1}{4}$ oz. 80 cts.

Compacta Magnifica. The finest mixture of the compact types. A wide range of colors from lilac, rose, to carmine, blue, and violet with varying throats and marbled effects. Pkt. 10 cts., $\frac{1}{8}$ oz. 35 cts., $\frac{1}{4}$ oz. 60 cts.

LARGE FLOWERED PETUNIAS

The following varieties are especially fine for bedding, for the groups in the border, and single specimens in pots are particularly attractive.

Flaming Velvet (Gold Medal Winner 1936 All-American Awards). A brilliant velvety blood red toned with a sparkling crimson. Remarkable for its color, type and uniformity. Pkt. 10 cts., $\frac{1}{8}$ oz. 45 cts., $\frac{1}{4}$ oz. 80 cts.

Giants of California. A special blended mixture of the light and dark colors including many that are fringed and ruffled with attractive deep throats. This seed is from the first picking of the choicest plants. Pkt. 25 cts., $\frac{1}{16}$ oz. \$1.25.

Dwarf Giants "Ramona Strain." Flowers are beautifully ruffled and fringed with open, well marked throats. A splendid array of bright and pastel colors. This sturdy dwarf is particularly suited for pot culture, and is a gem in the low border. Pkt. 35 cts.

Fluffy Ruffles. A choice novelty with large single flowers so prettily ruffled and finely fringed that they resemble doubles. A mixture of gorgeous colors. Pkt. 40 cts.

Elk's Pride. The largest and deepest velvety purple. One of the best plain edge varieties. Pkt. 40 cts.

Phlox

Drummond Grandiflora. Hardy annuals. 1 foot. Blooms early, free, and continuing until severe freezing. The seed may be planted in the open ground May 1st or in hotbed or house earlier, afterwards transplanted into rich ground, 8 to 10 inches apart each way. Choice Mixed. Pkt. 10 cts., $\frac{1}{4}$ oz. 35 cts., oz. \$1.00.

Drummond Nana (Dwarf). Grows about 6 inches high, splendid for pot culture or for ribbon lines and for massing Choice Mixed. Pkt. 10 cts., $\frac{1}{4}$ oz. 65 cts., oz. \$2.00.

Hardy Perennial. Named varieties of these are among the show features of our nurseries. Seed is saved from this magnificent collection of all new, standard sorts of every color and description. Finest Mixed. Pkt. 10 cts., $\frac{1}{4}$ oz. 45 cts., oz. \$1.50.

ANNUAL POPPY

Double Cardinal. Flowers are large fringed and fully double. Mixed. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

Double Shirley Art Shades. A most charming poppy. Large double flowers. Petals crinkled and fluted, measuring 3 to 4 inches across. Mixed colors of clear new shades. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

Shirley. Varying in color from pure white to rosy carmine and deep crimson in mixture. Mixed colors. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

PERENNIAL POPPY HP

Oriente, Scarlet. The big, bright scarlet, Decoration Day Poppy. A hardy perennial form bearing immense single flowers in spring. Pkt. 10 cts., $\frac{1}{4}$ oz. 35 cts., oz. \$1.25.

Nudicaule (Iceland Poppy). A hardy type of Poppy delicately formed and containing many shades of yellow and orange which are foreign to their shorter lived annual cousins. 18 inches high. Pkt. 10 cts., $\frac{1}{4}$ oz. 45 cts., oz. \$1.50.

NOVELTY POPPIES

Carnation Flowered Mixed. Large carnation-type flowers in a splendid selection of brilliant shades. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

Peony Flowered Mixed. Giant Peony-like flowers in colors ranging from white through the salmon pinks to cardinal and violet. An impressive show. 2½ feet. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

PORTULACA—MOSS ROSE

Dwarf-growing plants of easy culture, thriving best in a light, sandy soil and a sunny situation.

Single Mixed. Pkt. 5 cts., $\frac{1}{4}$ oz. 25 cts., oz. 80 cts.

Double Mixed. Unsurpassed for brilliancy. A wide range of colors—orange, red, and white. Pkt. 10 cts., $\frac{1}{4}$ oz. 45 cts., oz. \$1.50.

PRIMROSE—MIXED HP

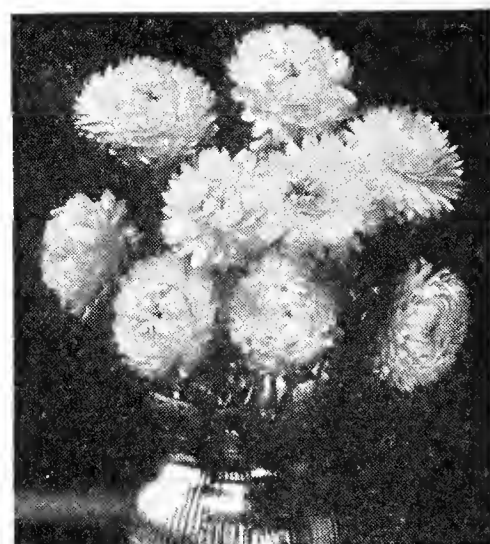

Malacoides. Delightful free-flowering plants producing graceful spikes, each carrying several whorls of small flowers. A favorite. Blooms for a long time. Mixed. Pkt. 10 cts., $\frac{1}{8}$ oz. 25 cts.

PYRETHRUM PAINTED DAISY HP

Single and Double Mixed. Showy plants that bloom the first season if seed is sown early. Flowers double globular. 2 to 3 inches across, white, rose, crimson, and scarlet. The foliage is fine-cut and ferny. Height, 2 feet. Pkt. 10 cts., $\frac{1}{4}$ oz. 60 cts., oz. \$2.00.

Salvia

Strawflowers

SALVIA—SCARLET SAGE

The Salvia is among our most popular and useful bedding plants. There is nothing more effective in the mid-summer or fall than these bright scarlet flowers. Seed should be started either in the house or in hotbeds from February till April; it may also be sown in the open ground in May.

America (Globe of Fire). Dwarf, bushy, compact grower and very uniform in height and shape. Spikes of brilliant scarlet flowers. Pkt. 10 cts., $\frac{1}{4}$ oz. 45 cts., oz. \$3.00.

Bonfire (Clara Bedman). Compact, bushy plants, 2 feet high, producing innumerable erect spikes of the most brilliant scarlet flowers. Pkt. 10 cts., $\frac{1}{4}$ oz. 60 cts., oz. \$2.00.

Splendens. Tall-growing plants with bright scarlet flowers. Pkt. 10 cts., $\frac{1}{4}$ oz. 60 cts., oz. \$2.00.

Zurich. One of the earliest flowering of all Salvias. It is of dwarf, bushy growth, with an abundance of bright scarlet flowers. 1½ ft. Pkt. 10 cts., $\frac{1}{4}$ oz. 45 cts., oz. \$3.00.

LARGE-FLOWERING SALPICLOSSIS

A free-flowering annual, succeeding best in cool, moist soils. The large flowers are most vividly spotted and striped on ground-colors of deep blue and rose, velvety yellow and reddish-bronze. Pkt. 10 cts., $\frac{1}{4}$ oz. 25 cts., oz. 80 cts.

GIANT SNAPDRAGON—ANTIRRHINUM

The new varieties are so far superior to the old-time Snapdragon that really there is no comparison. The blooms are very much larger, are better shaped, and far more brilliantly colored. The plants bloom very freely over a long period.

Rust Proof Mixed. The largest advancement in raising Snapdragons in this new variety completely free of rust. Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts., oz. \$1.50.

LARGE FLOWERED DOUBLE SCABIOSA

These beautiful hardy annuals are in great demand. They grow about 2½ feet high. We highly recommend these new hybrid Scabiosas to all growers. Pkt. 5 cts., $\frac{1}{4}$ oz. 25 cts., oz. 80 cts.

Giants, Special Mixture. Embraces a magnificent assortment of the finest new varieties. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

SNOW-ON-THE-MOUNTAIN HHP

A bushy plant with insignificant flowers, but whose broad green leaves are heavily margined with silvery white. Height, 2 feet. Pkt. 5 cts., oz. 60 cts.

SHASTA DAISY HP

Alaska. The Shasta Daisy, Alaska is a very large-flowering strain, the blooms measuring 4 to 5 inches across, with broad overlapping petals of purest white. One packet sows 12 feet of row. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

STOCKS

Early Giant Imperial. Plants about 2½ feet and having numerous spikes of very large, double, delightfully fragrant flowers. If sown in February or March, will produce plants that will bloom out-of-doors from midsummer till frost. **Finest Mixed.** Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts., oz. \$1.50.

STATICE—SEA LAVENDER

Sinuata. Perhaps the prettiest of the various Everlastings, with long sprays of bright-colored paper-like flowers. The seeds are in the dried flower-heads which should be planted without separating, laying them flat instead of upright. **Mixed.** Pkt. 10 cts., $\frac{1}{4}$ oz. 20 cts., oz. 60 cts.

STRAWFLOWER OR EVERLASTING FLOWER

Much prized for durable bouquets and winter decoration. To dry, gather flowers when partly unfolded and hang, heads down, in a cool place. **Giant-flowering, Mixed.** Pkt. 5 cts., $\frac{1}{4}$ oz. 25 cts., oz. 80 cts.

SUNFLOWER—HELIANTHUS

Dwarf Red. Rich Chestnut Red tipped Yellow. 4 feet. Pkt. 10 cts., $\frac{1}{4}$ oz. 20 cts., oz. 60 cts.

Stella. Large golden yellow petals, small dark center. 4 feet. Pkt. 10 cts., $\frac{1}{4}$ oz. 20 cts., oz. 60 cts.

SWEET SULTAN (Centaurea imperialis)

Blooms of exquisite texture, possessing a delightful fragrance. The plants grow 2 feet tall and bear a profusion of elegant, long-stemmed flowers. Our mixture includes all the lovely colors belonging to this type. **Finest Mixed.** Pkt. 10 cts., $\frac{1}{4}$ oz. 20 cts., oz. 60 cts.

SWEET WILLIAM (Dianthus barbatus) HP

These make wonderful border plants, with heads of bloom of great size and wonderful beauty. Our mixture combines many rich and beautiful colors.

Single. The fine rounded trusses 3 to 4 inches across of these sorts are composed of many fine disc-like flowers gayly colored and marked. **Mixed.** Pkt. 10 cts., $\frac{1}{4}$ oz. 20 cts., oz. 60 cts.

Double. Quite similar in habit and form to the single type but the trusses are made up of many dainty double blooms. Less showy than the single sorts but longer in flower. **Mixed.** Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

Newport Pink. Salmon pink. Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts.

SWEET WIVELSFIELD

Annual Sweet William. Sweet-scented. Its wealth of color and long blooming season makes it very desirable. Pkt. 10 cts., $\frac{1}{4}$ oz. 25 cts., oz. 80 cts.

VALERIAN—GARDEN HELIOTROPE HP

Perennial border plants; large flowers having a fragrance resembling that of the heliotrope. **Mixed.** Height, 2 to 3 feet. Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

VENIDIUM—NEW AFRICAN DAISY

Fastuosum Hybrids. Beautiful assortment of pastel shades—buff, lemon, cream, light orange, white and butter-yellow; each petal blotched at the base. Pkt. 10 cts., $\frac{1}{4}$ oz. 45 cts.

VERBENA

An excellent annual for beds and massing and for a gorgeous display during the summer months it cannot be excelled.

Mammoth Mixed. Pkt. 5 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

VERBENA—CRIMSON GLOW (New)

The flowers are pure, self-colored glowing Crimson, of good size, freely produced on plants which are semi-compact. **Crimson Glow** is a vivid Verbena and rounds out the color shades of the Verbenas. Pkt. 10 cts., $\frac{1}{4}$ oz. 60 cts., oz. \$2.00.

WALLFLOWER HP

Very pretty dwarf hardy biennial plants, usually handled as annuals, flowering freely through the summer. For early spring flowering, sow in late summer. Splendid for rockery. Plants grow about 1 foot high, with heads of brilliant orange flowers. **Single.** Pkt. 10 cts., $\frac{1}{4}$ oz. 30 cts., oz. \$1.00.

TRITOMA—RED HOT POKER

Tall spikes topped by narrow, tubular, pale yellow to orange-red flowers closely arranged in shingle-like fashion. A stately plant for the border and cutting. August to October. 3 to 4 ft.

New Hybrids. Unusual colors—citron, yellow, orange, coral-red. Pkt. 10 cts., $\frac{1}{4}$ oz. 40 cts., oz. \$1.50.

Zinnias

CROWN O' GOLD—DESERT GOLD (New)

A bicolor Zinnia comprising the deep and lighter shades of gold, each petal overlaid at the base with a deeper golden yellow. The flowers are large, double, well formed on generous stems. Plant 3 ft. tall. Pkt. 15 cts., 1/8 oz. 35 cts., 1/4 oz. 65 cts.

EARLY WONDER—GYPSY (New)

A dwarf early bloomer, 30 to 40 days, free blooming, deep rich burnished orange, medium sized flowers on long wiry stems, a good cut-flower. Desirable variety. Pkt. 15 cts., 1/8 oz. 25 cts., 1/4 oz. 45 cts.

FANTASY STAR DUST (New)

The shaggy ray-like petals are entirely different. A delicate graceful bloom of imposing appearance of a rich golden yellow. The plants are 2 1/2 ft. and early blooming. Pkt. 15 cts., 1/8 oz. 25 cts., 1/4 oz. 45 cts.

Fantasy (New). A bright colorful mixture of shaggy petaled medium sized double flowers. Mixed. Pkt. 10 cts., 1/8 oz. 20 cts., 1/4 oz. 35 cts.

Scabious Flowered (New). Plants 2 1/2 feet bearing numerous medium sized flowers. Resembles annual Scabiosa. Pkt. 10 cts., 1/8 oz. 20 cts., 1/4 oz. 35 cts.

CACTUS-FLOWERED ZINNIAS

Mixed Colors. Large, attractive double flowers 3 to 4 in. across, with petals partially quilled or tubular. Mostly warmer shades, such as salmon, deep rose, old rose, russet, and dark red. 3 ft. Pkt. 10 cts., 1/4 oz. 30 cts., oz. \$1.00.

DOUBLE LILLIPUT OR POMPON ZINNIAS

A very pretty type of compact habit not over 15 inches high, bearing in lavish profusion, small densely double flowers on long stems, held well above the foliage. Make a good line or bed and are of more than usual value for cutting. Finest Mixed. Pkt. 10 cts., 1/8 oz. 20 cts., 1/4 oz. 35 cts.

DOUBLE DAHLIA-FLOWERED ZINNIAS

Exquisite. Pale rose, deeper center.

Purple Prince. Fine deep purple.

Crimson Monarch. Largest and best red.

Oriole. Immense; orange and gold.

Canary Bird. Fine; large; primrose.

Meteor. Deep rich glowing red.

Polar Bear. The best large pure white.

Any of the above varieties: Pkt. 10 cts., 1/8 oz. 20 cts., 1/4 oz. 35 cts.

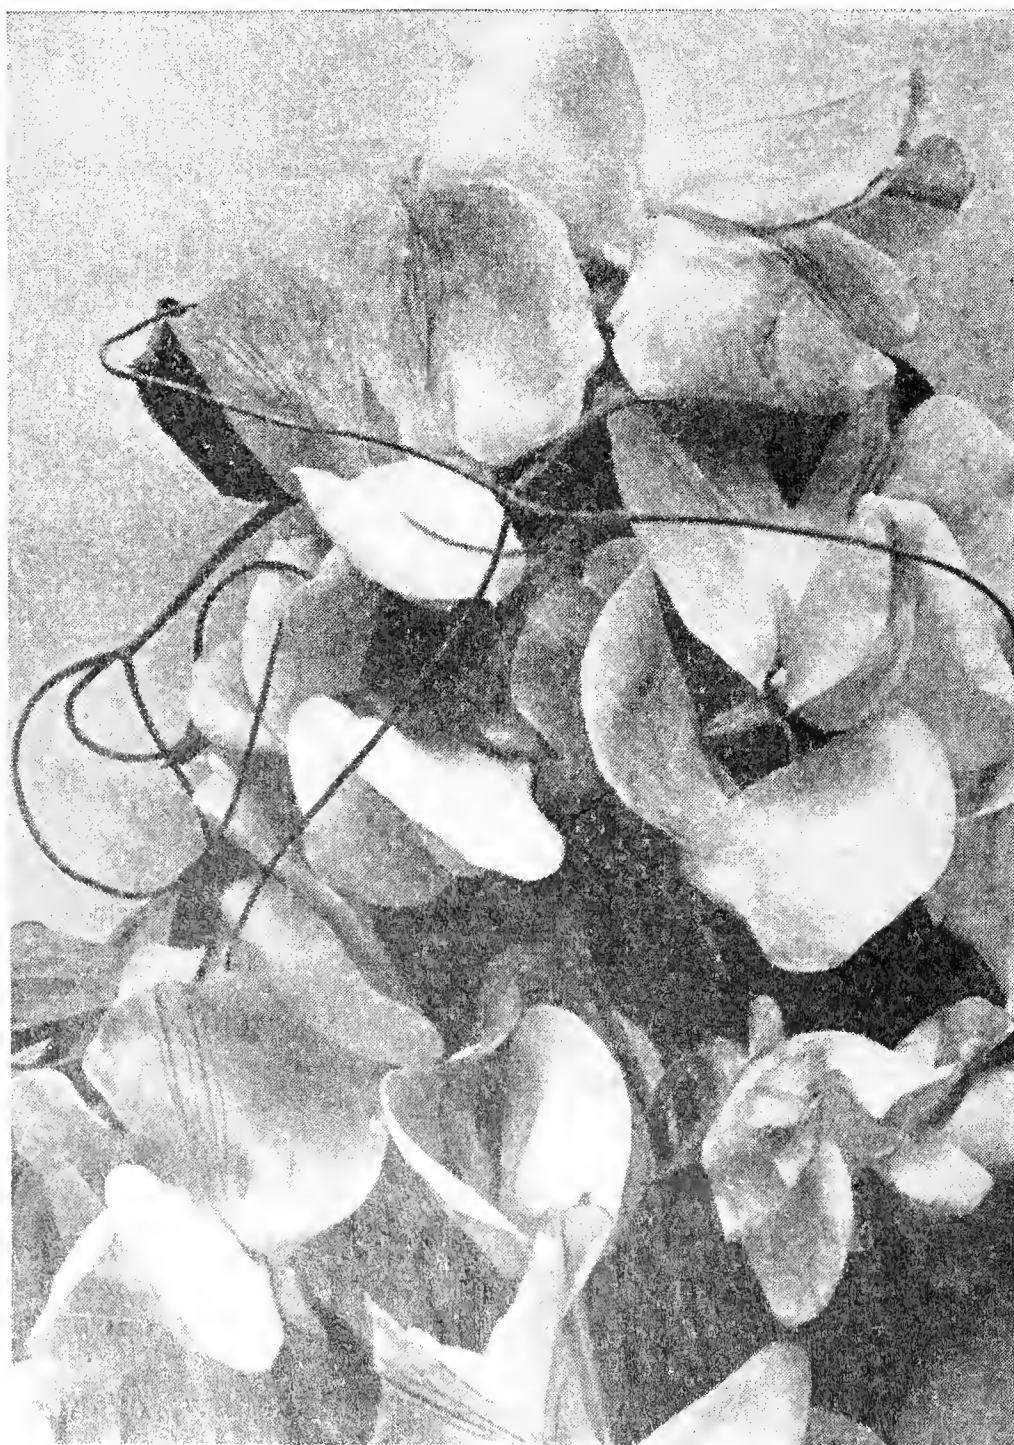

Dahlia-flowered Mixed, from the varieties named above. Pkt. 10 cts., 1/4 oz. 30 cts., oz. \$1.00.

Price's Giant Flowered Mixed. Pkt. 10 cts., 1/4 oz. 65 cts., oz. \$1.25.

CUT AND COME AGAIN ZINNIAS

Mixed Colors. A colorful blend of this popular bedding and cutting Zinnia. Pkt. 10 cts., 1/4 oz. 30 cts., oz. \$1.00.

SPENCER OR ORCHID-FLOWERED SWEET PEAS

LATE FLOWERING SPENCER SWEET PEAS

This strain includes the largest and most beautifully formed Sweet Peas, truly gigantic in size, measuring 2 to 2 1/2 inches across. They are beautifully formed with huge standards, open and upright and immense wings gracefully poised. Both standards and wings are delicately waved. Three and often four handsome blossoms are borne on long, strong stems, rendering them available as cut-flowers for vases, bouquets and other decorations.

Avalanche. Very large white.

Celebrity. Bright orange.

Daffodil. Large, deep primrose.

Debutante. Salmon shaded coral.

Ecstasy. Vigorous blush pink.

Mrs. Tom Jones. Deep amethyst blue.

Olympia. Rich purple.

Pinkie. Largest size, rose pink.

Powerscourt. Large lavender.

Red Boy. Deep crimson.

Reflection. Best clear blue.

Smiles. Shrimp pink, shaded salmon.

Welcome. Brightest scarlet.

Any of the above: Pkt. 10 cts., 1/2 oz. 15 cts., 1 oz. 25 cts., 1/4 lb. 75 cts., 1 lb. \$2.25

Price's Superb, Mixed. Blended from only choice selected colors of the better varieties. Pkt. 5 cts., oz. 20 cts., 1/4 lb. 50 cts., lb. \$1.50.

HARDY SWEET PEAS HP

Showy, free-flowering perennial. Blooms continuously from early spring until midsummer. Although lacking fragrance, they are very valuable because they will last almost indefinitely. A very vigorous grower, often growing 8 to 10 feet. Soak seed overnight, sow 1/2 inch deep. Pkt. 10 cts., oz. 25 cts., 1/4 lb. 75 cts.
